Rank	Status	Study
1	Not yet recruiting	<div>Diabetes in India Nutrition Guidelines Study (DINGS)</div> <div>Condition: Type 2 Diabetes Mellitus</div> <div>Interventions: Other: MNT according to AND EBNPG for Type 2 DM; Other: Usual Nutrition Care</div> <div>Study Type: Interventional</div>
2	Not yet recruiting	<div>Impact of Nutrition and Swallowing Function of Head and Neck Cancer Patients During the Course of Treatment</div> <div>Conditions: Head and Neck Cancer; Surgery; Nutrition; Swallowing</div> <div>Interventions: Behavioral: nutrition /swallowing counseling; Behavioral: G-tube/swallowing intervention; Behavioral: nutrition /swallowing intervention</div> <div>Study Type: Observational</div>
3	Recruiting	<div>NUTRITION: Natural Tocotrienol Against Ischemic Stroke Event</div> <div>Conditions: Ischemic Stroke; Transient Ischemic Attack (TIA)</div> <div>Intervention: Other: Vitamin E tocotrienol (TCT) pills ; Low dose Aspirin</div> <div>Study Type: Interventional</div>
4	Recruiting	<div>Postoperative Artificial Nutrition After Pancreaticoduodenectomy</div> <div>Condition: Pancreatic Disease</div> <div>Interventions: Procedure: Total parenteral nutrition; Procedure: Enteral nutrition</div> <div>Study Type: Interventional</div>
5	Completed	<div>Evaluating the Influence of Ready-to-use (RTU) Parenteral Nutrition in the Clinical Outcome of Patients Study</div> <div>Condition: Parenteral Nutrition</div> <div>Interventions: Dietary Supplement: RTU TPN with olive oil as the primary lipid source; Other: CNF Parenteral nutrition; Other: CNF parenteral nutrition</div> <div>Study Type: Interventional</div>
6	Recruiting	<div>Comparative Phase 3 Trial to Assess the Safety and Efficacy of Triple-chamber Parenteral Nutrition Formulation</div> <div>Condition: Nutrition Support</div> <div>Interventions: Other: Oliclinomel N4; Other: Compounded ternary parenteral nutrition admixtures</div> <div>Study Type: Interventional</div>

7	Unknown †	Prevention of Parenteral Nutrition-Associated Cholestasis With Cyclic Parenteral Nutrition in Infants	Conditions: Cholestasis; Prematurity; Gastroschisis; Intestinal Atresia; Necrotizing Enterocolitis Intervention: Drug: Parenteral Nutrition Study Type: Interventional
8	Recruiting	Individualized Nutrition for Adult Recipients of Allogeneic Stem Cell Transplants - Effect on Quality of Life	Condition: Effect of Individualized Nutrition on Quality of Life Intervention: Dietary Supplement: Individualized Nutrition Study Type: Interventional
9	Completed	The Correlations Between Early Enteral Nutrition and Intra-abdominal Pressure in Severe Acute Pancreatitis	Conditions: Acute Pancreatitis; Intra-abdominal Hypertension Interventions: Drug: early enteral nutrition; Drug: Delayed enteral nutrition Study Type: Interventional
10	Completed	Improvement of Nutritional Status in Elderly Residents of Long-term Facilities	Condition: Nutrition Disorders Interventions: Other: Dentary; Other: Nutrition; Other: Dentary + Nutrition Study Type: Interventional
11	Completed	Improving Food Security and Nutrition to Promote ART Adherence in Latin America	Condition: Medication Adherence Interventions: Behavioral: Diet/nutrition counsel+food aid; Other: Dietary/nutrition counsel Study Type: Interventional
12	Not yet recruiting	Partial Enteral Nutrition With a Unique Diet vs. Exclusive Enteral Nutrition for the Treatment of Pediatric Crohn's Disease	Condition: Crohn's Disease Interventions: Other: Unique Diet+Partial Enteral Nutrition; Other: Exclusive Enteral Nutrition (Modulen) Study Type: Interventional
13	Completed	Early Enteral Nutrition for Severe Acute Pancreatitis	Condition: Acute Necrotizing Pancreatitis Interventions: Dietary Supplement: early enteral nutrition; Dietary Supplement: Parenteral nutrition Study Type: Interventional
14	Active, not recruiting	Early Oral Versus Enteral Nutrition After Pancreatoduodenectomy	Conditions: Pancreatic Cancer; Cancer of the Duodenum; Cholangiocarcinoma; Chronic Pancreatitis Interventions: Other: Enteral nutrition; Other: Oral nutrition Study Type: Interventional
15	Completed	Integrated Education Intervention to Improve Infant and Young Child Nutrition and Growth in Ghana	Condition: Improving Young Child Nutrition Interventions: Behavioral: nutrition and agricultural education; Behavioral: nutrition education Study Type: Interventional
16	Recruiting	Early Versus Late Parenteral Nutrition in the Pediatric Intensive Care Unit	Conditions: Critical Illness; Children Intervention: Other: Late parenteral nutrition Study Type: Interventional

17	Completed	District-based Mainstreaming Nutrition Project in Rural Pakistan	Condition: Malnutrition Interventions: Behavioral: Routine advice; Behavioral: Enhanced education Study Type: Interventional
18	Active, not recruiting	Impact of Early Parenteral Nutrition Completing Enteral Nutrition in Adult Critically Ill Patients	Conditions: Critical Illness; Starvation Interventions: Other: Withholding PN during the first week of ICU stay; Drug: Oliclinomel N71000 OR N71000E // Clinimix N17G35 OR N17G35E Study Type: Interventional
19	Recruiting	The Effect of Parenteral Nutrition Supplement on Esophagectomy Patients	Condition: Esophagus Cancer Interventions: Other: Parenteral supplement with enteral nutrition for patients after esophagectomy; Other: Enteral Nutrition alone for patients after esophagectomy Study Type: Interventional
20	Completed	Safety and Tolerance on Lipids of Parenteral and Enteral Nutrition in Critically Ill Patients With Liver Failure	Conditions: Liver Failure; Critical Illness Interventions: Other: Parenteral nutrition; Other: Enteral nutrition Study Type: Interventional

Rank	Status	Study
21	Enrolling by invitation	<div><div>Nutrition</div><div>Intervention for the Promotion of Healthy Weight Gain During Pregnancy</div><div>Conditions: Pregnancy; Overweight; Obesity</div><div>Intervention: Behavioral: Nutrition Education</div><div>Study Type: Interventional</div></div>
22	Recruiting	<div><div>EFA Nutrition 1-2 Yr-Olds</div><div>Condition: Infant Nutrition</div><div>Intervention: Dietary Supplement: Nutrition supplement containing Long Chain Polyunsaturated Fatty Acids (LCPUFA)</div><div>Study Type: Interventional</div></div>
23	Recruiting	<div><div>Enteral Nutrition Product in Mild Acute Pancreatitis</div><div>Conditions: Acute Pancreatitis; Enteral Nutrition</div><div>Interventions: Dietary Supplement: T-Diet plus At��mp��ro; Dietary Supplement: AlitraQ (Abbott)</div><div>Study Type: Interventional</div></div>
24	Completed	<div><div>Clinical Nutrition Concept for Hospitalized Patients With Malnutrition</div><div>Condition: Malnutrition</div><div>Interventions: Behavioral: evidence based clinical nutrition concept; Behavioral: care as usual</div><div>Study Type: Interventional</div></div>
25	Completed	<div><div>Oral Versus Parenteral Nutrition Support to Improve Protein Balance in Colorectal Surgical Patients</div><div>Condition: Colon Cancer</div><div>Interventions: Dietary Supplement: Oral Nutrition with dextrose and pressurized whey protein; Dietary Supplement: Peripheral Parenteral Nutrition</div><div>Study Type: Interventional</div></div>
26	Completed	<div><div>Medical Nutrition Therapy Program for Pregnant Women With Diabetes</div><div>Conditions: Gestational Diabetes; Type 2 Diabetes</div><div>Intervention: Other: medical nutrition therapy program</div><div>Study Type: Interventional</div></div>
27	Not yet recruiting	<div><div>Be Healthy in Pregnancy (BHIP) With Nutrition and Exercise</div><div>Conditions: Pregnancy Complications; Weight Gain</div></div>

		Intervention: Behavioral: Structured + monitored nutrition and exercise intervention
		Study Type: Interventional
28	Completed	Nutrition Labeling Program to Promote Healthy Dietary Patterns Conditions: Nutrition; Diet Intervention: Other: nutrition label Study Type: Interventional
29	Completed	Parenteral Nutrition Support for Patients With Pancreatic Cancer Conditions: Cancer Cachexia; Pancreatic Cancer Intervention: Dietary Supplement: parenteral nutrition Study Type: Interventional
30	Recruiting	Evaluation of Nutrition and Metabolism in Breast Cancer Patients Condition: Breast Cancer Interventions: Behavioral: Nutrition and Exercise Group; Behavioral: Yoga and Stretching Group Study Type: Interventional
31	Active, not recruiting	Home Parenteral Nutrition in Cancer Patients Condition: Cancer Intervention: Dietary Supplement: Home Parenteral Nutrition Study Type: Observational
32	Recruiting	Pilot Study on Gastro-intestinal (GI) Enteral Nutrition (EN) Tolerance in Intensive Care Unit Patients Condition: Critically Ill Interventions: Other: Specific Enteral Nutrition; Other: Standard Enteral Nutrition Study Type: Interventional
33	Recruiting	A Nutrition Hygiene Education Program for the Prevention of Child Malnutrition in Rural Kenya Condition: Child Nutrition Disorders Intervention: Behavioral: nutrition and hygiene education Study Type: Interventional
34	Recruiting	Impact of Disease Activity and Nutrition Treat on Postoperative Recurrence and Complications After Bowel Resection for Crohn's Disease Condition: Crohn's Disease Interventions: Dietary Supplement: nutrition treat; Other: surgery Study Type: Interventional
35	Completed	Strength and Nutrition Outcomes for Latino Adolescents Conditions: Obesity; Type 2 Diabetes; Cardiovascular Risk; Cancer Interventions: Behavioral: Control; Behavioral: Nutrition; Behavioral: Strength Training & Nutrition; Behavioral: Circuit Training & Nutrition Study Type: Interventional
36	Completed	Peroral Supplemental Nutrition in End-stage Renal Disease With and Without HIV Comorbidity Condition: End-Stage Renal Disease Interventions: Dietary Supplement: peroral high-caloric supplemental nutrition; Dietary Supplement: peroral supplemental nutrition Study Type: Interventional
37	Not yet recruiting	Early Goal-Directed Nutrition in ICU Patients - EAT-ICU Trial Conditions: Critical Illness; Intensive Care (ICU) Myopathy; Muscle Wasting; Loss of Physical Function; Mechanical Ventilation Interventions: Other: Early Goal-Directed Nutrition; Other: ASPEN-guidelines

Study Type: [Interventional](#)

- 38

Completed

[Strength Training and Nutrition Development for African American Youth](#)
Conditions: Obesity; Type 2 Diabetes; Cardiovascular Risk; Cancer
Interventions: Behavioral: Control; Behavioral: Nutrition; Behavioral: Strength Training & Nutrition
Study Type: Interventional
- 39

Completed

[Nutrition and Resistance Training in Head and Neck Cancer](#)
Condition: Head and Neck Cancer
Interventions: Other: Tailored Nutrition Intervention; Behavioral: Nutrition plus Exercise
Study Type: Interventional
- 40

Terminated

[Effect of Enteral Nutrition Support for Critically Ill Patients](#)
Conditions: Respiratory Distress Syndrome,Adult; Acute Lung Injury
Interventions: Other: Enteral nutrition with fatty acids; Other: Standard Enteral Nutrition
Study Type: Interventional

Rank	Status	Study
41	Active, not recruiting	<div><div>Nutritional</div><div>Status and Enteral Absorption Capability After Brain Death</div><div>Condition: Brain Death</div><div>Intervention: Dietary Supplement: enteral feeding with Oxepa® and Glutasolve®</div><div>Study Type: Interventional</div></div>
42	Completed	<div><div>The Impact of Immunostimulating Nutrition on the Outcome of Surgery</div><div>Conditions: Gastric Cancer; Pancreatic Cancer</div><div>Interventions: Drug: peptisorb; Drug: Stresson; Drug: Parenteral nutrition; Drug: Omegaven, Dipeptiven</div><div>Study Type: Interventional</div></div>
43	Completed	<div><div>Consequences of Parenteral Nutrition Photoprotection on Oxidant Related Diseases Among Extremely Low Birth Weight Infants</div><div>Condition: Infant, Premature</div><div>Interventions: Device: photoprotected bags, tubing, syringes; Device: standard tubing and bags</div><div>Study Type: Interventional</div></div>
44	Completed	<div><div>Philani Home-based Nutrition Intervention Program</div><div>Condition: Child Weight</div><div>Intervention: Behavioral: Philani nutrition intervention program (mentor mothers)</div><div>Study Type: Interventional</div></div>
45	Active, not recruiting	<div><div>Changing Dietary Patterns: an Individually Tailored Nutrition Intervention (OKE-study)</div><div>Condition: Obesity</div><div>Intervention: Behavioral: Personalized nutrition counseling</div><div>Study Type: Interventional</div></div>
46	Completed	<div><div>Randomized Study of Human-Milk Based Nutrition Versus Formula in Premature Infants</div><div>Condition: Infant, Very Low Birth Weight</div><div>Interventions: Dietary Supplement: Pasteurized human milk and pasteurized human milk fortifier; Dietary Supplement: Human milk fortifier (bovine-based), pre-term formula; Dietary Supplement: Pre-term/term formula</div><div>Study Type: Interventional</div></div>
47		<div><div>† Assessing Novel Methods of Improving Patient Education of Nutrition</div></div>

	Unknown		Condition: Chronic Kidney Disease Interventions: Behavioral: Internet-based nutrition module; Behavioral: usual care Study Type: Interventional
48	Completed	A Multi-Component Behavioral Nutrition Intervention for Homebound Elderly	Condition: Undernutrition Intervention: Behavioral: Nutrition Intervention Study Type: Interventional
49	Recruiting	Near Infrared Spectroscopy (NIRS) and Superior Mesenteric Artery (SMA) Doppler Patterns as Predictor of Feeding Tolerance in Very Low Birth Weight (VLBW) IntraUterine Growth Restricted (IUGR) and NON IUGR Infants	Conditions: Infant, Very Low Birth Weight; Infant Malnutrition; Feeding Disorder of Infancy or Early Childhood; Splanchnic Oximetry; Splanchnic Oxygenation Interventions: Other: different nutritional regimen; Other: comparison of different feeding regimens Study Type: Interventional
50	Completed	Evaluation of Two Enteral Nutrition Strategies in Mechanically Ventilated Patients	Condition: -Mechanically Ventilated Patients Intervention: Device: enteral nutrition Study Type: Interventional
51	Recruiting	Medical Nutrition Therapy Plus Transgestational Metformin For Preventing Gestational Diabetes In High Risk Mexican Women	Conditions: Pregestational Obesity (BMI > 27kg/m2); History of Polycystic Ovary Syndrome Interventions: Drug: medical nutrition therapy + metformin; Behavioral: Medical nutrition therapy Study Type: Interventional
52	Unknown †	Low Dose Parenteral Fat for Prevention of Parenteral Nutrition Associated Cholestasis in Preterm Neonates	Condition: Parenteral Nutrition-Associated Cholestasis Interventions: Other: Intravenous fat emulsion; Other: Restriction of intravenous fat emulsion to 1 gm/kg/d Study Type: Interventional
53	Completed	Pilot Test for a Newly Developed Nutrition Screening Method: Pediatric Subjective Global Assessment	Condition: Compare Two Nutrition Screening Tools Intervention: Other: Nutritional Screening Tools Study Type: Observational
54	Active, not recruiting	Validation of a Nutrition Screening Tool	Condition: Malnutrition Intervention: Other: Consumer Mini Nutritional Assessment Study Type: Observational
55	Active, not recruiting	Improving Nutrition and Health Outcomes in Intibuca, Honduras	Conditions: Malnutrition; Undernutrition Intervention: Dietary Supplement: Chispuditos Study Type: Interventional
56	Unknown †	Nutrition Risk Screening In China's Large/Middle/Baltimore vs Beijing Hospitals Of Metropolitans	Conditions: Overweight; Obesity Intervention: Study Type: Observational

57	Active, not recruiting	Can SMOFlipid®, A Composite Parenteral Nutrition Lipid Emulsion, Prevent Progression Of Parenteral Nutrition Associated Liver Disease In Infants? Conditions: Short Bowel Syndrome; Intestinal Failure; Gastrointestinal Motility Disorder; Mucosal Enteropathy Interventions: Drug: Intralipid 20%; Drug: SMOFlipid 20% Study Type: Interventional
58	Recruiting	WASH Benefits Bangladesh Conditions: Malnutrition; Diarrhea; Child Development Interventions: Behavioral: Water quality; Behavioral: Sanitation; Behavioral: Handwashing; Behavioral: Water quality, Sanitation, Handwashing (Combined WASH); Behavioral: Nutrition; Behavioral: Nutrition, Water quality, Sanitation, Handwashing Study Type: Interventional
59	Unknown †	Physical Activity and Nutritional Education as School-based Interventions to Control Obesity in Children and Adolescents Conditions: Overweight; Obesity Intervention: Behavioral: Physical Activity and Nutrition Education Study Type: Observational
60	Completed	Anti-inflammatory Effects of Enriched Enteral Nutrition During Human Experimental Endotoxemia Condition: Endotoxemia Interventions: Other: control enteral nutrition; Other: enriched enteral feeding Study Type: Interventional

Rank	Status	Study
61	Completed	<div>Improving Nutrition and Health Outcomes in Intibuca, Honduras (MANI I)</div> <div>Conditions: Malnutrition; Undernutrition</div> <div>Intervention: Dietary Supplement: Lipid-based nutritional supplement</div> <div>Study Type: Interventional</div>
62	Enrolling by invitation	<div>Compassionate Use of Omegaven® in the Treatment of Parenteral Nutrition Associated Hepatic Injury</div> <div>Condition: Total Parenteral Nutrition-induced Cholestasis</div> <div>Intervention: Drug: Omegaven®</div> <div>Study Type: Interventional</div>
63	Unknown †	<div>Nutrition and Physical Activity for Obesity</div> <div>Conditions: Obesity; Overweight</div> <div>Intervention: Other: Exercise</div> <div>Study Type: Interventional</div>
64	Completed	<div>Effective Means to Address Moderately Malnourished Children</div> <div>Condition: Malnutrition</div> <div>Interventions: Dietary Supplement: Food supplementation and nutrition education; Behavioral: Nutrition education; Other: Control Group</div> <div>Study Type: Interventional</div>
65	Recruiting	<div>Early Oral Nutrition in Mild Acute Pediatric Pancreatitis</div> <div>Condition: Acute Pediatric Pancreatitis</div> <div>Intervention: Dietary Supplement: Early Oral Nutrition</div> <div>Study Type: Interventional</div>
66	Completed	<div>Enteral Nutrition in the Treatment of Pancreatic Fistulas - A Prospective Study</div> <div>Condition: Pancreatic Fistula</div> <div>Interventions: Drug: enteral nutrition; Drug: Parenteral nutrition</div> <div>Study Type: Interventional</div>
67	Unknown †	<div>A Trial of Taurine Supplementation in Parenteral Nutrition 1</div> <div>Condition: Cholestasis</div>

Intervention: Procedure: intravenous taurine in nutritional supplement
Study Type: Interventional

68	Unknown [†]	PERformance Enhancement of the Canadian Nutrition Guidelines by a Tailored Implementation Strategy: The PERFECTIS Study Conditions: Critically Ill; Intensive Care Unit Intervention: Other: Tailored Change Strategy Study Type: Interventional
69	Completed	A Nutrition Intervention to Lower Blood Pressure in Adolescents Condition: Hypertension Interventions: Behavioral: diet high in fruits, vegetables, and dairy; Behavioral: Routine nutrition care Study Type: Interventional
70	Completed	INEC Study: Immuno-modulating Enteral Nutrition in Cancer Conditions: Malnutrition; Esophageal Cancer; Head and Neck Cancer Interventions: Dietary Supplement: Impact (R) Enteral Nutrition; Other: impact Study Type: Interventional
71	Completed	Intradialytic Parenteral Nutrition in Hemodialysis Patients Conditions: Malnutrition; Hemodialysis Patients Intervention: Drug: glucose, amino acids, lipid solutions, L-Carnitine, trace elements Study Type: Interventional
72	Recruiting	Effect of Fish Oil Emulsion on Liver Disease in Patients With Long-term Intravenous Nutrition Condition: Total Parenteral Nutrition-induced Cholestasis Interventions: Drug: Soybean oil based emulsion; Drug: Soybean oil based emulsion+Fish oil based emulsion Study Type: Interventional
73	Completed	Nutrition Support in Pediatric Stem Cell Transplantation Condition: Hematopoietic Stem Cell Transplantation Intervention: Drug: Parenteral Nutrition Study Type: Interventional
74	Recruiting	Serum Aluminum Concentration of Pediatric Patients Receiving Long-Term Parenteral Nutrition Condition: Aluminum Contamination of Parenteral Nutrition Intervention: Study Type: Observational
75	Terminated	Effect of Intradialytic Parenteral Nutrition on Morbidity and Mortality of Malnourished Hemodialysis Patients Conditions: Hemodialysis; Malnutrition Intervention: Drug: Intradialytic parenteral nutrition Study Type: Interventional
76	Active, not recruiting	Nutrition Education Intervention in Adults With Type 2 Diabetes Mellitus in a Resource Poor Setting Condition: Diabetes Mellitus, Type II [Non-insulin Dependent Type] [NIDDM Type] Uncontrolled Intervention: Behavioral: Nutrition education Study Type: Interventional
77	Completed	Automated Telephone Nutrition Support Condition: Diabetes Mellitus

Intervention: Behavioral: Automated Telephone Nutrition Support
Study Type: Interventional

78 Completed [Proper Nutrition, Physical Exercise and Appropriate Weight in Individuals With Long Term Mental Illness](#)
Condition: Obesity
Intervention: Behavioral: group therapy, physical exercise, nutrition lectures
Study Type: Interventional

79 Completed [Effect of Intravenous Nutrition and Epidural Analgesia on Protein Loss After Surgery](#)
Condition: Postoperative Protein Catabolism
Interventions: Other: Intravenous nutrition with glucose and amino acids; Other: Intravenous nutrition with glucose and amino acids.
Study Type: Interventional

80 Completed [The Effect of Intravenous Nutrition in Patients Undergoing Abdominal Surgery](#)
Condition: Postoperative Protein Catabolism
Interventions: Other: Intravenous nutrition with glucose and amino acids; Other: Intravenous nutrition with amino acids
Study Type: Interventional

Rank	Status	Study
81	Terminated	<div><div>Clinical Benefits of Preoperative Nutrition Support With Enteral Immune-enhancing Formulas in Surgical Oncology</div><div>Condition: CANCER</div><div>Interventions: Dietary Supplement: SUPPORTAN + GLUTAMINE PLUS; Dietary Supplement: NO PREOPERATIVE NUTRITION SUPPORT</div><div>Study Type: Interventional</div></div>
82	Recruiting	<div><div>Trial of Supplemental Parenteral Nutrition in Under and Over Weight Critically Ill Patients (TOP-UP).</div><div>Conditions: Critical Illness; Acute Respiratory Failure</div><div>Intervention: Dietary Supplement: Olimel (5.7%E / N9E)</div><div>Study Type: Interventional</div></div>
83	Terminated	<div><div>n-3 Enriched Nutrition Therapy and Postoperative Cognitive Dysfunction After Cardiac Surgery</div><div>Conditions: Delirium, Dementia, Amnestic, Cognitive Disorders; Postoperative Cognitive Dysfunction</div><div>Intervention: Dietary Supplement: n-3 enriched nutrition</div><div>Study Type: Interventional</div></div>
84	Not yet recruiting	<div><div>Markers of Bone Disease in Children on Parenteral Nutrition</div><div>Condition: Metabolic Bone Disease</div><div>Intervention:</div><div>Study Type: Observational</div></div>
85	Recruiting	<div><div>Efficacy and Safety of Omega-3 Lipid Therapy in Pediatric Patients With Parenteral Nutrition-Associated Liver Disease</div><div>Conditions: Short Bowel Syndrome; Cholestasis</div><div>Intervention: Drug: Omegaven Therapy</div><div>Study Type: Interventional</div></div>
86	Unknown †	<div><div>Perioperative Nutrition in Gastric Bypass Surgery</div><div>Conditions: Postoperative Complications; Gastric Bypass</div><div>Interventions: Dietary Supplement: Glucose load (Nutricia); Other: Post operative early enteral feeding</div><div>Study Type: Interventional</div></div>
87	†	<div><div>Microbial Invasion During Parenteral Nutrition in Surgical Infants Receiving Glutamine</div></div>

	Unknown		Condition: Surgical Infants Requiring Total Parenteral Nutrition Interventions: Dietary Supplement: Isonitrogenous Vaminolact; Drug: Dipeptiven (L-glutamine- Lalanine) Study Type: Interventional
88	Completed	Whey Protein-based Enteral Nutrition Support to Improve Protein Economy in Surgical Patients	Conditions: Protein Metabolism; Colorectal Neoplasms Intervention: Dietary Supplement: Oral Nutrition Support Study Type: Interventional
89	Not yet recruiting	The Impact of a Dietitian in the Implementation of Nutrition Recommendations During Intensive Care	Condition: Intensive Care Intervention: Other: Designated dietitian for the ward Study Type: Interventional
90	Recruiting	The Effect of Nutrition Follow up After Hospital Discharge in Undernourished Elderly	Condition: Under Nutrition Interventions: Other: Home visit; Other: Telephone consultation Study Type: Interventional
91	Recruiting	Nutrition, Exercise, and Wellness Treatment (NEW Tx) for Bipolar Disorder	Condition: Bipolar Disorder Interventions: Other: Nutrition, Exercise, and Wellness (NEW) psychotherapy; Drug: Typically consists of at least one FDA-approved mood stabilizer Study Type: Interventional
92	Recruiting	Ursodiol for Treating Parenteral Nutrition Associated Cholestasis in Neonates	Condition: Cholestasis Interventions: Drug: Ursodiol; Drug: placebo Study Type: Interventional
93	Unknown †	Preventing Malnutrition and Restoring Nutritional Status in Hospitalized Children	Condition: Nutrition Disorders Interventions: Procedure: Access to a Computerized Clinical Decision Support System (CCDDS); Behavioral: Education of Healthcare workers; Other: Local assistance by a dietician Study Type: Interventional
94	Terminated	Nutrition, Growth and Development Among Very Preterm Infants	Condition: Low Birth Weight Infant Intervention: Dietary Supplement: Nutrition Study Type: Interventional
95	Unknown †	Nutrition Intervention and Play Group Exercise for Low-Income Latinas	Condition: Obesity Interventions: Behavioral: Home-based nutrition sessions and play group exercise; Behavioral: Group-based nutrition sessions and mail-out activities Study Type: Interventional
96	Active, not recruiting	Care of Critically Ill Patients Enteral Nutrition Guidelines for the Implementation of the Effectiveness of the Intervention	Conditions: ICU Ill Patients; Enteral Nutrition Feeding Intervention: Study Type: Observational
97	Completed	Comparison of Two Different Lipid Emulsions for Parenteral Nutrition in Preterm Infants	Conditions: Preterm Infants; Parenteral Nutrition n-3 Fatty Acids

Interventions: Drug: Lipofundin MCT/LCT 20 %; Drug: Lipidem 20%
Study Type: Interventional

98 Unknown † [The Impact of the "Nutrition Enrichment and Healthy Living Model" \(NEHLM\) on Diet Quality, Physical Activity and Dental Health Among Children From Socioeconomically Disadvantaged Families in Beer Sheva](#)

Condition: Childhood Obesity
Interventions: Behavioral: Life-style intervention; Behavioral: Physical activity only
Study Type: Interventional

99 Recruiting [Use of Omega-3 Fat Emulsion \(Omegaven\) in Infants With Parenteral Nutrition Associated Liver Disease](#)

Condition: Parenteral Nutrition Associated Liver Disease
Intervention: Dietary Supplement: Omegaven
Study Type: Interventional

100 Unknown † [Nutritional Management of Acute and Chronic Enterocutaneous Fistulae](#)

Condition: Enterocutaneous Fistulae
Intervention: Procedure: parenteral nutrition; enteral nutrition
Study Type: Interventional

Rank	Status	Study
101	Recruiting	<div>Enteral Nutrition After Cardiovascular Surgery</div> <div>Conditions: Malnutrition; Heart Disease</div> <div>Intervention: Dietary Supplement: dietary supplement high in energy and protein</div>
102	Recruiting	<div>The Effects Nutrition Status and Body Composition On Peritoneal Dialysis Outcome</div> <div>Conditions: Peritoneal Dialysis; Wasting and Malnutrition</div> <div>Intervention:</div>
103	Completed	<div>The Impact of Low Calorie and Low Nitrogen Parenteral Nutrition Support on the Clinical Outcome of Postoperative Patients</div> <div>Conditions: Gastrointestinal Neoplasms; Postoperative Complications</div> <div>Intervention: Drug: low calorie, low nitrogen parenteral nutrition for patient with NRS score 3</div>
104	Completed	<div>Evaluating the Impact of the Food Support Program (Programa de Apoyo Alimentaria)</div> <div>Condition: Malnutrition</div> <div>Interventions: Other: Cash + nutrition education; Other: Food basket + nutrition education; Other: Food basket w/o nutrition education; Other: Control</div>
105	Terminated	<div>Effect of Lubiprostone on Nutritional Status and Pulmonary Function in Adults With Cystic Fibrosis</div> <div>Conditions: Cystic Fibrosis; Constipation; Nutrition</div> <div>Intervention:</div>
106	Recruiting	<div>WASH Benefits Kenya</div> <div>Conditions: Malnutrition; Diarrhea; Child Development</div> <div>Interventions: Behavioral: Water Quality; Behavioral: Sanitation; Behavioral: Handwashing; Dietary Supplement: Nutrition</div>
107	Recruiting	<div>Be Healthy in Pregnancy (B-HIP): An Trial to Study Nutrition and Exercise Approaches for Healthy</div> <div>Conditions: Excessive Weight Gain in Pregnancy as Antepartum Condition; Obesity; Weight Gain; Type 2 Diabetes</div> <div>Intervention: Behavioral: Exercise and Nutrition Intervention</div>
108	Unknown †	<div>Study of Glutamate and Glutamine Metabolism in Burn Patients Receiving Enteral or Parenteral Nutrition</div> <div>Condition: Burns</div>

		Interventions: Drug: standard vs. glutamine enteral or parenteral feeding.; Dietary Supplement: Stable isotope tracer study; Dietary Supplement: Stable isotope study
109	Recruiting	Impact Evaluation of a Social Franchise Model for Improving Infant and Young Child Feeding and Child Nutrition in Vietnam Conditions: Child Nutrition; Stunting; Exclusive Breastfeeding; Complementary Feeding Interventions: Behavioral: Standard government health services; Behavioral: Alive & Thrive IYCF franchise services; Behavioral: Mass media campaign
110	Completed	PACE+: Counseling Adolescents for Exercise and Nutrition Conditions: Dietary Modification; Physical Activity Intervention: Behavioral: PACE+
111	Recruiting	Hypocaloric Nutrition in Critically Ill Patients Condition: Critically Ill Interventions: Dietary Supplement: Hypocaloric hyperproteic nutrition; Dietary Supplement: Standard care
112	Completed	Standard and Immunostimulating Enteral Nutrition in Surgical Patients Conditions: Gastric Cancer; Pancreatic Cancer Interventions: Drug: Reconvan; Drug: Peptisorb
113	Completed	Study Comparing the Safety and Tolerance of SMOFlipid 20% in Long-term Treatment With Parenteral Nutrition Condition: Parenteral Nutrition Intervention: Drug: SMOF lipid and Intralipid
114	Available	Compassionate Use of Omegaven for Pediatric Patients With Parenteral Nutrition Associated Liver Disease Conditions: Cholestasis; Short Bowel Syndrome Intervention: Drug: Omegaven
115	Recruiting	Compassionate Use of Omegaven to Reverse Parenteral Nutrition Induced Cholestasis Condition: Cholestasis Intervention: Drug: Omegaven
116	Recruiting	Effect of Enteral Nutrition Rich in Eicosapentaenoic Acid (EPA) on Patients Receiving Chemotherapy for GI Tumor Conditions: Gastric Cancer; Colorectal Cancer; Chemotherapy Interventions: Drug: Nutrial; Drug: LDEPA; Drug: Placebo; Drug: HDEPA; Drug: Chemotherapy
117	Unknown †	Omegaven (w-3 Fish Oil) Supplemented Parenteral Nutrition in Subjects of SICU Condition: Critical Ill Patients in SICU Intervention: Drug: Omegaven 10%
118	Completed	Infant Nutrition: Evaluation of an Educational Touchscreen Computer Program Condition: Obesity Intervention: Other: Computer Use
119	Recruiting	A Safety and Efficacy Study to Determine if Giving Intravenous Fish Oil Helps Children With Liver Disease Condition: Parenteral Nutrition Associated Cholestasis Intervention: Drug: Omegaven
120	Completed	Impact of SPN on Infection Rate, Duration of Mechanical Ventilation & Rehabilitation in ICU Patients Condition: Critically Ill

Intervention: Dietary Supplement: SPN

Rank	Status	Study
121	Completed	<div><div><div><div><div>Impact of the "Ten Steps for Healthy Feeding of Children Younger Than Two Years" in Health Centers</div><div>Condition: Feeding and Eating Disorders of Childhood</div><div>Intervention: Behavioral: Dietary Advice</div></div></div></div></div>
122	Active, not recruiting	<div><div><div><div><div>Resistance Training and Physical Functioning in Head and Neck Cancer Patients</div><div>Conditions: Head and Neck Cancer; Pharyngeal Cancer; Laryngeal Cancer</div><div>Interventions: Behavioral: Nutrition Counseling; Behavioral: Resistance Training and Nutrition Counseling</div></div></div></div></div>
123	Unknown †	<div><div><div><div><div>Adolescents Committed to Nutrition and Physical Activity</div><div>Conditions: Overweight; Obesity; Insulin Resistance</div><div>Interventions: Behavioral: ACTION; Behavioral: Usual care</div></div></div></div></div>
124	Completed	<div><div><div><div><div>Enteral Nutrition in Cancer Patients</div><div>Conditions: Malnutrition; Cancer</div><div>Intervention: Dietary Supplement: industrialized oral supplementation (IOS) and tube feeding regimen (TFR) with Nutren</div></div></div></div></div>
125	Completed	<div><div><div><div><div>Enteral Nutrition in Cancer Patient</div><div>Conditions: Malnutrition; Cancer; Pediatric</div><div>Intervention: Dietary Supplement: industrialized oral supplementation (IOS) and tube feeding regimen (TFR) with Nutren</div></div></div></div></div>
126	Completed	<div><div><div><div><div>Immunonutrition Versus Standard Enteral Nutrition Before Major Surgery</div><div>Condition: Major Abdominal Surgery</div><div>Interventions: Dietary Supplement: Immunonutrition for 5 days preoperative; Dietary Supplement: Standard enteral nutrition for 5 days preoperative</div></div></div></div></div>
127	Completed	<div><div><div><div><div>ICU Nutrition Study Bern</div><div>Conditions: Critical Illness; Starvation; Enteral Nutrition</div><div>Interventions: Other: Data Collection; Other: Nutritional management protocol</div></div></div></div></div>
128	Recruiting	<div><div><div><div><div>Compassionate Use of IV Fish Oil for Parenteral Nutrition (PN) Liver Injury</div><div>Condition: Liver Disease</div></div></div></div></div>

Intervention: Drug: Intravenous Lipid Emulsion Comprised of Fish Oil

129	Completed	Enteral Nutrition Support in Children and Adolescents With Cancer	Conditions: Malnutrition; Cancer Intervention: Dietary Supplement: industrialized oral supplementation (IOS) and tube feeding regimen (TFR) with Nutren
130	Enrolling by invitation	Intensive Nutrition in ARDS: A Clinical Trial (INTACT)	Condition: Acute Respiratory Distress Syndrome Intervention: Other: intensive medical nutrition therapy
131	Recruiting	Early Nutrition and Neurological Development of Very Preterm Infants	Conditions: Infant, Premature, Diseases; Infant Nutrition Disorders; Development; Delayed, Mental Intervention:
132	Completed Has Results	Effects of Voluven on Hemodynamics and Tolerability of Enteral Nutrition in Patients With Severe Sepsis	Condition: Sepsis Interventions: Drug: 6 % Hydroxyethylstarch 130/0.4 = "Voluven®"; Drug: 0.9 % NaCl
133	Unknown †	Prokinetic Drugs and Enteral Nutrition	Conditions: Critically Ill; Enteral Nutrition Intervention:
134	Completed	Worksite Nutrition Study	Conditions: Overweight; Type 2 Diabetes Intervention: Behavioral: low-fat, vegan diet
135	Recruiting	Enteral Nutrition as Stress Ulcer Prophylaxis in Critically Ill Patients.	Conditions: Stress Induced GI Bleeding; C. Difficile Colitis Interventions: Drug: Pantoprazole 40 mg IV daily will be given with tube feed.; Other: Placebo and tube feed
136	Unknown †	The Role of Diet Education and Nutritional Counselling in the Ongoing Care of People Living With HIV in Thailand	Condition: HIV Infections Intervention: Behavioral: Nutrition Counselling
137	Recruiting	The NIH UNI Study: Urea Cycle Disorders, Nutrition and Immunity	Conditions: Argininosuccinic Aciduria; Carbamoyl-Phosphate Synthase I Deficiency; Citrullinemia; Ornithine Carbamoyltransferase Deficiency; Hyperargininemia; N-Acetylglutamate Synthase Deficiency Intervention:
138	Active, not recruiting	YMCA-Physical Activity and Nutrition	Condition: Childhood Obesity Intervention: Other: Healthy Snacks and Organized Physical Activity
139	Active, not recruiting	Behavioral & Nutritional Treatment to Help CF Preschoolers Grow	Conditions: Cystic Fibrosis; Pancreatic Cystic Fibrosis Interventions: Behavioral: Behavioral plus Nutrition Treatment; Behavioral: Attention Control Treatment
140	Completed	Reassessment of the Nutritional Status in Thai Orphans Living With HIV in a Family Style Community	Conditions: HIV Infection; HIV Infections Intervention:

Rank	Status	Study
141	Completed	<div><div>Nutrition</div><div>Knowledge for Spanish-speaking Parents</div><div>Conditions: Obesity; Dental Caries</div><div>Interventions: Other: Kiosk; Other: paper; Other: Kiosk PLUS paper; Other: Kiosk PLUS web</div></div>
142	Not yet recruiting	<div><div>Parenteral Nutrition</div><div>With Intravenous and Oral Fish Oil for Intensive Care Patients</div><div>Condition: Critical Illness</div><div>Interventions: Drug: Lipoplus 20% + Oxepa; Drug: Lipofundin MCT 20% + Pulmocare</div></div>
143	Unknown †	<div><div>EXCEL: Change in Cardiometabolic Disease Risk Factors During an Interactive Fitness Program</div><div>Condition: Cardiovascular Disease</div><div>Interventions: Behavioral: EXCEL; Behavioral: Nutrition Education ONLY</div></div>
144	Unknown †	<div><div>Hyperproteic Nutrition</div><div>Correlation of BUN to Nitrogen Balance</div><div>Condition: Enteral Feeding</div><div>Intervention: Behavioral: hyperproteic nutrition</div></div>
145	Unknown †	<div><div>Preventing Childhood Obesity: A Two-pronged Approach Starting in Pregnancy and the First Year Postpartum</div><div>Conditions: Early Childhood Obesity Prevention; Prevention of Excessive Weight Gain During Pregnancy; Intervention Program; Family-based Behaviour Program With Healthy Lifestyle Habits</div><div>Intervention: Other: Nutrition & Exercise Lifestyle Intervention Program (NELIP)</div></div>
146	Completed	<div><div>Metabolic Evaluation of Nutrition</div><div>in Rett Syndrome</div><div>Condition: Rett Syndrome</div><div>Intervention:</div></div>
147	Terminated	<div><div>Food Habit Programming: Influence of Genetics and Early Nutrition</div><div>in a Population of Preterm Infants</div><div>Condition: Preterm Infants</div><div>Intervention:</div></div>
148	Recruiting	<div><div>Infant Nutrition</div><div>and Risk of Celiac Disease</div><div>Conditions: Celiac Disease; Infant Nutrition</div><div>Interventions: Dietary Supplement: Gluten; Dietary Supplement: Gluten free diet</div></div>

149	Unknown †	Effect of Glutamine on Gastric Emptying and Length of Parenteral Nutrition in Premature Neonates	Condition: Enteral Feeding	Intervention: Dietary Supplement: glutamine (dipeptiven)
150	Recruiting	Exercise and Nutrition for Head and Neck Cancer Patients	Condition: Cancer of Head and Neck	Interventions: Behavioral: Lifestyle Intervention; Behavioral: Maintenance Intervention
151	Completed	Recontacting Participants in the Observing Protein and Energy Nutrition (OPEN) Study: Re-OPEN	Condition: Dietary Assessment	Intervention:
152	Completed	Perenteral Nutrition and Oxidative Stress in Preterm Infants	Condition: Preterm Infants	Interventions: Other: Photo-protection; Other: Photo-exposure
153	Recruiting	Use of Omegaven Fish Oil Emulsion for Parenteral Nutrition Associated Liver Disease	Condition: Parenteral Nutrition Associated Liver Disease	Intervention: Drug: fish oil emulsion Omega 3 fatty acid
154	Unknown †	Early Treatment of Amyotrophic Lateral Sclerosis (ALS) With Nutrition and Non-Invasive Positive Pressure Ventilation (NIPPV)	Condition: Amyotrophic Lateral Sclerosis	Intervention: Device: BiPAP
155	Completed	Effectiveness of Quaker Complete Nutrition Supplements for Malnourished Adults	Condition: Malnutrition	Intervention: Dietary Supplement: Quaker Complete Nutrition Supplements
156	Completed	Influence of Bedrest and Hypocaloric Nutrition on Endothelium-Dependent Vasoreactivity	Condition: Healthy	Intervention: Procedure: bed rest, hypocaloric nutrition
157	Completed	Study on Out of School Nutrition and Physical Activity Environments	Conditions: Child Physical Activity; Child Nutrition	Intervention: Behavioral: Policy and Environmental Change
158	Completed Has Results	Study of Teduglutide Effectiveness in Parenteral Nutrition (PN)-Dependent Short Bowel Syndrome (SBS) Subjects	Condition: Short Bowel Syndrome	Interventions: Drug: teduglutide; Drug: placebo
159	Recruiting	Prospective Study of the Effect of Perioperative Immunonutrition on the Immune Host Defense and the Phagocytic and Bactericidal Activity of Blood Platelets in Gastric Cancer Patients	Condition: Gastric Cancer	Interventions: Dietary Supplement: Early postoperative enteral nutrition, based on standard elementary diet (Peptisorb); Drug: glutamine; Dietary Supplement: oral diet enriched with arginine (Cubitan); Drug: Perioperative parenteral Immunonutrition (Dipeptiven, Omegaven)
160	Suspended	Lipid Use, Nutrition, and Colitis in Patients With Hematological Malignancies	Conditions: Colitis; Mucositis; AML	Intervention: Dietary Supplement: omegaven

† Indicates status has not been verified in more than two years

Rank	Status	Study
161	Unknown †	<div>Evaluation Research of the Nutrition Interventions in the INHP II Areas of CARE India</div> <div>Conditions: Underweight; Stunting; Wasting; Anemia</div> <div>Intervention: Behavioral: Maternal nutrition and infant feeding advice</div>
162	Enrolling by invitation	<div>Nutritional Orientations and Adherence, Nutritional Status, Clinical and Life Quality Parameters of Heart Failure (HF) Patients</div> <div>Conditions: Nutrition; Heart Failure</div> <div>Intervention: Behavioral: Nutritional education</div>
163	Unknown †	<div>Nutrition-Related Biomarkers in Predicting Breast Cancer Risk in Women</div> <div>Condition: Breast Cancer</div> <div>Interventions: Genetic: protein expression analysis; Genetic: proteomic profiling; Other: high performance liquid chromatography; Other: laboratory biomarker analysis; Other: surface-enhanced laser desorption/ionization-time of flight mass spectrometry; Procedure: spectroscopy</div>
164	Not yet recruiting	<div>Strategies for Personalised Nutrition</div> <div>Condition: Dietary Modification</div> <div>Interventions: Behavioral: Level 1 Dietary Intake; Behavioral: Level 2: Dietary Intake + Phenotype; Behavioral: Level 3 Dietary Intake + Phenotype + Genotype; Behavioral: Level 0 Control Group</div>
165	Recruiting	<div>Parenteral Nutrition Associated Liver Disease: Early Markers and Therapy Wih Enteral Omega-3 Supplementation</div> <div>Condition: Parenteral Nutrition Associated Liver Disease</div> <div>Intervention: Drug: Lovaza (fish oil)</div>
166	Recruiting	<div>Canadian Health Advanced By Nutrition and Graded Exercise</div> <div>Condition: Metabolic Syndrome</div> <div>Interventions: Behavioral: Dietary Intervention; Behavioral: Exercise Prescription and Fitness Program</div>
167	Completed	<div>Clinical Evaluation of a Normoproteic Diet</div> <div>Condition: Severe Insufficient Nutrition</div> <div>Interventions: Dietary Supplement: T-Diet plus Standard; Dietary Supplement: Jevity</div>

168	Completed	Nutrition as a Determinant of Labor Outcome	Condition: Labor, Obstetric Intervention: Dietary Supplement: Energy-containing soft drink
169	Completed	Safety During Use of Paediatric Triple Chamber Bag Formulas	Conditions: Infant Nutrition Disorders; Infant, Premature, Diseases; Digestive System Disorders Intervention: Drug: Ped3CB
170	Completed	Family Partners for Health	Conditions: Overweight; Obesity Intervention: Behavioral: Nutrition and exercise education and coping skills training
171	Recruiting	Nutrition and Exercise for Sarcopenia	Condition: Sarcopenia Interventions: Dietary Supplement: Amino acid supplement; Drug: Exercise
172	Completed	Comparison of Three-chamber-bag Versus Compounded Bag	Condition: Parenteral Nutrition for Patients With Proven Insufficient Enteral Resorption Interventions: Drug: NuTRIflex Lipid peri; Drug: compounded monobag
173	Recruiting	Family Intervention for Obese Children Using Portion Control Strategy for Weight Control	Condition: Obesity Interventions: Other: Nutrition counseling + portion control tool; Other: Nutrition counseling
174	Recruiting	Nutrition Intervention to Decrease Symptoms in Patients With Heart Failure	Condition: Heart Failure Interventions: Behavioral: Sodium reduction; Dietary Supplement: omega 3 and lycopene supplements
175	Unknown †	NESCAV Nutrition Environment and Cardiovascular Health	Condition: Cardiovascular Pathology Intervention:
176	Completed	Magnesium Nutrition and Sleep Behavior in Older Adults	Conditions: Nutritional Deficiency; Insomnia Interventions: Dietary Supplement: Sugar Pill; Dietary Supplement: magnesium
177	Enrolling by invitation	Evaluation of Omegaven™ Parenteral Nutrition in Patients With TPN-Induced Cholestasis	Conditions: Parenteral Nutrition Associated Liver Disease PNALD; Cholestasis Intervention: Drug: Omegaven™
178	Completed	Remote Information Counseling for Elders	Condition: Obesity Interventions: Behavioral: Nutrition information; Behavioral: Nutrition education and exercise training
179	Recruiting	Cholestasis Reversal: Efficacy of IV Fish Oil	Conditions: Parenteral Nutrition Associated Liver Disease; Short Bowel Syndrome; Gastrointestinal Disease Intervention: Drug: Omegaven®
180	Enrolling by invitation	Compassionate Use of Omegaven IV Fat Emulsion	Condition: Parenteral Nutrition-associated Liver Disease (PNALD) Intervention: Drug: Omegaven IV lipid emulsion

Rank	Status	Study
181	Completed	<div><div><div>The AOT (Acridine Orange and Taurolidine) Trial</div><div>Conditions: Parenteral Nutrition; Infection; Sepsis</div><div>Intervention: Drug: taurolidine</div></div></div>
182	Recruiting	<div><div><div>The Vitality, Independence, and Vigor in Elders Study I Clinical Trial</div><div>Condition: Functional Mobility, Vitamin D Status, Bio-markers of Muscle Health, and Psychosocial Factors Such as Well-being.</div><div>Interventions: Other: Successful Aging Program; Other: Exercise-Nutrition Program</div></div></div>
183	Completed	<div><div><div>Safety and Efficacy Study of Teduglutide in Subjects With Short Bowel Syndrome</div><div>Conditions: Short Bowel Syndrome; Parenteral Nutrition</div><div>Intervention: Drug: Teduglutide</div></div></div>
184	Completed	<div><div><div>Technological Home Care: Improving HPN Care With Videophone And Internet Education</div><div>Condition: Home Parenteral Nutrition</div><div>Intervention: Behavioral: Caregiving support interventions (FamTechCare)</div></div></div>
185	Suspended	<div><div><div>Calciuric Effect and Cyclic Parenteral Nutrition in Preterm Infants</div><div>Conditions: Preterm Infants; Metabolic Bone Disease</div><div>Intervention:</div></div></div>
186	Completed	<div><div><div>Medium Calorie Parenteral Nutrition on Patients With Gastrointestinal Cancer Undergoing Surgery</div><div>Condition: Colorectal Neoplasms</div><div>Intervention: Dietary Supplement: Total Parenteral Nutrition (TPN)</div></div></div>
187	Completed	<div><div><div>PACE-PC: Primary Care Management of Adolescent Obesity</div><div>Conditions: Obesity; Overweight; Weight Loss</div><div>Interventions: Behavioral: Physician Counseling; Behavioral: Health Educator; Behavioral: Phone Counseling; Behavioral: Health promotion materials on physical activity and nutrition</div></div></div>
188	Enrolling by invitation	<div><div><div>Enhanced Protein-Energy Provision Via the Enteral Route in Critically Ill Patients (PEP-uP)</div><div>Condition: Critically Ill</div><div>Intervention: Other: PEP uP Protocol</div></div></div>

189	Unknown [†]	Effect of Glutamine Supplemented Nutrition Support on Protein and Glutamine Metabolism in Burns Condition: Burns Intervention: Drug: glutamine enriched TPN vs. standard TPN .
190	Recruiting	Clinic, Family & Community Collaboration to Treat Overweight and Obese Children (Stanford GOALS) Condition: Obesity Interventions: Behavioral: MMM; Behavioral: Health and Nutrition Education
191	Completed	SOS Nutrition Project Conditions: Hypertension; Hyperlipidemia Intervention:
192	Recruiting	Prehabilitation to Overcome the Stress of Surgery: the Role of Nutrition in Enhancing Postoperative Functional Capacity Condition: Colorectal Cancer Intervention: Dietary Supplement: Whey Protein (Immunocal)
193	Unknown [†]	Effect of Traditional Chinese Medicine on GI Function Recovery and Nutrition Support in SAP Condition: Pancreatitis, Acute Necrotizing Intervention: Drug: Qingyi granules
194	Enrolling by invitation	Polyunsaturated Fatty Acids in Child Nutrition Condition: Fatty Acid Status Intervention: Other: Fatty acid composition of complementary food
195	Not yet recruiting	Nutrition, Exercise, and Breast Cancer Survivorship Conditions: Breast Cancer Survivorship; Vitamin D Deficiency; Obesity Interventions: Other: Resistance Training; Other: Resistance Training + Nutritional Supplementation; Other: Resistance Training + Weight Loss
196	Completed	Nutritional Status and Quality of Life in Older Adults Condition: Malnutrition Intervention:
197	Completed	Feasible Means to Address Moderately Malnourished Children Within BINP Communities Condition: Mild and Moderate Malnourished Children Intervention: Behavioral: Prospective Longitudinal Interventional Study
198	Recruiting	Comparing Parenteral Nutrition vs Best Supportive Nutritional Care in Patients With Pancreatic Cancer Condition: Pancreatic Cancer Intervention: Drug: SMOF Kabiven
199	Unknown [†]	Perioperative Nutrition in Upper Gastrointestinal (GI) Cancer Surgery Conditions: Stomach Neoplasms; Esophageal Neoplasms Interventions: Dietary Supplement: Impact; Dietary Supplement: Glucose load
200	Recruiting	Rehabilitation and Outcome for Patients on LVAD Support Conditions: Exercise Capacity; Quality of Life Intervention: Other: multi-module rehabilitation program

Rank	Status	Study
201	Active, not recruiting	<div>Meta-analyses of Fructose-containing Sugars and Incident Cardiometabolic Disease</div> <div>Conditions: Overweight; Obesity; Dyslipidemia; Hyperlipidemia; Diabetes; Prediabetes; Dysglycemia; Gout; Hypertension; Metabolic Syndrome; Coronary Heart Disease; Cardiovascular Disease</div> <div>Intervention:</div>
202	Active, not recruiting	<div>Meta-analysis of Fructose-Containing Sugar Sweetened Beverages (SSBs) and Weight Change</div> <div>Conditions: Overweight; Obesity; Diabetes; Prediabetes; Dysglycemia; Metabolic Syndrome</div> <div>Intervention: Other: Fructose-containing sugar sweetened beverages</div>
203	Active, not recruiting	<div>Meta-analyses of Fructose and Cardiometabolic Risk</div> <div>Conditions: Dyslipidemia; Diabetes; Prediabetes; Dysglycemia; Overweight; Obesity; Gout; Hypertension; Non-alcoholic Fatty Liver Disease; Metabolic Syndrome; Cardiovascular Disease</div> <div>Intervention: Other: Dietary fructose</div>
204	Completed	<div>Evaluation of California's SB 19 Pupil Nutrition Act</div> <div>Condition: Obesity</div> <div>Intervention: Behavioral: State-directed nutrition policy change</div>
205	Active, not recruiting	<div>Nutritional Status and Prognosis in Heart Failure.</div> <div>Condition: Heart Failure</div> <div>Intervention: Other: No intervention</div>
206	Completed	<div>Nutrition for Chronic Daily Headache</div> <div>Condition: Chronic Daily Headache</div> <div>Interventions: Other: Low omega-6 plus high omega-3 diet; Other: Low omega-6 diet</div>
207	Terminated	<div>Medical Nutrition Therapy or Standard Care in Treating Patients With Lung Cancer, Pancreatic Cancer, or Stage III or Stage IV Prostate Cancer</div> <div>Conditions: Lung Cancer; Malnutrition; Pancreatic Cancer; Prostate Cancer; Weight Changes</div> <div>Interventions: Behavioral: compliance monitoring; Dietary Supplement: dietary intervention; Dietary Supplement: nutritional intervention; Drug: chemotherapy; Other: counseling intervention; Other: medical chart review; Other: questionnaire administration; Other: study of socioeconomic and demographic variables; Procedure: management of therapy complications; Procedure: observation;</div>

Procedure: quality-of-life assessment

208	Active, not recruiting	Clinical Evaluation of a Specific Enteral Diet for Diabetics Conditions: Hyperglycemia; Diabetics; Metabolic Syndrome Interventions: Dietary Supplement: T-Diet plus Standard; Dietary Supplement: T-Diet plus Diabet NP; Dietary Supplement: Glucerna; Dietary Supplement: Novasource
209	Completed	Nutrient Timing Following Resistance Exercise Condition: Type 2 Diabetes Interventions: Dietary Supplement: Immediate Nutrition; Dietary Supplement: Nutrition 3 hours Post-Bout; Other: Resistance Exercise
210	Recruiting	Resistance Training During Radiation Therapy for Pharyngeal or Laryngeal Cancer Conditions: Head and Neck Cancer; Pharyngeal Cancer; Laryngeal Cancer Interventions: Behavioral: Nutrition Counseling; Behavioral: Resistance Training
211	Unknown †	Healthy Opportunities for Physical Activity and Nutrition (HOP'N) After-School Project Condition: Obesity Prevention Intervention: Behavioral: HOP'N After-school Program
212	Recruiting	Omegaven Treatment of Parenteral Nutrition (PN) Induced Liver Injury Condition: Liver Injury Interventions: Drug: Omegaven™; Other: Historical Controls
213	Recruiting	Low Dose Fat for the Prevention of Liver Disease in Babies With Gastrointestinal Disorders Condition: Cholestasis Intervention: Drug: Intralipid/Liposyn
214	Recruiting	Lay Health Workers and Colorectal Cancer Screening Among Chinese Americans Condition: Colorectal Neoplasms Interventions: Behavioral: LHWO about CRC; Behavioral: Nutrition Education + CRC brochure
215	Completed	Follow-up Home Visits With Nutrition Condition: Malnutrition Intervention: Dietary Supplement: individual nutritional therapy
216	Completed	Beverage Choice and Lifestyle Modification in Overweight Youth Condition: Obesity Interventions: Behavioral: Beverage Choice and Lifestyle Modification; Other: Nutrition Education (NE)
217	Completed	The Nutrition Challenge: A Health Promotion Campaign Conditions: Health Promotion; Prevention Interventions: Behavioral: Monitoring; Other: Education
218	Completed	Cholestasis in Extreme Low Birth Weight Infants (ELBW) Condition: Cholestasis Intervention:
219	Recruiting	Compassionate Use of an Intravenous Fish Oil Emulsion in the Treatment of Liver Injury in Infants Conditions: Cholestasis; Parenteral Nutrition Intervention: Drug: Omegaven
220	Recruiting	Peer Conselling Infant Feeding Education Program Conditions: Infant Malnutrition; Pregnant Women; Lactating Mother; Breastfeeding; Infant Nutrition; Stunting Intervention: Behavioral: Peer counseling on infant feeding

Rank	Status	Study
221	Completed	<div>Effects of Physical Training and Nutrition Education on Adipocytokines in Severely Obese Teenagers</div> <div>Conditions: Healthy; Obesity</div> <div>Intervention: Behavioral: obesity lifestyle intervention</div>
222	Completed	<div>Nutrition Education for Low-Income Healthy Participants Who Eat an Unhealthy Diet</div> <div>Condition: Unspecified Adult Solid Tumor, Protocol Specific</div> <div>Interventions: Behavioral: behavioral dietary intervention; Other: educational intervention; Other: preventative dietary intervention</div>
223	Completed	<div>Immune Modulation by Parenteral Lipids</div> <div>Conditions: Infections; Total Parenteral Nutrition</div> <div>Interventions: Dietary Supplement: Parenteral lipid emulsion (Omegaven); Dietary Supplement: Parenteral lipid emulsion (Intralipid); Dietary Supplement: Parental lipid emulsion (Saline 0.9%)</div>
224	Completed	<div>Digestive and Nutritional Effects of Probiotics Supplementation in Premature Newborns</div> <div>Condition: Duration of Parenteral Nutrition</div> <div>Intervention: Dietary Supplement: Probiotics supplementation until weight reaches 1800g (Bifidobacterium Longum and Lactobacillus GG)</div>
225	Withdrawn	<div>Assessing Novel Methods of Improving Patient Education of Nutrition</div> <div>Condition: Healthy</div> <div>Intervention: Behavioral: web-based nutritional educational intervention</div>
226	Completed	<div>Influence of of a Lipid Emulsion on Inflammatory Response and Hepatic Function</div> <div>Conditions: Inflammatory Response; Hepatic Function</div> <div>Interventions: Drug: SMOFlipid®; Drug: 2-ClinOleic 20%®</div>
227	Recruiting	<div>Preventing Malnutrition in Children Under Two Years of Age Approach</div> <div>Condition: Malnutrition</div> <div>Interventions: Other: Tubaramure (Burundi); Other: Procomida (Guatemala)</div>
228	Completed	<div>Effect of Agaricus Blazei (Murrill) ss. Heinemann (Sun Mushroom)</div> <div>Conditions: Hepatitis C; Nutritional Status; Hepatitis, Viral, Human</div>

		Intervention: Dietary Supplement: Agaricus blazei (Murrill) ss. Heinemann (sun mushroom)
229	Not yet recruiting	Cognitive-behavioral Weight Loss Treatment Condition: Weight Interventions: Behavioral: cognitive behavioral exercise and nutrition over; Behavioral: nutrition and exercise education
230	Unknown †	Peer Education, Exercising and Eating Right - Obesity Prevention in Freshmen Women Condition: Obesity Intervention: Behavioral: PEER group intervention
231	Recruiting	CAre of Patients With PArenteral Nutrition At Home Conditions: Crohn's Disease; Peritoneal Carcinomatosis With Intestinal Occlusion; Radiation Enteritis; Chronic Diarrhea; Intestinal Lymphomas Intervention:
232	Completed	Influence of Nutrition on Nasal and Bronchial Affliction in Patients With Allergy on Grass-Pollen Conditions: Bronchial Hyperreactivity; Hypersensitivity; Allergy; Bronchial Asthma Intervention: Other: inhalative specific bronchial provocation with grass-pollen
233	Active, not recruiting	ICULIP, Influence of Two Lipid Emulsions in the Nosocomial Infection in Critical Patients Condition: Critical Illness Interventions: Drug: MCT/LCT (1:1); Drug: MCT/LCT/omega-3 (5:4:1)
234	Completed	Nutrition and Physical Activity in Patients With Cerebrovascular Disease Condition: Cerebrovascular Disorders Interventions: Dietary Supplement: Conventional diet +/- wine; Dietary Supplement: Luxembourg variant of Mediterranean diet + physical activity +/- wine
235	Unknown †	Nutrition Counseling to Lower Serum Phosphorus Levels Conditions: Hemodialysis; Nutrition Intervention: Behavioral: Behavior
236	Recruiting	Enteric Immune-nutrition Formula (ANOM®) for Patients Receiving Major Upper Gastrointestinal Surgery Condition: Chronic Upper Gastrointestinal Hemorrhage Intervention: Dietary Supplement: ANOM
237	Not yet recruiting	Walking Exercise and Nutrition to Reduce Diabetes Risk for You (WENDY) Conditions: Diabetes; Gestational Diabetes Mellitus Intervention: Behavioral: Walking group
238	Enrolling by invitation	Community-Based Hepatitis B Interventions for Hmong Adults Condition: Liver Cancer Interventions: Behavioral: HBV Screening - Small group educational session; Behavioral: Nutrition - Small group educational session
239	Completed	The Effects of Walnuts on Antioxidant Capacity and Nutritional Status in Humans Condition: Healthy Intervention: Behavioral: Walnut consumption
240	Completed	Multicenter Worksite Nutrition Study Conditions: Diabetes; Overweight Interventions: Other: vegan instruction and food accessibility; Other: control

† Indicates status has not been verified in more than two years

Rank	Status	Study
241	Completed	<div>Nutritional Therapy for Stroke Patients</div> <div>Conditions: Stroke; Malnutrition; Weight Loss; Dysphagia</div> <div>Intervention: Procedure: Nutritional support</div>
242	Unknown †	<div>Nutrition Intervention in Drug Naive HIV-infected Kenyan Women and Their Children</div> <div>Condition: HIV Infections</div> <div>Interventions: Dietary Supplement: Meat Biscuit; Dietary Supplement: Soy Biscuit; Dietary Supplement: Wheat Biscuit</div>
243	Active, not recruiting	<div>Impact on the Nutritional State and the Quality of Life</div> <div>Condition: Cancer</div> <div>Intervention: Other: answering questionnaire in differents time of the treatment</div>
244	Completed	<div>A Study on the Effect of High-Calorie Infant Formula on Growth and Nutrition in HIV-Infected Infants</div> <div>Condition: HIV Infections</div> <div>Intervention: Drug: Infant Formula</div>
245	Not yet recruiting	<div>Home Visiting for Low Income, Pregnant Women</div> <div>Conditions: Pregnant Women; Nutrition During Pregnancy; Breast Feeding; Newborns</div> <div>Interventions: Behavioral: In-home Mentor Mother visits; Behavioral: Health Information Mailings</div>
246	Not yet recruiting	<div>The OHSU Pregnancy Exercise & Nutrition (PEN) Program</div> <div>Condition: Gestational Diabetes</div> <div>Intervention: Behavioral: Intervention, behavioral lifestyle education</div>
247	Unknown †	<div>Bioactive Plant Foods: Effects on Functional Bioavailability and Genomic Stability</div> <div>Condition: Metabolic Syndrome</div> <div>Intervention: Dietary Supplement: plant based nutrition bar</div>
248	Recruiting	<div>Barriers to Adherence to Regular Follow-up in Women With a History of Gestational Diabetes</div> <div>Condition: Gestational Diabetes Mellitus</div> <div>Interventions: Behavioral: Group nutrition visits; Behavioral: Blood glucose testing</div>
249	Unknown †	<div>Healthy Youth Places: A Program to Promote Nutrition and Physical Activity in Adolescents</div>

		Condition: Health Behavior
		Intervention: Behavioral: Healthy Youth Places: a behavior change model
250	Unknown †	Study of Nutrition Regimens in Treating Patients With Cancer of the Upper Aerodigestive Tract Conditions: Head and Neck Cancer; Infection; Malnutrition Interventions: Dietary Supplement: therapeutic nutritional supplementation; Other: placebo
251	Enrolling by invitation	Effect of Enteral Docosahexaenoic Acid Administration in Children With Acute Lymphoblastic Leukemia Conditions: Acute Lymphoblastic Leukemia; Malnutrition Interventions: Dietary Supplement: Docosahexaenoic acid (DHA); Dietary Supplement: Placebo
252	Completed	Amino Acid and Acylcarnitine Profiles in Premature Neonates Conditions: Prematurity; Neonatal Screening; Parenteral Nutrition Intervention:
253	Recruiting	Effects of Parenteral Nutrition With Different Lipid Emulsions in Preterm Infants Condition: Preterm Infant Interventions: Drug: ClinOleic; Drug: Lipofundin; Drug: Intralipid
254	Completed	Nutrition and Frailty in Older Persons Condition: Frailty Intervention:
255	Recruiting	Effect of Taurolidin on Prevention of Bloodstream Infection Condition: Sepsis Interventions: Device: Taurolidine; Device: Physiologic Serum
256	Completed	Tolerance and Practicality of Module AOX Conditions: Gastrointestinal Diseases; Nutrition Intervention: Device: Module AOX (attached to Sondalis ISO)
257	Active, not recruiting	A Safety, Efficacy Study of CombiflexOmega Versus SmofKabiven in Patients With Parenteral Nutrition Condition: Parent Interventions: Drug: CombiflexOmega; Drug: SmofKabiven
258	Completed	Partnership on Nutrition and HIV/AIDS Research in Tanzania: Exploratory Research Study on Selenium and HIV Infection Conditions: HIV Infections; Pregnancy Complications Interventions: Dietary Supplement: Placebo; Dietary Supplement: Selenium
259	Active, not recruiting	A Safety, Efficacy Study of CombiflexOmega Peri Versus SmofKabiven Peripheral in Patients With Parenteral Nutrition Condition: Parent Interventions: Drug: CombiflexOmega peri; Drug: SmofKabiven peripheral
260	Recruiting	Nutritional Status of Patients Victims of Haemorrhagic Accidents With Antivitamins K Conditions: Hemorrhagic Accident; Iatrogeny; Denutrition Intervention:

Rank	Status	Study
261	Completed	<div>Feeding During Ibuprofen or Indomethacin Treatment of Preterm Infants</div> <div>Condition: Patent Ductus Arteriosus</div> <div>Interventions: Other: feeding; Other: fasting</div>
262	Completed	<div>Impact of Nutrition Intervention on HIV/AIDS Infected Patients</div> <div>Conditions: Human Immunodeficiency Virus (HIV); Acquired Immune Deficiency Syndrome (AIDS)</div> <div>Interventions: Dietary Supplement: Theragran-M; Ensure Plus; Dietary Supplement: Theragran-M</div>
263	Completed	<div>The Effect of a New Specific Enteral Formula Compared to a Standard Formula on the Tolerability of a Combined Radio- and Chemotherapy in Cancer Patients</div> <div>Condition: Enteral Nutrition</div> <div>Interventions: Dietary Supplement: Supportan(R) (Disease-specific enteral tube feed, food for special medical purposes); Dietary Supplement: Fresubin(R)</div>
264	Completed <div>Has Results</div>	<div>TPN-Induced Hyperglycemia: Impact on Clinical Outcome in Intensive Care Unit (ICU) and Non-ICU Patients</div> <div>Condition: Hyperglycemia</div> <div>Intervention:</div>
265	Completed	<div>Effect of a Visual Nutrient Profiling System on Recall of Nutrition Information</div> <div>Condition: Healthy</div> <div>Interventions: Behavioral: Visual nutrient profiling tool; Behavioral: Nutrient ratings table</div>
266	Unknown †	<div>Probiotics Use in the Chronic Peritoneal Dialysis Patients</div> <div>Conditions: Peritonitis; Malnutrition</div> <div>Interventions: Drug: Pro-biotics; Dietary Supplement: Oligosaccharide</div>
267	Completed	<div>Effectiveness Evaluation of Three Strategies of Promotion of Healthy Dietary and Physical Activity Behaviours to Prevent Weight Excess Among Teenagers</div> <div>Conditions: Body Weight; Nutrition Processes; Prevention</div> <div>Interventions: Behavioral: Educational strategy; Behavioral: Screening strategy; Other: Environmental strategy</div>
268	Recruiting	<div>Diet and Nutrition Pilot Study for Chinese Adolescents and Their Mothers</div> <div>Condition: In Utero Exposure</div>

		Intervention:
269	Completed	Promoting Healthy Lifestyles Conditions: Cardiovascular Diseases; Cancer; Physical Activity; Nutrition Interventions: Behavioral: Team-based intervention; Behavioral: One-on-one intervention
270	Completed	Choline Nutrition in Children With Cystic Fibrosis Condition: Cystic Fibrosis Intervention: Dietary Supplement: Vitamin: Choline Bitartrate (2-hydroxyethyl) trimethylammonium salt 1:1
271	Completed	Glutamine Supplementation to Prevent Death or Infection in Extremely Premature Infants Conditions: Infant, Newborn; Infant, Low Birth Weight; Infant, Small for Gestational Age; Infant, Premature; Sepsis Interventions: Drug: Glutamine; Drug: Placebo
272	Recruiting	The Clinical Role of Intravenous Glutamine in Trauma Patients Receiving Enteral Nutrition Conditions: Multiple Trauma; Critically Ill Interventions: Dietary Supplement: Dipeptiven; Dietary Supplement: normal saline
273	Completed	Nutrition and Lifestyle Changes in Patients With Previously Untreated Stage I or Stage II Prostate Cancer Condition: Prostate Cancer Interventions: Behavioral: exercise intervention; Genetic: gene expression analysis; Genetic: polymerase chain reaction; Genetic: proteomic profiling; Genetic: reverse transcriptase-polymerase chain reaction; Other: laboratory biomarker analysis; Other: medical chart review; Other: questionnaire administration; Procedure: psychosocial assessment and care; Procedure: quality-of-life assessment; Procedure: support group therapy; Procedure: therapeutic dietary intervention
274	Completed	VA Nutrition Study on Immune Function Conditions: Malnutrition; Infection; Nosocomial Infection Intervention:
275	Unknown †	Addressing The Role of Nutrition Education & Health Literacy in Diabetes Care Condition: Diabetes Interventions: Behavioral: Active Control; Behavioral: int arm 1; Behavioral: int arm 3
276	Recruiting	Feeding Children Nasogastrically Versus Nasojejunally While Receiving Noninvasive Positive Pressure Ventilation Conditions: Respiratory Insufficiency; Pneumonia, Aspiration; Nutrition Disorders Intervention: Other: Route of feeding (nasogastric vs. nasojejunal)
277	Recruiting	Pediatric Quality of Life Among Population With Body Mass Index (BMI) Greater Than or Equal to 85% Condition: Pediatric Obesity Intervention: Behavioral: Behavioral nutrition and exercise program
278	Recruiting	Efficacy of a Special Oral Nutritional Supplement on Nutritional Status of Malnourished Elderly Patients Condition: Malnutrition Interventions: Dietary Supplement: Nutri-Energie ®, Aliscience society; Dietary Supplement: Clinutren 1.5 ®, Nestlé Clinical Nutrition
279	Active, not recruiting	Gestational Metabolic Abnormalities and Maternal and Infant Nutrition and Health Condition: Gestational Diabetes Intervention:

280

Recruiting

Compliance With Dietary Recommendations in Children at Risk for Undernutrition

Conditions: Children; Under-nutrition

Intervention: Other: nutritional supplement

Rank	Status	Study
281	Unknown †	Association of Colorectal Cancer With Nutrition, Diet, Obesity, Diabetes Mellitus, and Genetic Alterations in Taiwan Condition: Colorectal Cancer Intervention:
282	Completed	Practice Based Nutrition Intervention Condition: Type 2 Diabetes Interventions: Other: vegan diet; Other: diet following ADA guidelines
283	Active, not recruiting	Nutrition and Exercise Intervention Study Conditions: Hypertension; Dyslipidemia; Diabetes Intervention: Behavioral: physical activity
284	Unknown †	Effect of Early Enteral Tube Feeding Nutrition With an Immune Enhancing Diet in Severe Burn Patients Condition: Severe Burn Patients Interventions: Dietary Supplement: Crucial; Dietary Supplement: Sondalis HP
285	Unknown †	Study Comparing a Soybean Oil-Based With an Olive Oil-Based Lipid Emulsion in Healthy Volunteers and ICU Patients Condition: Parenteral Nutrition Interventions: Drug: ClinOleic; Drug: Intralipid
286	Completed	Impaired Preoperative Nutritional Status as a Risk Factor for Postoperative Clinical Outcome Condition: Nutritional Status Intervention:
287	Completed	Nutrition Beverage Tolerance Study Condition: Human Volunteers Intervention: Other: Nutritional Beverage
288	Suspended	Practice Based Nutrition Intervention-2 Conditions: Diabetes; Lipid Panel; Body Weight; Changes in Mood Interventions: Other: Vegan diet; Other: American Diabetes Association guidelines

289	Completed	The Benefit of Adding Fish Oil to the Nutrition of Critically Ill Patients Condition: Sepsis Syndrome Intervention: Drug: Defined percentage of omega-3-fatty acids
290	Unknown †	Initial Evaluation of Telehealth Blood Pressure Stations in Nutrition Centers Condition: Hypertension Interventions: Behavioral: Telehealth; Behavioral: Educational materials
291	Recruiting	Use of Prokinetics in Early Enteral Feeding in Preterm Infants Conditions: Feeding Disorder; Nutrition Disorder; Infant,Premature Interventions: Drug: Metoclopramide; Drug: Erythromycin; Drug: placebo
292	Completed	Dose Comparison of Amino Acids on Growth in Premature Neonates Condition: Malnutrition Intervention: Drug: Parenteral Nutrition
293	Recruiting	Investigational Study of Oral Fish Oil in Treating Parenteral Nutrition Associated Liver Disease Conditions: Liver Disease; Short Bowel Syndrome Interventions: Dietary Supplement: Lovaza (omega-3-acid ethyl ester); Dietary Supplement: corn oil
294	Recruiting	Compassionate Use of Omegaven IV Fat Emulsion Conditions: Cholestasis; Parenteral Nutrition Associated Liver Disease Intervention: Drug: Omegaven
295	Active, not recruiting	Meta-analyses of Dietary Pulses and Cardiometabolic Risk Conditions: Dyslipidemia; Diabetes; Prediabetes; Dysglycemia; Overweight; Obesity; Hypertension; Metabolic Syndrome; Cardiovascular Disease Intervention: Other: Dietary pulses
296	Completed Has Results	Study of Impact of Behavioral Intervention- Exercise, Nutrition, Education- on Body Mass Index (BMI) Condition: Obesity Interventions: Behavioral: Behavioral education program; Behavioral: Standard of Care
297	Recruiting	Nutrition and Physical Exercise Study Conditions: Gastrointestinal Cancer; Lung Cancer Intervention: Behavioral: Nutrition & physical exercise
298	Active, not recruiting	Meta-analyses of the Effect of Tree Nuts on Glycemic Control and Features of the Metabolic Syndrome Conditions: Diabetes; Prediabetes; Dysglycemia; Overweight; Obesity; Dyslipidemia; Hypertension; Metabolic Syndrome; Cardiovascular Disease Risk Intervention: Other: Tree nuts
299	Unknown †	Comparison of a Nutritional Anti-Inflammatory Treatment to Steroids for Pediatric Crohn's Disease - the Molecular Basis Conditions: Crohn's Disease; Pediatric Interventions: Drug: MODULEN IBD (R) (specific Enteral Nutrition); Drug: prednisolon
300	Active, not recruiting	Provider Approaches to Improved Rates of Infant Nutrition and Growth Study Condition: Breastfeeding Intervention: Behavioral: LC and Electronic Prompt

Rank	Status	Study
301	Completed	<div><div><div><div>Beyond Ageing Project: A Study for the Prevention of Depression</div><div>Conditions: Depression; Depressive Disorder</div><div>Interventions: Drug: Folate (400mcg) and Vitamin B12 (100 mcg); Behavioral: mediated physical activity promotion; Behavioral: Mental health literacy; Drug: placebo; Behavioral: Nutrition information; Behavioral: pain and arthritis management information</div></div></div></div>
302	Completed	<div><div><div><div>Diet Composition - Metabolic Regulation and Long-term Compliance</div><div>Condition: Obesity</div><div>Interventions: Behavioral: NNR (Nordic Nutrition Recommendations); Behavioral: MPD (Modified paleolithic diet)</div></div></div></div>
303	Completed	<div><div><div><div>Nutrients and Hormones: Effects in Boys With Disordered Growth</div><div>Conditions: Constitutional Growth Delay; Nutrition Disorders; Growth Disorders</div><div>Interventions: Drug: Pediasure; Drug: GH</div></div></div></div>
304	Enrolling by invitation	<div><div><div><div>Compassionate Use of an Intravenous Fish Oil Emulsion in Infants With Cholestasis</div><div>Condition: Parenteral Nutrition Associated Cholestasis</div><div>Intervention: Drug: Omegaven</div></div></div></div>
305	Completed	<div><div><div><div>Comparison of Nutritional Products for People With Type 2 Diabetes</div><div>Condition: Diabetes Mellitus, Type 2</div><div>Interventions: Other: standard nutritional product (medical food); Other: nutritional product for diabetes (medical food); Other: diabetes specific experimental nutritional product (medical food)</div></div></div></div>
306	Enrolling by invitation	<div><div><div><div>The Impact of the French PNNS Guidelines on Vascular Function Following a Standardised Breakfast.</div><div>Condition: French PNNS Guidelines in Vascular Function</div><div>Intervention: Other: PNNS guidelines</div></div></div></div>
307	Completed	<div><div><div><div>Somatic psychosocial Care Concept for Oncologic Patients Undergoing Hematopoietic Stem Cell Transplantation (HSCT)</div><div>Conditions: Oral Mucositis; Malnutrition</div><div>Interventions: Behavioral: Control Group; Behavioral: SCION-HSCT program</div></div></div></div>

308	Recruiting	Pre-, Peri- and Postnatal Programming and Origins of Disease: Early Targeting the Epidemics of Allergy and Overweight	<p>Conditions: Allergic Disease; Obesity; Immunology</p> <p>Interventions: Behavioral: Dietary counselling and placebo; Behavioral: Dietary counselling and probiotics; Dietary Supplement: Placebo capsules; Dietary Supplement: Probiotics; Dietary Supplement: Prebiotics</p>
309	Not yet recruiting	The Healthy Lifestyles Passport Program: a Nutrition Education Program to Prevent Childhood Obesity	<p>Condition: Childhood Obesity</p> <p>Intervention: Other: Healthy Lifestyles Passport</p>
310	Completed	Growth Hormone Treatment in Adult Patients With Chronic Kidney Disease	<p>Conditions: Chronic Kidney Disease; End-Stage Renal Disease</p> <p>Intervention: Drug: somatropin</p>
311	Unknown [†]	Oxepa in Multiple Trauma	<p>Conditions: Multiple Trauma; Head Trauma</p> <p>Interventions: Dietary Supplement: Oxepa (enteral nutrition formula, ABBOTT), at a dose determined by a patient's energy expenditure and tolerance of enteral feeding.; Dietary Supplement: oxepa; Dietary Supplement: Control group</p>
312	Completed	IN2SHAPE: A Study of Physical Activity and Depressive Symptoms in Adolescence	<p>Condition: Depression</p> <p>Interventions: Behavioral: Self-motivated physical activity; Behavioral: Nutrition; Behavioral: Physical activity researcher contact</p>
313	Completed	Anti-Inflammatory and Anti-Oxidative Nutrition in Dialysis Patients	<p>Conditions: Hypoalbuminemia; Protein-energy Malnutrition; Inflammation; Oxidative Stress; Chronic Kidney Disease (CKD) Hemodialysis</p> <p>Interventions: Drug: pentoxiphylline; Dietary Supplement: Nepro; Dietary Supplement: anti-inflammatory module (similar to Oxepa); Drug: Placebo pill imitating pentoxiphylline; Dietary Supplement: Placebo to imitate Nepro; Dietary Supplement: Placebo to imitate anti-inflammatory module (similar to Oxepa)</p>
314	Recruiting	A Cooking and Eating Study	<p>Condition: Polycystic Ovary Syndrome</p> <p>Intervention: Behavioral: Nutrition Education, Dietary Counseling, and Cooking</p>
315	Completed	Breastfeeding, Antiretroviral, and Nutrition Study	<p>Condition: HIV Infections</p> <p>Interventions: Drug: Maternal zidovudine/lamivudine/lopinavir-ritonavir; Drug: Infant nevirapine; Dietary Supplement: Maternal protein and calorie supplement</p>
316	Recruiting	Food Security and Nutrition in Rural Cambodia	<p>Condition: Household Food Security</p> <p>Interventions: Behavioral: plant-based Homestead Food Production; Behavioral: Homestead Food Production plus small pond aquaculture; Behavioral: a comparison group</p>
317	Completed	Nutrition and Physical Activity Counseling for Nontraditional College Students	<p>Condition: Health Behavior</p> <p>Interventions: Behavioral: peer counseling; Behavioral: Feedback report</p>
318	Active, not recruiting	Nutrition, Neuromuscular Electrical Stimulation (NMES) and Secondary Progressive Multiple Sclerosis (SPMS)	<p>Condition: Multiple Sclerosis</p> <p>Interventions: Other: Progressive exercise; Device: Neuromuscular electrical stimulation delivered using the electrical therapy device EMPI 300 PV; Other: Wahls Diet;</p>

Dietary Supplement: Omega 3 fatty acids; Dietary Supplement: Full Spectrum vitamin;
Dietary Supplement: Essential - hydroxytyrosol;
Dietary Supplement: Maltodextrin fiber supplement;
Dietary Supplement: Mineral boost (magnesium); Dietary Supplement: Niacinamide;
Dietary Supplement: Methyl B12; Dietary Supplement: Taurine;
Dietary Supplement: creatine; Dietary Supplement: thiamine;
Dietary Supplement: riboflavin; Dietary Supplement: N acetylcysteine;
Dietary Supplement: alpha lipoic acid; Dietary Supplement: L acetyl carnitine;
Dietary Supplement: methyl folate; Dietary Supplement: coenzyme Q;
Behavioral: meditation; Behavioral: self massage; Behavioral: learning;
Dietary Supplement: Coconut oil

319 Unknown † [The Pakistan Early Childhood Development Scale Up Trial](#)

Condition: Growth & Development
Interventions: Behavioral: Health Education; Behavioral: Early Child Development;
Behavioral: Enhanced Nutrition Education

320 Enrolling by invitation [Effect of Intervention to Improve Stroke Recognition](#)

Condition: Stroke
Interventions: Behavioral: Hip Hop Stroke educational program; Behavioral: Nutrition Education program

Rank	Status	Study
321	Recruiting	<div>Minimization of IntraLipid Versus Omegaven</div> <div>Conditions: Cholestasis; Parenteral Nutrition Associated Liver Disease (PNALD)</div> <div>Interventions: Dietary Supplement: Omegaven; Dietary Supplement: Lipid minimization</div>
322	Recruiting	<div>The Effects of Iodized Salt on Cognitive Development in Ethiopia</div> <div>Conditions: Iodine Deficiency; Goiter; Cretinism</div> <div>Intervention: Other: Iodized salt</div>
323	Recruiting	<div>Group Education to Improve the Iodine Nutrition in Pregnancy: Cluster Randomized Trial</div> <div>Conditions: Dietary Modification; Pregnancy Jail; Iodine Deficiency Syndrome</div> <div>Intervention: Other: Group Education</div>
324	Unknown †	<div>School Intervention Study of Nutrition, Wellbeing and Dental Health</div> <div>Conditions: Eating; Oral Health</div> <div>Interventions: Behavioral: dietary counseling; Dietary Supplement: xylitol</div>
325	Completed	<div>A Need-based Nutritional Intervention in Nursing Home Residents</div> <div>Condition: Malnutrition</div> <div>Intervention: Dietary Supplement: Nutritional supplement</div>
326	Recruiting	<div>OPTIFIT-Optimal Fiber Trial for Diabetes Prevention</div> <div>Conditions: Diabetes; Nutrition Disorders; Obesity; Overweight; Metabolic Syndrome x; Body Weight; Glucose Metabolism Disorders; Metabolic Diseases</div> <div>Interventions: Dietary Supplement: Fiber; Dietary Supplement: Placebo</div>
327	Completed	<div>Appropriate Complimentary Feeding Strategies in Infants</div> <div>Condition: Anemia</div> <div>Interventions: Behavioral: Nutrition Education; Dietary Supplement: Oral Iron Supplementation along with Nturation Eductaion; Dietary Supplement: Multiple micronutrient fortification plus Nutrition Education</div>
328	Recruiting	<div>Nutrition and Body Composition in Acute Lymphoblastic Leukemia</div> <div>Conditions: Precursor Cell Lymphoblastic Leukemia-Lymphoma; Vitamin D Deficiency</div> <div>Intervention: Dietary Supplement: Vitamin D and Calcium Citrate</div>

329	Completed	Efficacy and Safety of a Fish Oil Containing Lipid Emulsion Condition: Parenteral Nutrition Interventions: Drug: fish oil containing lipid emulsion; Drug: MCT/LCT containing lipid emulsion
330	Recruiting	Enteral Glutamine in Reducing Bloodstream Infections in Short Bowel Syndrome Infants Conditions: Bloodstream Infections; Short Bowel Syndrome; Development; Nutrition; Biological Markers Interventions: Drug: Glutamine; Dietary Supplement: L-alanine
331	Completed	Choline Nutrition in Children With Cystic Fibrosis (CF) Condition: Cystic Fibrosis Intervention: Drug: Choline supplementation
332	Recruiting	Study of Nutrition in Acute Pancreatitis Condition: Pancreatitis Interventions: Procedure: Naso jejunal feeding tube insertion; Procedure: NG feeding tube insertion
333	Unknown †	Effectiveness of Oral Nutritional Supplements (ONS) in a Meals-on-Wheels Population Conditions: Elderly; Malnutrition Interventions: Dietary Supplement: Ensure Plus; Dietary Supplement: Meals on Wheels
334	Completed	Eat Well Live Well Nutrition Program Condition: Diabetes or Diabetes Prevention Intervention: Behavioral: Eat Well Live Well Nutrition Program
335	Recruiting	EFA Nutrition 5-Yr-Olds Follow-Up Study Condition: Docosahexanoic Acid (DHA) Intervention:
336	Unknown †	Effect of Energy- and Protein-rich Foods on Physiological Functions and Quality of Life in Undernourished Patients Condition: Malnutrition Interventions: Other: Individualised nutritional therapy; Other: Usual nutrition care
337	Active, not recruiting	Nutritional Status and Mental Health During Pregnancy and Postpartum: a Cohort Study in Rio de Janeiro, Brazil Condition: Pregnancy Intervention:
338	Recruiting	The Effects of Gastric Tube on the Quality of Life and Nutritional Status After Ivor-Lewis Esophagectomy Condition: Oesophageal Cancer Intervention: Procedure: gastric tube
339	Completed	Nutrition Intervention in AIDS Wasting Condition: HIV Wasting Syndrome Interventions: Drug: oxandrolone; Behavioral: Progressive Resistance Training
340	Active, not recruiting	Women-Focused HIV Prevention in the Western Cape Conditions: HIV; Substance Abuse; Violence Interventions: Behavioral: Woman-Focused Intervention (Women's CoOp); Behavioral: Nutrition (Attention-Control); Behavioral: VCT Only

Rank	Status	Study
341	Completed	The Nutritional Status and Food Intake of Community Health Agents Condition: Nutritional and Metabolic Diseases Intervention:
342	Recruiting	Essential Fatty Acid (EFA) Nutrition 5-Yr-Olds X Section Condition: Breastfeeding Intervention:
343	Completed	Appropriate Controlled Feeding: a Single Blinded Prospective Randomised Study Condition: Patients Requiring Artificial Nutrition Intervention: Other: Hypocaloric feeding
344	Unknown †	Nutrition Day in Hospitals, Nursing Homes and Community, Israel January 2010 Condition: Nutritional Status Intervention: Other: No Intervention
345	Unknown †	Total Parenteral Nutrition-Associated Liver Disease Condition: Liver Diseases Intervention: Drug: Choline Chloride
346	Completed	Nutrition, Physical Performance & Fitness in Indian School Children Conditions: Physical Fitness; Nutritional Status Interventions: Other: Nutritional supplement; Other: Placebo
347	Completed	Optimizing Vitamin D Nutrition in Healthy Adults Condition: Vitamin D Deficiency Intervention: Drug: Oral Vitamin D Supplementation
348	Recruiting	Maintenance After Initiation of Nutrition TrAINing Condition: Obesity Intervention: Behavioral: Interventions
349	Recruiting	Safety and Efficacy of Longterm HPN With Two Lipid Emulsions Condition: Malnutrition Interventions: Drug: Lipoplus; Drug: Lipofundin MCT

350	Unknown †	Nutritional Education for Dependant Patients Condition: Risk of Malnutrition Intervention: Behavioral: nutritional counseling
351	Unknown †	Nutritional and Neurotransmitter Changes in PKU Subjects on BH4 Condition: Phenylketonuria Intervention:
352	Not yet recruiting	ENLaCE Pilot Study Condition: Asthma Interventions: Behavioral: Meducation device technique video; Other: Nutrition video
353	Completed	Body Worlds 3 Nutrition Display Conditions: Obesity; Hyperlipidemia Intervention: Behavioral: Lifestyle intervention
354	Recruiting	Application of New Technologies and Tools to Nutrition Research Conditions: Obesity; Diabetes Intervention: Behavioral: Energy Intake Restriction
355	Completed	Neurodevelopment and Neuroimaging in Parenterally-fed Infants and Young Children Conditions: Parenteral Nutrition; Necrotizing Enterocolitis; Digestive System Abnormalities; Cholestasis Intervention: Dietary Supplement: Remove Mn from PN if evidence of increased brain Mn on MRI
356	Completed	Behavioral Rx & Nutrition in Pediatric Chronic Disease Condition: Pediatric Obesity Interventions: Behavioral: LAUNCH; Other: Pediatrician Counseling
357	Recruiting	INAPEN Protocol for Impact of Breakfast Improvement Conditions: Hospital Undernutrition; Malnutrition; Nutritional Deficiency Intervention: Dietary Supplement: Addition of protein (milky food in the breakfast)
358	Completed	Scouting Nutrition and Activity Program Condition: Obesity Interventions: Behavioral: Scouting Nutrition and Activity Program; Behavioral: Standard-care attentional control
359	Recruiting	Predicting Weight Gain and Weight Loss Associated With Overeating or Fasting Conditions: Obesity; Diet Therapy; Weight Loss; Weight Gain; Nutrition Therapy Interventions: Behavioral: Nutrition Therapy; Behavioral: Overfeeding; Behavioral: Underfeeding
360	Recruiting	Evaluation of OMEGAVEN 10%® (n-3 EFA Lipid Emulsion) in Home Parenteral Nutrition-associated Liver Disease Condition: Liver Diseases Interventions: Drug: Intralipid 20%®; Drug: OMEGAVEN 10%®

Rank	Status	Study
361	Active, not recruiting	<div>Self-Directed Exercise Program for Adults With Arthritis</div> <div>Conditions: Arthritis; Osteoarthritis; Rheumatoid Arthritis; Fibromyalgia</div> <div>Interventions: Behavioral: Multicomponent exercise; Behavioral: Nutrition</div>
362	Completed	<div>Grains Reduce Adiposity and Improve Nutrition Study</div> <div>Conditions: Metabolic Syndrome; Insulin Resistance</div> <div>Interventions: Dietary Supplement: Whole grain diet; Dietary Supplement: Refined grain</div>
363	Completed	<div>Effectiveness of Cognitive Behavioral Therapy Plus Nutritional Counseling in Promoting Weight Loss in People With Binge Eating Disorder</div> <div>Conditions: Binge Eating Disorder; Obesity; Overweight</div> <div>Interventions: Behavioral: Cognitive behavioral therapy plus general nutrition counseling (CBT+GN); Behavioral: Cognitive behavioral therapy plus low energy density diet counseling (CBT+LED)</div>
364	Completed	<div>Family-Based Nutrition Intervention for Latino Children</div> <div>Conditions: Obesity; Heart Diseases</div> <div>Intervention: Behavioral: In home nutrition counseling</div>
365	Completed	<div>Study of Impacts of Food Supplementation on Malnourished HIV-Infected Adults in Kenya</div> <div>Conditions: HIV; Malnutrition; HIV Infections</div> <div>Interventions: Dietary Supplement: fortified blended flour - Insta Foundation Plus (with whey protein concentrate); Other: nutrition counseling</div>
366	Completed	<div>Malnutrition Screening in Acute Aged Care</div> <div>Condition: Malnutrition</div> <div>Intervention: Other: Early referral to Dietitian for assessment and nutrition support</div>
367	Recruiting	<div>Role of Nutrition and Maternal Genetics on the Programming of Development of Fetal Adipose Tissue</div> <div>Conditions: Obesity; Diabetes</div> <div>Intervention:</div>
368	Completed	<div>Impacts of the 10 Steps for Healthy Feeding in Infants: a Randomized Field Trial</div> <div>Condition: Anemia</div>

Intervention: Behavioral: Dietary Advice

369	Completed	Chewing Gum for Weight Loss	Conditions: Obesity; Overweight; Weight Loss Interventions: Other: Extra sugar-free chewing gum sticks; Behavioral: nutrition brochure
370	Recruiting	Preventing Cholestasis Using SMOFLipid®	Conditions: Cholestasis; Psychomotor Disorders, Developmental Interventions: Drug: mixed lipid emulsion containing fish oil; Drug: Soy bean based lipid emulsion
371	Unknown [†]	Effects of Short-term Fasting on Tolerance to Chemotherapy	Condition: Breast Cancer Interventions: Other: Short-term fasting; Other: Healthy nutrition
372	Terminated	Enteral Glutamine Supplementation for the Patient With Major Torso Trauma	Conditions: Trauma; Critical Illness; Shock Intervention: Drug: Glutamine
373	Completed	Cholestasis Prevention: Efficacy of IV Fish Oil	Conditions: Cholestasis; Parenteral Nutrition Interventions: Drug: Omegaven; Drug: Intralipid
374	Not yet recruiting	High Protein and Exercise Therapy Plus Nocturnal Enteral Feeding in Juvenile-onset Pompe Disease	Condition: Glycogen Storage Disease Type II Intervention: Other: High Protein and Exercise Therapy along-with Nocturnal Enteral Feeding
375	Completed	Project Fit:a School- and Community-based Obesity Intervention	Condition: Obesity Intervention: Behavioral: Project Fit
376	Active, not recruiting	Nutrition and Coping Education for Symptom and Weight Management for Fibromyalgia	Conditions: Fibromyalgia; Obesity Interventions: Behavioral: Lifestyle Modification; Behavioral: Supportive education
377	Completed	Timing of Target Enteral Feeding in the Mechanically Ventilated Patient	Condition: Acute Respiratory Failure Intervention: Behavioral: trophic enteral feeds
378	Active, not recruiting	Nutrition Intervention Trials in Linxian Follow-up Study	Condition: Cancer Intervention:
379	Recruiting	Secondary Prevention of Stroke Through Non-drug Therapeutic Weight Reduction	Conditions: Stroke; Obesity Interventions: Other: Weight reduction program; Other: Lecture on healthy nutrition
380	Recruiting	Movement Therapy and Childhood Obesity	Condition: Obesity Interventions: Behavioral: movement therapy; Other: exercise plus nutrition

Rank	Status	Study
381	Completed	<div>Optimised Recovery With Accelerated Nutrition and GI Enhancement</div> <div>Condition: Colorectal Liver Metastases</div> <div>Interventions: Drug: Post operative laxation (Magnesium Oxide); Dietary Supplement: Preoperative metabolic conditioning postoperative nutritional supplementation; Other: Standard ERAS group</div>
382	Completed	<div>Tight Caloric Balance in Geriatric Patients</div> <div>Condition: Nutrition Assessment</div> <div>Intervention: Other: Indirect Calorimetry</div>
383	Recruiting	<div>Optifood, An Approach to Improve Nutrition</div> <div>Condition: Food Based Recommendations</div> <div>Intervention: Behavioral: Pretesting food based recommendations</div>
384	Unknown †	<div>The Influence of an Intervention Program on Altering Health Behavioral Patterns Among IDF's Staff</div> <div>Conditions: Physical Fitness Habits; Balanced Nutrition; Weight Reduction; Smoking Cessation; Reduction of Stress</div> <div>Intervention: Behavioral: Behavioral intervention-to determine the effectiveness of a general intervention on healthy living habits of IDF staff</div>
385	Completed	<div>Type 2 Diabetes Primary Prevention for At Risk Girls</div> <div>Conditions: Obesity; Diabetes Mellitus; Prediabetic State</div> <div>Interventions: Behavioral: Nutrition Education; Behavioral: After-school dance class</div>
386	Recruiting	<div>A Parent-Based Intervention to Reduce Sexual Risk Behavior in Adolescents</div> <div>Condition: Behavior and Behavior Mechanisms</div> <div>Interventions: Behavioral: Families Talking Together; Behavioral: Active Control on Hygiene & Nutrition</div>
387	Active, not recruiting	<div>Reducing Alcohol Use & Post-traumatic Stress Disorder (PTSD) With Cognitive Restructuring & Experiential Acceptance</div> <div>Conditions: Alcoholism; Stress Disorders, Post-Traumatic</div> <div>Interventions: Behavioral: Experiential acceptance; Behavioral: Cognitive restructuring; Other: No-intervention control: Nutrition information</div>

388	Active, not recruiting	Effects of Early Nutrition on Growth Condition: Infant Newborn Interventions: Other: Human Milk; Other: Investigational infant formula; Other: Milk based standard infant formula
389	Completed	Nutrition, Immunology and Epidemiology of Tuberculosis Condition: Tuberculosis Interventions: Dietary Supplement: Multivitamins; Other: Placebo
390	Completed	Parenting Videos In Primary Care Conditions: Discipline Attitudes; Discipline Practices Interventions: Behavioral: Discipline Video; Behavioral: Nutrition Video
391	Terminated	MesoHep II: Intraperitoneal Low Molecular Weight Heparin in Peritoneal Dialysis Conditions: Inflammation; Nutrition; Peritoneal Dialysis Intervention: Drug: tinzaparin
392	Recruiting	Acceptance Based Behavioral Intervention for Weight Loss: A Randomized Trial Condition: Obesity Interventions: Behavioral: Nutrition Education; Behavioral: Behavioral Weight Loss Strategies; Behavioral: Standard Cognitive Techniques; Behavioral: Acceptance Based Techniques
393	Completed	Randomized Placebo-Controlled Trial (RPCT) of Maize/Zinc in Guatemala Conditions: Nutrition; Pregnancy Interventions: Drug: Low phytic acid maize; Drug: Zinc
394	Completed	Targeting School Feeding Programs at Vulnerable Sub-Groups Conditions: Malnutrition; Cognition Interventions: Other: In School Feeding; Other: Take Home Rations
395	Recruiting	Screening of Nutritional Status in Cardiac Surgery Condition: Cardiovascular Diseases Intervention:
396	Recruiting	Skeletal Muscle Response to Amino Acids and Load Carriage Exercise Conditions: Muscle Loss; Muscle Anabolism; Muscle Performance Interventions: Other: Leucine-enriched nutritional supplement; Other: Placebo
397	Not yet recruiting	Starting Early Obesity Prevention Program Condition: Childhood Obesity Intervention: Behavioral: Family groups
398	Active, not recruiting	Bone Health of Obese Adolescents During Weight Loss Condition: Pediatric Obesity Interventions: Behavioral: Comprehensive behavioral weight control program; Other: Individual 12-month nutrition education program
399	Recruiting	Feeding Trial in Pediatric Patients Condition: Developmental Disabilities Intervention: Other: enteral formula
400	Recruiting	Effects of a Complete Diet in Critically Ill Patients With Stress Hyperglycemia Conditions: Critical Illness; Hyperglycemia; Mechanical Ventilation; Enteral Nutrition; Metabolic Stress Interventions: Dietary Supplement: T-Diet plus Diabet IR; Dietary Supplement: ISOSOURCE PROTEIN FIBRE; Dietary Supplement: GLUCERNA SELECT

Rank	Status	Study
401	Recruiting	Early Post-Operative Enteral Feeding in Patients With Advanced Epithelial Ovarian Cancer Conditions: Epithelial Ovarian Cancer; Primary Peritoneal Cancer; Fallopian Tube Cancer Intervention: Other: Enteral feeding
402	Unknown †	Reduce Obesity and Diabetes Conditions: Type 2 Diabetes; Pediatric Obesity; Dyslipidemia Intervention: Behavioral: Nutrition, health, and exercise education
403	Completed	TB Nutrition, Immunology and Epidemiology Condition: Mycobacterium Tuberculosis Interventions: Drug: Folic Acid; Drug: Micronutrients: Vitamins B1, B2, B6, Niacin, B12, C, E.; Drug: Selenium; Drug: Vitamin A
404	Completed	USDA Behavior, Motivation & Nutrition Study Condition: Body Weight Intervention:
405	Unknown †	Modification in Complementary Food Composition to Improve the Status of Iron and Fatty Acids in Infants. Conditions: Iron Status; Fatty Acid Status Intervention: Other: more meat and a vegetable oil rich in omega-3 fatty acids
406	Completed	Vitamin D Supplementation in Breastfeeding Women Conditions: Vitamin D Deficiency; Rickets; Infant Nutrition Disorders Intervention: Dietary Supplement: Vitamin D3
407	Completed	The Effects of Fiber on Appetite and Digestion Hormones Conditions: Psychological Phenomena and Processes; Nutrition Physiological Phenomena Interventions: Dietary Supplement: No fiber; Dietary Supplement: Low GI high fiber viscous meal; Dietary Supplement: Low GI high fiber non-viscous
408	Recruiting	Lean Seafood Intake and Postprandial Metabolism Conditions: Hyperlipidemias; Nutritional and Metabolic Diseases; Nutrition Disorders; Metabolism Diseases; Glucose Metabolism Disorders Interventions: Dietary Supplement: Lean seafood; Dietary Supplement: Meat, egg, milk

409	Recruiting	TICACOS International Condition: Mechanical Ventilation Complication Intervention: Dietary Supplement: Indirect Calorimetry measurement of Resting Energy Expenditure .
410	Withdrawn	Randomized Controlled Trial of Dietary Advice in Primary Care to Promote Healthy Feeding of Infants Condition: Breast Feeding Intervention: Behavioral: Ten Steps for Healthy Feeding children programme
411	Not yet recruiting	Access to Nutritional Services and the Effect on Maternal Weight Gain Conditions: Pregnancy; Obesity Intervention: Behavioral: Nutritional Counseling
412	Unknown †	Gluconeogenesis in Very Low Birth Weight Infants Who Are Receiving Nutrition By Intravenous Infusion Conditions: Infant, Low Birth Weight; Hyperglycemia Interventions: Drug: alanine; Drug: amino acids; Drug: glucagon; Drug: glucose; Drug: glutamine; Drug: glycerol; Drug: insulin; Drug: leucine; Drug: lipids; Drug: urea
413	Recruiting	A Nutrition Intervention for Arthritis -2 Condition: Rheumatoid Arthritis Intervention: Other: Plant-based diet
414	Completed Has Results	Fluid and Nutrition in Elective Hip Surgery Condition: Hip Surgery Corrective Interventions: Drug: Water administration; Dietary Supplement: carbohydrate drink; Behavioral: Fasting.
415	Completed	Nutritional Programme for Dementia Elderly Patient Conditions: Alzheimer's Disease; Dementia Intervention: Behavioral: Nutritional programme
416	Unknown †	Comparative Study About the Impact of Two Oil Emulsions Administered Intravenously on Severe Acute Pancreatitis Condition: Severe Acute Pancreatitis Interventions: Drug: Fat emulsion with MCT, LCT, olive oil and omega 3 fatty acids; Drug: Fat emulsion with MCT and LCT
417	Completed	Efficacy of a Milk-based Nutrient-rich Bar on Nutritional Status and Cognitive Performance of School Children in Vietnam Condition: Cognitive Performance Intervention: Dietary Supplement: food bar
418	Unknown †	Community Nutrition Support Trial Condition: Malnutrition Interventions: Behavioral: Dietary Advice; Dietary Supplement: Oral Nutritional Supplements (Fortisip)
419	Enrolling by invitation	Total Parenteral Nutrition Associated Cholestasis (TPNAC) and Plasma Amino Acid Levels in Neonates Condition: Premature Birth Intervention: Other: Primene and Trophamine are added in TPN
420	Completed	Effect of Nutrition Labeling on Fast Food Choices Condition: Healthy Intervention: Behavioral: Fast Food Menu Choices

† Indicates status has not been verified in more than two years

Rank	Status	Study
421	Recruiting	<u>Malaria in Pregnancy: Nutrition and Immunologic Effects</u> Conditions: Malaria; Low Birth Weight; Anemia; Perinatal Mortality Interventions: Dietary Supplement: Vitamin A; Dietary Supplement: Zinc; Other: Placebo
422	Terminated Has Results	<u>Enteral Nutrition and Glycemic Variability Neurological Intensive Care Unit Study</u> Conditions: Subarachnoid Hemorrhage; Intracranial Hemorrhage; Ischemic Strokes; Subdural Hematoma Interventions: Dietary Supplement: Glycerna; Dietary Supplement: Jevity - Control Diet
423	Completed	<u>Nutritional Status and Barriers to Dietary Intake in Head and Neck Cancer Patients</u> Condition: Head and Neck Cancer Intervention:
424	Completed	<u>Lifestyle Intervention's Impact on Health Care Costs</u> Conditions: Diabetes Mellitus, Type 2; Obesity Interventions: Behavioral: Usual medical care; Behavioral: Lifestyle Case management
425	Completed	<u>The Effects of Nutrition Supplementation and Resistance Exercise During Hemodialysis</u> Condition: End Stage Renal Disease Interventions: Drug: nutritional supplementation; Behavioral: exercise
426	Terminated	<u>Evaluation Perioperative Nutrition on Donor Site Healing in Patients Undergoing Reconstructive Burn Surg</u> Conditions: Burn; Reconstructive Surgical Procedure Intervention: Dietary Supplement: Juven (Ross Products) protein supplement
427	Recruiting	<u>mHealth - A Novel Approach to Improve Child Nutrition in India</u> Condition: mHealth to Improve Complementary Feeding Intervention: Behavioral: Counselling using mobile phones
428	Unknown †	<u>Directed Immuno Nutrition by L-arginine for Critically Ill Patients</u> Condition: Critically Ill Interventions: Drug: L-arginine; Drug: placebo
429	Unknown †	<u>Chronic Obstructive Pulmonary Disease (COPD) Nutrition Support Trial</u>

		Condition: Malnutrition
		Interventions: Dietary Supplement: Oral Nutritional Supplements (Fortisip); Other: Dietary Advice
430	Completed	Re-energize With Nutrition, Exercise and Weight Loss Condition: Obesity Interventions: Other: Diet and Exercise; Other: Diet and Exercise-Delayed
431	Completed	the Effect of a Red Rice Nutrition Supplement on Cholesterol Levels Conditions: Cholesterol Level; HDL Level; LDL Level; TG Level Intervention: Dietary Supplement: red rice supplement
432	Active, not recruiting	Protein Intake, Nutrition and Cardiovascular Diseases in Stage V CKD Conditions: Hemodialysis; End Stage Renal Disease Intervention:
433	Active, not recruiting	Supplemental Adjuvants for Intracellular Nutrition and Treatment Conditions: Neovascular Age-related Macular Degeneration; Diabetic Macular Edema Interventions: Drug: Neutral pills with no medicinal effect; Dietary Supplement: Inosine; Tocopherols, Tocotrienol, CoQ10 combination capsule; Niacinamide SR; Viatmin C; N-acetyl Cysteine; Complete Multivitamin with all minerals; Drug: Inosine; Tocopherol, Tocotrienol, CoQ10 combination capsule; Niacinamide; Vitamin C; N-acetyl Cysteine; Complete Multivitamin with all minerals; Minocycline
434	Completed	Middle-School Based Primary Prevention Trial of Type 2 Diabetes Condition: Type 2 Diabetes Intervention: Behavioral: integrated program of nutrition , activity, behavior, and promotion
435	Terminated	Insulin Glargine for Diabetes Metabolism(DM)Type II Patients Under Enteral Nutrition Condition: Diabetes Mellitus, Type 2 Interventions: Drug: INSULIN GLARGINE; Drug: INSULIN GLULISINE
436	Active, not recruiting	Compassionate Use of Omegaven® in the Treatment of Parenteral Nutrition Induced Hepatic Injury Conditions: Cancer; Injury of Liver Intervention: Dietary Supplement: Omegaven
437	Recruiting	Effect of High-protein High-fiber Diet in Patients With Autoimmune Hepatitis Conditions: Autoimmune Hepatitis; Cirrhosis Intervention: Dietary Supplement: High protein high fiber diet
438	Completed	Feasibility and Effectiveness of Distributing Micronutrient Sprinkles to Reduce Prevalence of Anemia Condition: Anemia Interventions: Dietary Supplement: "Sprinkles" containing mulitple micronutrients; Behavioral: Education/communication on use of micronutrient sprinkles; Dietary Supplement: Fortified food aid (corn-soy blend)
439	Completed	Enteral Nutrition in Congestive Heart Failure and Cardiac Cachexia Conditions: Chronic Heart Failure; Cardiac Cachexia Interventions: Dietary Supplement: NutriDrink; Dietary Supplement: Placebo
440	Recruiting	Cook for Your Life Condition: Breast Cancer Interventions: Other: Arm A; Behavioral: Arm B

Rank	Status	Study
441	Completed	<div><div><div>The Anti-inflammatory Effects of High-fat Nutrition Towards a Clinical Application</div><div>Condition: Trauma</div><div>Intervention: Dietary Supplement: nutritional intervention with Respifor and Diasip</div></div></div>
442	Recruiting	<div><div><div>Efficacy of Portion Size Measurement Aids</div><div>Conditions: Nutrition Assessment; Obesity</div><div>Intervention: Behavioral: Portion Size Measurement Aids (PSMAs)</div></div></div>
443	Completed	<div><div><div>Nutritional State and Intake Nutrients Assessment in Ulcerative Colitis</div><div>Condition: Ulcerative Colitis in Remission</div><div>Intervention:</div></div></div>
444	Recruiting	<div><div><div>Safety and Dosing Study of Glucagon-like Peptide 2 (GLP-2) in Infants and Children With Intestinal Failure</div><div>Conditions: Intestinal Failure; Short Bowel Syndrome</div><div>Interventions: Drug: Glucagon-Like Peptide 2; Drug: Glucagon like peptide-2</div></div></div>
445	Completed	<div><div><div>A Clinical Trial to Determine Outcomes and Cost Effectiveness of Nutritional Intervention in Elderly Patients</div><div>Condition: Aging</div><div>Intervention: Behavioral: Multidisciplinary dietary intervention</div></div></div>
446	Recruiting	<div><div><div>Taste, Smell and Chemotherapy (TASTY)</div><div>Condition: Testicular Cancer</div><div>Interventions: Procedure: Dexa scan; Procedure: audiogram; Procedure: measurement of heart rate variability and baroreflex sensitivity; Procedure: Glucose tolerance assessment; Dietary Supplement: oral nutrition supplements; Behavioral: Two day food records; Behavioral: Food Frequency Questionnaire</div></div></div>
447	Recruiting	<div><div><div>Baby Observational and Nutritional Study</div><div>Conditions: Cystic Fibrosis; Growth Failure; Exocrine Pancreatic Insufficiency</div><div>Interventions: Drug: Pancrelipase 3000 USP units of lipase; Drug: Pancrelipase 750 USP units of lipase</div></div></div>
448	Recruiting	<div><div><div>Nutrition in Children With Food Allergy</div><div>Condition: Food Allergy</div></div></div>

		Intervention:
449	Unknown †	Effect of Enteral Nutrition Enriched in Protein and Based on Indirect Calorimetry Measurement in Chronically Critically Ill Patients Condition: Critically Ill Interventions: Other: Caloric Support (Group 1); Other: Caloric Support (Group 2); Dietary Supplement: Protein dose of 1.1 to 1.5 grams per kilogram weight.; Dietary Supplement: Protein at 1.1 grams per kilogram weight.; Dietary Supplement: protein at a dose of 1.5 grams per kilogram weight.
450	Recruiting	Comparing Different Nutrition Products During Acute Illness - The Main Focus is on Lipid and Amino Acid Metabolism Conditions: Febrile Illness Acute; Inflammation; Metabolic Diseases Intervention: Biological: E. coli endotoxin, US standard
451	Completed	Evaluation of Energy Expenditure, Body Composition and Recovery Rates in Children With Severe Acute Malnutrition Conditions: Children; Malnutrition Interventions: Behavioral: Nutrition education; Dietary Supplement: RUTF
452	Recruiting	Improving Diabetes Outcomes Through Lifestyle Change (IDOLc) Study Conditions: Type 2 Diabetes; Obesity Interventions: Behavioral: Group Lifestyle Program; Behavioral: Usual Care
453	Not yet recruiting	Validation of the STAMP Screening Tool Condition: Malnutrition Interventions: Other: questionnaire STAMP and dietary; Other: No STAMP using
454	Active, not recruiting	Validation of the STAMP Screening Tool For Pediatric Nutritional Risk Condition: Malnutrition Intervention: Other: questionnaire STAMP
455	Recruiting	A Feasibility Study of Multimodal Exercise/Nutrition/Anti-inflammatory Treatment for Cachexia - the Pre-MENAC Study Conditions: Cancer; Cachexia Interventions: Other: Multimodal intervention; Other: Standard care
456	Active, not recruiting	Developing Genetic Education for Smoking Cessation Condition: Tobacco Smoking Interventions: Behavioral: Genetic Education Session; Behavioral: Nutrition Education Session
457	Recruiting	DEMOJUAN- DEMOnstration Area for Primary Prevention of Type 2 Diabetes, JUAN Mina and Barranquilla, Colombia Conditions: Diabetes Mellitus, Non-Insulin-Dependent; Glucose Metabolism Disorders Intervention: Behavioral: Lifestyle counselling
458	Active, not recruiting	Prevention of Weight Loss in Long Term Care Veterans Condition: Malnutrition Intervention: Behavioral: Nutrition Assessment and Management
459	Withdrawn	A Trial of Oral Nutritional Supplements on Nutritional Status and Clinical Outcomes Condition: Malnutrition Intervention: Dietary Supplement: Nutritional Supplement (Ensure Plus)
460	Completed	Neural Effects of Mindfulness Training on Attention Conditions: No Condition; Focus is Neural Effects of Mindfulness Training on Attention Interventions: Behavioral: Mindfulness Meditation Training (MMT); Behavioral: Nutrition Education course

Rank	Status	Study
461	Completed	<div>Shape Up Somerville: Eat Smart Play Hard</div> <div>Condition: Childhood Obesity</div> <div>Intervention: Behavioral: Nurtition and Physical Activity Education</div>
462	Terminated	<div>ProStat Supplementation in Dialysis Patients</div> <div>Conditions: Malnutrition; ESRD</div> <div>Interventions: Dietary Supplement: Nutritional Supplement ProStat 64 twice a day; Dietary Supplement: Placebo supplement</div>
463	Completed	<div>A Study of Tomato Products and Disease Risk</div> <div>Condition: Inflammation</div> <div>Interventions: Other: Tomato products; Other: Non-tomato test meal</div>
464	Unknown †	<div>Trial of Enteral Nutrition Enriched With Eicosapentaenoic Acid (EPA) in Upper Gastrointestinal Cancer Surgery</div> <div>Condition: Esophageal Cancer</div> <div>Interventions: Dietary Supplement: Prosure; Dietary Supplement: Ensure Plus</div>
465	Terminated	<div>Supplements for Controlling Resistance to Insulin</div> <div>Conditions: Obesity; Diabetes Mellitus, Type 2</div> <div>Intervention: Drug: Super CitriMax and ChromeMate (in overweight adolescents)</div>
466	Completed	<div>Association Between Breastfeeding and Likelihood of Myopia in 6-7 Years Old Children</div> <div>Conditions: Myopia; Nearsightedness</div> <div>Intervention:</div>
467	Active, not recruiting	<div>Omega-3 Fatty Acids and/or Multi-domain Intervention in the Prevention of Age-related Cognitive Decline</div> <div>Condition: Frail Elderly Subjects</div> <div>Interventions: Dietary Supplement: omega-3; Behavioral: multi-domain intervention; Drug: Placebo</div>
468	Completed	<div>Strategy to Minimize In-hospital Malnutrition in Premature Babies</div> <div>Condition: Weight Gain Preterm</div> <div>Intervention: Dietary Supplement: no intervention</div>

469	Unknown †	Effects (Long Term Analysis) of an Hyperproteinic Nutrition on Neonates With Intra-Uterine Growth Delay : a Prospective, Multicentric , Randomized, Double Blind Study ("Proneonat") Condition: Intra-Uterine Growth Delay Interventions: Other: milk enriched in proteins (2.15 g/100ml); Other: milk with normal protein concentration (1.45g/100ml)
470	Completed	Healthy Lifestyles for Mentally Ill People Who Have Experienced Weight Gain From Their Antipsychotic Medications Conditions: Diabetes; Obesity; Weight Gain Intervention: Behavioral: Behavioral Weight Loss Program
471	Unknown †	Internet-Based Nutrition Education Program in Preventing Cancer in Participants of Health Maintenance Organizations Condition: Unspecified Adult Solid Tumor, Protocol Specific Interventions: Behavioral: behavioral dietary intervention; Dietary Supplement: dietary intervention; Other: educational intervention; Other: internet-based intervention; Other: preventative dietary intervention; Procedure: evaluation of cancer risk factors
472	Recruiting	Healthy Lifestyles for Mentally Ill People Who Have Experienced Weight Gain From Their Antipsychotic Medications - 2 Conditions: Diabetes; Obesity; Weight Gain Intervention: Behavioral: Behavioral Weight Loss Program
473	Completed	Framingham Cycle V Offspring-Spouse Nutrition Studies Conditions: Cardiovascular Diseases; Coronary Disease; Heart Diseases; Hypertension; Obesity; Diabetes Mellitus; Atherosclerosis Intervention:
474	Unknown †	Personalized Nutrition Education in Improving Eating Habits of Healthy Participants Who Eat an Unhealthy Diet Condition: Unspecified Adult Solid Tumor, Protocol Specific Interventions: Behavioral: behavioral dietary intervention; Other: educational intervention; Other: preventative dietary intervention
475	Recruiting	The Role of Human Milk in Development of Breast Fed Child's Intestinal Microbiota Conditions: Pregnancy; Lactation Intervention:
476	Active, not recruiting	Postnatal Human Cytomegalovirus (HCMV) Infection in Very Preterm Infants. Implications on Acute and Chronic Morbidity, Growth and Neurodevelopmental Outcomes. Part of the Study on "Nutrition, Growth and Development Among Very Preterm Infants" Conditions: Neurodevelopmental Disabilities; Hearing Loss; Mental Retardation; Microcephaly; Chorioretinitis; Growth Intervention:
477	Completed	Iranian Intensive Care Unit (ICU) Glutamine Study Condition: Trauma Patients in ICU Interventions: Dietary Supplement: Glutamine 0.5 g/kg/day; Dietary Supplement: Glutamine 1 g/kg/day; Dietary Supplement: Enteral Nutrition
478	Active, not recruiting	Effects of Environmental Opportunities and Barriers on Physical Activity, Fitness, and Health in Hispanic Children in Wisconsin Condition: Obesity, Diabetes, Nutrition, Physical Health Intervention:
479	Recruiting	My Lifestyle Intervention of Food and Exercise Condition: Breast Cancer Interventions: Behavioral: Nutrition, physical activity, and behavioral weight management intervention;

Behavioral: Commercially available weight management program

480 **Completed** [CHOICES: Family Physicians Treat Overweight Children](#)
Conditions: Obesity; Overweight
Intervention: Behavioral: Choices

Rank	Status	Study
481	Unknown †	<div>Exercise and Dietary Counseling in Improving Physical Activity, Nutrition, and Quality of Life in Older Long-Term Cancer Survivors Who Are Overweight</div> <div>Conditions: Breast Cancer; Colorectal Cancer; Prostate Cancer</div> <div>Interventions: Behavioral: behavioral dietary intervention; Behavioral: exercise intervention; Other: preventative dietary intervention</div>
482	Completed	<div>The Impact of the Type and Route of Nutritional Support on Infectious Complications After Upper Gastrointestinal Surgery</div> <div>Condition: Gastrointestinal Surgery</div> <div>Intervention: Drug: Reconvan, Dipeptiven, Omegaven</div>
483	Active, not recruiting	<div>Fit Over 45 - a Health Promotion Project for Inactive Female Hospital Staff Age 45+ From the University Hospital of Zürich</div> <div>Condition: Healthy</div> <div>Intervention: Behavioral: Exercise and Nutrition Education</div>
484	Completed	<div>A Prospective Study of The Complement Depletion in Patients With Severe Abdominal Sepsis</div> <div>Conditions: Severe Sepsis; Pancreatitis; Abdominal Abscess; Appendicitis; Digestive System Fistula</div> <div>Interventions: Drug: Norepinephrine; Procedure: Open abdomen; Other: enteral nutrition; Other: parenteral nutrition</div>
485	Recruiting	<div>Intervention Study for Overweight and Obese Kindergarten Children</div> <div>Conditions: Overweight; Obesity; Physical Fitness</div> <div>Intervention: Other: Multidisciplinary intervention: physical activity, dietary instructions and behavioral treatment.</div>
486	Completed	<div>Schistosomiasis Effect on Response to Vaccines, Anaemia and Nutritional Status of Children of Northern Senegal</div> <div>Conditions: Schistosomiasis; Anemia; Underweight; Stunting; Intestinal Parasites</div> <div>Intervention:</div>
487	Completed	<div>Benefits of Walnuts for Male Reproductive Health</div> <div>Conditions: Infertility; Nutrition Disorders</div> <div>Intervention: Other: Whole walnuts</div>

488	Active, not recruiting	GI Surgery Pre-Operative Nutrition Condition: Immunonutrition Interventions: Dietary Supplement: Impact Advance Recovery (R); Dietary Supplement: Ensure Plus (R)
489	Completed	Effects of n-3 Polyunsaturated Fatty Acids and Antioxidants on Postprandial Hyperlipidemia and Vascular Function in Men Conditions: Cardiovascular Diseases; Vasodilation Intervention: Behavioral: Nutrition
490	Recruiting	Phenotypic and Genetic Properties in Males at Risk for X-linked Hypohidrotic Ectodermal Dysplasia: Evaluation of an Early Diagnosis Technology and Tests to Assess Nutritional Status Conditions: X-linked Hypohidrotic Ectodermal Dysplasia; Hypohidrotic Ectodermal Dysplasia Intervention:
491	Unknown †	An Individualized Internet-Based Health Behavior Program or a Standard Internet-Based Health Behavior Program in Preventing Cancer and Improving Physical Activity and Nutrition in Participants Who Are Physically Inactive With a Higher Body Mass Index Condition: Unspecified Adult Solid Tumor, Protocol Specific Interventions: Behavioral: behavioral dietary intervention; Other: educational intervention; Other: internet-based intervention; Other: preventative dietary intervention; Procedure: evaluation of cancer risk factors
492	Recruiting	Effects of Vitamin D Supplementation During Pregnancy on Clinical Outcomes and Immune Function Condition: Vitamin D Deficiency Interventions: Dietary Supplement: 400 IU vitamin D3; Dietary Supplement: 2,000 IU Vitamin D3
493	Enrolling by invitation	Effect of Preop Nutritional Status on Outcomes of Staged Bilateral Total Knee Arthroplasty Condition: Arthritis Intervention: Procedure: Total knee arthroplasty
494	Completed	Nutrition Effects on Fatigue During Tennis Playing Condition: Fatigue Interventions: Dietary Supplement: Nutrattente / Nutraperf / Nutrarecup; Dietary Supplement: Nutrattente placebo / Nutraperf placebo / Nutrarecup placebo
495	Completed	Nutritional Support in Pressure Ulcer Patients Condition: Pressure Ulcers Interventions: Dietary Supplement: Enriched nutrition formula; Dietary Supplement: Control formula
496	Terminated	Factors Affecting Weight Gain in Women Receiving Adjuvant Chemotherapy for Breast Cancer Conditions: Depression; Stage I Breast Cancer; Stage IIIA Breast Cancer; Nutrition; Stage II Breast Cancer; Psychosocial Effects/Treatment; Quality of Life Intervention:
497	Terminated	Nutritional Content of Breast Milk From Mothers of Premies Conditions: Prematurity; Nutrition Intervention:
498	Completed	Understanding Fish Consumption Habits During Pregnancy Condition: Nutrition Intervention:
499	Completed	School-Based Obesity Prevention Program Condition: Obesity Intervention: Behavioral: Nutrition Intervention

500 **Completed** [Efficacy of a Web-based Tailored Weight Management Program](#)

Condition: Obesity

Intervention: Behavioral: tailored web-based weight management intervention

Exclude studies with unknown status

Rank	Status	Study
501	Completed	<div>Optimizing the Ambiance During Mealtimes in Dutch Nursing Homes</div> <div>Condition: Malnutrition</div> <div>Intervention: Procedure: family style dinner</div>
502	Unknown †	<div>The Effects of Testosterone and Nutritional Supplementation in the Undernourished Elderly</div> <div>Conditions: Malnutrition; Aging</div> <div>Intervention: Drug: testosterone undecanoate</div>
503	Terminated	<div>Haelan and Nutrition in Cancer Patients</div> <div>Conditions: Anorexia; Weight Loss; Cachexia</div> <div>Intervention: Dietary Supplement: Haelan</div>
504	Completed	<div>Effect of Nutrition on Muscle Protein Synthesis</div> <div>Condition: Healthy</div> <div>Intervention: Dietary Supplement: carbohydrate and protein</div>
505	Withdrawn	<div>Diet and Exercise in Overweight Children Postburn</div> <div>Conditions: Obesity; Burns</div> <div>Intervention: Behavioral: Behavior modification, Nutrition Education, Exercise</div>
506	Completed	<div>Bioelectrical Impedance Vector Analysis in Cirrhotic Patients</div> <div>Conditions: Liver Cirrhosis; Malnutrition</div> <div>Intervention:</div>
507	Completed	<div>Enteral Nutrition in Liver Cirrhosis</div> <div>Condition: Liver Cirrhosis</div> <div>Intervention: Dietary Supplement: High Protein Energy, Fresenius-Kabi (nutritional intervention)</div>
508	Completed	<div>Improving Diabetes Outcomes With Activity, Nutrition and Medication</div> <div>Condition: Diabetes Mellitus, Type 2</div> <div>Interventions: Behavioral: Tailored telephone intervention of education; Behavioral: Print educational intervention</div>
509	Completed	<div>Nutrition Education</div>

Conditions: Cardiovascular Diseases; Heart Diseases
Intervention:

510	Active, not recruiting	Efficacy and Mechanisms of GLN Dipeptide in the SICU Condition: Critical Illness Intervention: Drug: Glutamine dipeptide
511	Completed	Weight Loss and Changes in Cardiovascular Risk Markers With a Low Glycemic Diet Compared With a Standard Diet Conditions: Obesity; Metabolic Syndrome Intervention: Behavioral: Diet counseling
512	Recruiting	Effects of Parenteral L-carnitine Supplementation in Premature Neonates Condition: Prematurity Interventions: Drug: Parenteral L-carnitine supplementation; Drug: Parenteral supplementation with sterile water
513	Active, not recruiting	Effectiveness of an Eight Week Online Mediterranean Based Diet Condition: Obesity Interventions: Behavioral: Go! Foods for You without Weekly MA Support.; Behavioral: Go! Foods for You with Weekly MA Support.
514	Terminated	Metabolic Response to Infliximab in Pediatric Ulcerative Colitis Conditions: Ulcerative Colitis; Protein Metabolism; Energy Expenditure Intervention: Other: Stable amino acid isotopes
515	Recruiting	Impact of Early and Active Nutritional and Dietary Management grade3 or More Toxicities Induced by Chemotherapy and Targeted Therapies Administered to Patients as First Intention for Non Surgical Metastatic Colorectal Cancer Condition: Metastatic Colorectal Cancer Intervention: Other: Early and active nutritional support.
516	Unknown †	Prenatal Multi-Micronutrient Supplementation and Pregnancy Outcome Conditions: Nutrition; Micronutrients; Pregnancy; Birth Weight Intervention: Drug: multi-micronutrients
517	Recruiting	Cardiovascular Outcomes Study of Naltrexone SR/Bupropion SR in Overweight and Obese Subjects With Cardiovascular Risk Factors (The Light Study) Conditions: Obesity; Overweight Interventions: Drug: NB32; Drug: PBO; Behavioral: Weight Management Program
518	Active, not recruiting	Study of Parenting Intervention to Prevent Child Obesity Condition: Obesity Intervention: Behavioral: Parenting Program
519	Completed	Gastric pH and Anthocyanin Absorption Condition: Anthocyanin Metabolism Interventions: Drug: omeprazole; Drug: placebo
520	Completed	The Impact of Omega-3 Fat Emulsion on Clinical Outcome of Post-Operative Cancer Patients Conditions: Carcinoma Surgery; Parenteral Nutrition; Post-Operative Hospital Stay Interventions: Drug: Omega-3 fish oil emulsion (Omegaven); Drug: long-chain triglyceride

Rank	Status	Study
521	Recruiting	<div><div><div><div><div>Comparative Anti-Reflux Procedures in Neurologically Impaired Children</div><div>Conditions: Gastroesophageal Reflux; Nervous System Diseases; Fundoplication; Enteral Nutrition</div><div>Interventions: Procedure: Fundoplication; Procedure: Gastrojejunal (GJ) feeding tube</div></div></div></div></div>
522	Recruiting	<div><div><div><div><div>Evaluation of a Diet in Patients With Senile Dementia</div><div>Conditions: Alzheimer's Disease; Parkinson's Disease; Senile Dementia</div><div>Interventions: Dietary Supplement: Supressi. T-Diet plus Range; Dietary Supplement: High Protein. T-Diet plus Range</div></div></div></div></div>
523	Not yet recruiting	<div><div><div><div><div>Lunch is in the Bag: Helping Parents Increase Fruit, Vegetables, and Whole Grains in Preschool Sack Lunches</div><div>Condition: Diet</div><div>Intervention: Behavioral: Behaviorally-based nutrition intervention</div></div></div></div></div>
524	Unknown †	<div><div><div><div><div>Effectiveness of a Cell Phone-Based Program for Abstinence and HIV Risk Prevention</div><div>Condition: HIV Infections</div><div>Interventions: Behavioral: HIV-related text messaging; Behavioral: Nutrition-related text messaging</div></div></div></div></div>
525	Completed	<div><div><div><div><div>Influence of a Lifestyle Intervention in Preschool Children on Physiological and Psychological Parameters</div><div>Condition: Obesity</div><div>Intervention: Behavioral: Lifestyle intervention</div></div></div></div></div>
526	Completed	<div><div><div><div><div>Study on Fermentable Carbohydrates in Healthy Infants</div><div>Conditions: Infant; Growth; Nutrition; Healthy</div><div>Interventions: Dietary Supplement: Fermentable carbohydrates.; Other: Standard infant formula.</div></div></div></div></div>
527	Active, not recruiting	<div><div><div><div><div>Effect of High Omega-3 Fish Intake on Lipid Peroxidation</div><div>Conditions: Omega-3 Fatty Acids; Lipid Peroxidation</div><div>Intervention: Dietary Supplement: Omega-3 fish oil provided by salmon</div></div></div></div></div>
528	Unknown †	<div><div><div><div><div>A Parent-Based Intervention to Reduce Sexual Risk Behavior in Adolescents</div><div>Condition: Behavior and Behavior Mechanisms</div><div>Interventions: Behavioral: Active control on hygiene and nutrition; Behavioral: Families Talking Together</div></div></div></div></div>

529	Completed	Media-Smart Youth Program Evaluation Study Condition: Adolescent Intervention:
530	Unknown †	Randomized Study of the Use of Intravenous Choline Supplementation in Long Term Total Parenteral Nutrition Condition: Fatty Liver Intervention: Drug: choline chloride
531	Completed	Dietary Modulation of Gene Expression and Metabolic Pathways in Glucose Metabolism Conditions: Metabolic Syndrome; Obesity; Impaired Glucose Tolerance; Impaired Fasting Glucose Interventions: Dietary Supplement: Diet with increased intake of rye bread, berries and fish; Dietary Supplement: Increased intake of whole grain and rye bread; Dietary Supplement: Control diet with decreased intake of rye bread, berries and fish
532	Recruiting	Indirect Assessment and Intervention for Perinatal Drug Use Condition: Drug Abuse Interventions: Behavioral: WIDUS computer-delivered, indirect brief intervention; Behavioral: Nutrition time control/placebo intervention
533	Recruiting	Computer-delivered Screening and Brief Intervention for Alcohol Use in Pregnancy Condition: Alcohol Abuse Interventions: Behavioral: Nutrition time control/placebo intervention; Behavioral: Computer-delivered, brief intervention on alcohol use
534	Completed	CHIZAP: Community- and Health Facility-Based Intervention With Zinc as Adjuvant Therapy for Childhood Pneumonia Condition: Pneumonia Intervention: Drug: Zinc
535	Completed	Pilot RCT of an Obesity Intervention for Primary Care Pediatrics: Helping HAND Condition: Childhood Obesity Intervention: Behavioral: Helping HAND (Healthy Nutrition and Activity Directions)
536	Completed	CVD Nutrition Education Conditions: Cardiovascular Diseases; Heart Diseases Intervention:
537	Recruiting	Validity and Reproducibility of OSND (Objective Score of Nutrition on Dialysis) as a Nutritional Marker in End-stage Renal Disease Conditions: Malnutrition-Inflammation Syndrome; Hemodialysis Nutrition Risk Stratification Intervention: Other: No intervention
538	Active, not recruiting	Statewide (Rhode Island and Neighboring States) Partnerships for Worksite Weight Management Conditions: Overweight; Obesity Intervention: Behavioral: WOW, Working On Wellness weight management
539	Completed	CVD Nutrition Modules Tailored to Low Literacy Skills Conditions: Cardiovascular Diseases; Heart Diseases Intervention:
540	Completed	Impact of a Nutritional Intervention Program for Weight Control During Pregnancy Conditions: Pregnancy Complications; Weight Gain Intervention: Behavioral: Dietary Advice

Rank	Status	Study
541	Completed	<div><div>Evaluation of Low Literacy CVD Nutrition Education</div><div>Conditions: Cardiovascular Diseases; Heart Diseases; Coronary Heart Disease Risk Reduction</div><div>Intervention:</div></div>
542	Completed	<div><div>Fish Oil to Prevent Asthma Exacerbations in Patients With ALOX5 Polymorphisms</div><div>Condition: Asthma</div><div>Intervention: Dietary Supplement: EPA enriched fish oils</div></div>
543	Completed	<div><div>Lifestyle Modification for Type 2 Diabetes Prevention in Overweight Youth</div><div>Conditions: Diabetes Mellitus, Type 2; Obesity</div><div>Interventions: Behavioral: Lifestyle Modification for Type 2 Diabetes Prevention; Other: Nutrition and Physical Activity</div></div>
544	Completed	<div><div>Veterans Walk for Health Study</div><div>Conditions: Cardiovascular Diseases; Diabetes Mellitus; Hyperlipidemia; Hypertension; Obesity</div><div>Interventions: Behavioral: Nutritional counseling; Behavioral: Walking program; Device: Simple pedometer; Device: Enhanced pedometer</div></div>
545	Unknown †	<div><div>Healthy Kids-Houston: A Community Childhood Obesity Intervention Program</div><div>Condition: Obesity</div><div>Interventions: Behavioral: Healthy Kids-Houston program; Behavioral: Control</div></div>
546	Active, not recruiting	<div><div>Neighborhood Alcohol & HIV Prevention in South African Townships (Philani)</div><div>Conditions: Fetal Alcohol Syndrome; HIV; Nutrition Disorders</div><div>Intervention: Behavioral: Philani Intervention Program</div></div>
547	Completed	<div><div>Effect of Glargine Insulin on Glucose Control in Hospitalized Patients Who Receive Tube Feedings</div><div>Conditions: Type 2 Diabetes; Hyperglycemia</div><div>Intervention: Drug: Glargine insulin vs regular insulin</div></div>
548	Active, not recruiting	<div><div>Effect of the Level of Dietary Protein on Infant Growth</div><div>Condition: Infant Nutrition</div><div>Interventions: Other: Standard infant formula; Other: Infant formula with different level of proteins</div></div>

549	Recruiting	Energy Expenditure, Sleep and Macronutrients Conditions: Obesity; Overweight; Overnutrition; Nutrition Disorders; Body Weight; Signs and Symptoms Intervention: Dietary Supplement: Differences in protein content of meals
550	Completed	Lifestyle Intervention for Toddlers Pilot Study Condition: Obesity Intervention: Behavioral: Intensified dietary counseling at child welfare clinics.
551	Recruiting	Prevention Trial to Achieve Cardiovascular Targets Conditions: Coronary Artery Disease; Peripheral Arterial Disease; Hyperlipidemia; Hypertension; Diabetes Mellitus/Prediabetes; Obesity Interventions: Other: Usual Care; Behavioral: Prevention Consult; Behavioral: Prevention Consults and Behavioral Intervention
552	Recruiting	Can Mass Media Campaigns Reduce Child Mortality Conditions: Diarrhoea; Malaria; Pneumonia; Breastfeeding; Under-nutrition Intervention: Behavioral: Local radio campaign to reduce under-five child mortality
553	Completed	National Health and Nutrition Examination Survey IV (NHANES (IV)) Conditions: Cardiovascular Diseases; Coronary Disease; Heart Diseases; Hypertension; Blood Disease; Lung Diseases Intervention:
554	Completed	Postoperative Oral Intake Trial Condition: Postoperative Care Interventions: Procedure: Normal diet; Procedure: Nutrition via jejunal needle-catheter
555	Recruiting	High-protein High-fiber Diet in Patients With Primary Biliary Cirrhosis Condition: Primary Biliary Cirrhosis Intervention: Dietary Supplement: High protein high fiber diet
556	Completed	Improving The Nutritional Status Of The Malnourished Chronic Hemodialysis Patients In The State Of Tennessee Condition: End Stage Renal Disease Intervention: Dietary Supplement: Nepro nutritional supplement
557	Completed	Effect of Gutamine Administration in the Innate Immune System Response in ICU Patients. Conditions: Moderate to Severe Trauma, as Defined by an; Injury Severity Score (ISS) > 12 Points Were Included in the Study. Interventions: Dietary Supplement: Total Parenteral Nutrition with Glutamine; Other: Total Parenteral Nutrition without glutamine
558	Recruiting	Prospective Randomized Clinical Trial of Intravenous Lipids and Cholestasis Condition: Parenteral Nutrition Associated Cholestasis Intervention: Drug: intravenous lipid
559	Completed	The Impact of an Intervention Taught by Trained Teachers on Childhood BMI z Score Condition: Evidence of an Intervention on Childhood BMI z Score Intervention: Other: Training teachers on healthier lifestyles
560	Unknown [†]	The Influence of Dietary Phosphorus Education Program on Nutritional Status and Serum Phosphate Level Among Hemodialysis Patient Conditions: Hyperphosphatemia; Malnutrition Intervention: Other: Education

† Indicates status has not been verified in more than two years

Rank	Status	Study
561	Completed	<div><div><div><div><div>A Research Study to Test (2) Two Different Types of Feeding Tubes Used in the Intensive Care Unit</div><div>Condition: no Primary Disease; ICU Patient Who Require Enteral Nutrition</div><div>Intervention: Device: Tiger Tube</div></div></div></div></div>
562	Completed	<div><div><div><div><div>Treatment of Early Childhood Overweight in Primary Care: Pilot Study</div><div>Condition: Obesity</div><div>Interventions: Behavioral: Family Behavior Modification; Other: Minimal Nutrition Information</div></div></div></div></div>
563	Completed	<div><div><div><div><div>Study of Long-Term Use of Forlax® in Elderly Patients With Chronic Constipation</div><div>Condition: Constipation</div><div>Intervention: Drug: PEG 4000 (Forlax ®)</div></div></div></div></div>
564	Recruiting	<div><div><div><div><div>Diet and Its Relationship With Couple Infertility</div><div>Condition: Infertility</div><div>Intervention:</div></div></div></div></div>
565	Withdrawn	<div><div><div><div><div>Early Enteral Tube Feedings in Children Receiving Chemo for AML/MDS & High Risk Solid Tumors</div><div>Conditions: Brain and Central Nervous System Tumors; Kidney Cancer; Leukemia; Liver Cancer; Neuroblastoma; Sarcoma; Solid Tumor</div><div>Interventions: Dietary Supplement: nutritional intervention; Dietary Supplement: therapeutic nutritional supplementation</div></div></div></div></div>
566	Active, not recruiting	<div><div><div><div><div>Meta-analyses of the Effect of Dietary Pulses on Acute Postprandial Metabolic Control</div><div>Conditions: Diabetes; Prediabetes; Dysglycemia; Overweight; Obesity; Metabolic Syndrome; Cardiovascular Disease</div><div>Intervention: Other: Dietary pulses</div></div></div></div></div>
567	Recruiting	<div><div><div><div><div>Special Investigation (All Cases) of LipaCreon in Patients With Pancreatic Exocrine Insufficiency Due to Cystic Fibrosis</div><div>Conditions: Cystic Fibrosis; Exocrine Pancreatic Insufficiency; Pancreatic Diseases; Digestive System Diseases</div><div>Intervention:</div></div></div></div></div>

568	Completed	Increase Infusion Rates of Intravenous Fat Emulsions Conditions: Hypertriglyceridemia; Hyperglycemia Intervention: Other: fat emulsions
569	Recruiting	Special Investigation of LipaCreon on Long-term Use in Patients With Pancreatic Exocrine Insufficiency Conditions: Exocrine Pancreatic Insufficiency; Pancreatic Diseases; Digestive System Diseases Intervention:
570	Completed	Maternal Education on Complementary Feeding and Infant Outcome Condition: Growth Interventions: Behavioral: Maternal education on complementary feeding; Behavioral: Education
571	Completed	Study of Children's Activity and Nutrition (SCAN)--Extended Analyses Conditions: Cardiovascular Diseases; Heart Diseases; Coronary Heart Disease Risk Reduction Intervention:
572	Completed	Safety, Tolerance and Efficacy of an Oral Nutritional Supplement in Chronic Heart Failure and Chronic Obstructive Pulmonary Disease Patients Conditions: Cachexia; Chronic Obstructive Pulmonary Disease; Chronic Heart Failure Intervention: Dietary Supplement: oral nutrition supplement, food for special medical purposes
573	Completed	Milk Types and Fish Oil in 9- to 12-Month-Old Infants Conditions: Obesity; Metabolic Syndrome; Growth; Blood Pressure; Cardiovascular Disease Interventions: Behavioral: Cow's milk with fish oil; Behavioral: Cow's milk without fish oil; Behavioral: Formula with fish oil; Behavioral: Formula without fish oil
574	Recruiting	Project N-Liten- HIV Prevention for African American Women Condition: Sexually Transmitted Diseases Interventions: Behavioral: Horizons+General Health Promotion (GHP); Behavioral: Horizons+Motivational Enhancement Therapy (GMET)
575	Active, not recruiting	Open-Label Study of Teduglutide for Subjects With PN-Dependent Short Bowel Syndrome (SBS) Condition: Short Bowel Syndrome Intervention: Biological: teduglutide
576	Completed	Safety and Efficacy Study of Teduglutide in Subjects With Short Bowel Syndrome Who Completed Protocol CL0600-004 Condition: Short Bowel Syndrome Intervention: Drug: Teduglutide
577	Completed	Obesity Prevention in African American School Children Condition: Obesity Intervention: Behavioral: School + family changes promoting healthy eating + activity
578	Enrolling by invitation	A One-Year, Open-Label Study With Teduglutide for Subjects Who Completed Study CL0600-021 Condition: Short Bowel Syndrome Intervention: Drug: Teduglutide
579	Completed	Effectiveness of Targeting Food Aid to Malnourished Children Compared to Targeting All Children Under Two Years Condition: Malnutrition Interventions: Dietary Supplement: Fortified food rations; Behavioral: Education and communication to improve feeding practices
580	Completed	West Virginia WISEWOMAN Project

Condition: Risk Reduction Behavior
Intervention: Behavioral: West Virginia WISEWOMAN

Rank	Status	Study
581	Completed	<div><div><div><div>A Randomized Clinical Trial of Megestrol Acetate as an Appetite Stimulant in Malnourished Children With Cancer</div><div>Condition: Malnourished Children With Cancer</div><div>Interventions: Drug: Megstrol Acetate; Other: Placebo</div></div></div></div>
582	Completed	<div><div><div><div>Sincalide (Cholecystokinin Octapeptide) Versus Placebo in Neonates at High Risk for Developing Parenteral Nutrition Associated Cholestasis</div><div>Condition: Cholestasis</div><div>Intervention: Drug: sincalide</div></div></div></div>
583	Unknown †	<div><div><div><div>High Flux Hemodialysis Thrice Versus Once</div><div>Condition: End-Stage Renal Disease</div><div>Intervention: Device: high flux hemodialyzer (FX-60, FX-80 or FX-100)</div></div></div></div>
584	Recruiting	<div><div><div><div>Post-exercise Protein Intake for Active Children</div><div>Condition: Child</div><div>Intervention: Other: nutrition</div></div></div></div>
585	Completed	<div><div><div><div>OPUS School Meal Study - Cross Sectional Analyses From Baseline Investigations</div><div>Condition: Metabolic Syndrome X</div><div>Intervention:</div></div></div></div>
586	Unknown †	<div><div><div><div>Randomized Study of Tauroursodeoxycholic Acid in Prophylactic Therapy of Total Parenteral Nutrition Associated Cholestasis in Infants</div><div>Condition: Cholestasis</div><div>Intervention: Drug: tauroursodeoxycholic acid</div></div></div></div>
587	Completed	<div><div><div><div>Effect of Self Regulation With Mindfulness Training on Body Mass Index and Cardiovascular Risk Markers in Obese Adults</div><div>Condition: Obesity</div><div>Interventions: Behavioral: Dietary Counseling; Behavioral: Mindfulness Training Program</div></div></div></div>
588	Completed	<div><div><div><div>Vitamin B6 Dependence of One-Carbon Metabolism</div><div>Condition: Vitamin B6 Deficiency</div><div>Interventions: Dietary Supplement: Arm 1 glycine and leucine; Dietary Supplement: Arm 2 Intervention of</div></div></div></div>

Serine and methionine infusion

589	Unknown †	Observational Study at the Influence of Malnutrition on Infections Conditions: Malnutrition After Neurological Disease; Nosocomial Infection Intervention: Other: Laboratory values
590	Completed	Traditional Tibetan Medicine for Patients With Coronary Artery Disease Condition: Coronary Artery Disease Interventions: Behavioral: Nutritional and behavioral program A; Behavioral: Nutritional and behavioral program B
591	Completed	Diet, Exercise and Body Fat in 3-5 Year Olds Condition: Healthy Intervention:
592	Not yet recruiting	Carbohydrate Use During and Following Exercise Condition: Carbohydrate Oxidation and Glycogen Utilization During and Following Exercise Intervention: Dietary Supplement: Carbohydrate ingestion
593	Completed	Parent Supported Weight Reduction in Down Syndrome Condition: Down Syndrome Intervention: Behavioral: Parent Supported Behavioral Intervention
594	Completed	Emphysema: Physiologic Effects of Nutritional Support Conditions: Emphysema; Lung Diseases; Lung Diseases, Obstructive; Chronic Obstructive Pulmonary Disease Intervention: Procedure: enteral nutrition
595	Completed	ST of TN-Salud Con La Familia: Prevent Onset of Ped Obesity Conditions: Diabetes; Obesity Intervention: Behavioral: Lifestyle counseling
596	Active, not recruiting	Effect of Healthy Lunch and Snack Meal on Reaction Time and Well-being of Physicians and Nursing Staff (Go-No-Go) Condition: Nutrition Intervention Intervention: Other: Dietary treatment
597	Recruiting	Effect of Oral Supplementation With a Fibre Enriched Paediatric Sip Feed For Children With Acute Lymphocytic Leukemia Condition: Acute Lymphocytic Leukemia Intervention: Dietary Supplement: NutriniDrink/Fortini MF unflavoured (1.5kcal/ml)
598	Completed	Protein Nutrition During Weight Loss Condition: Obesity Interventions: Dietary Supplement: Pulse casein feeding during energy restriction; Dietary Supplement: Spread casein feeding during energy restriction; Dietary Supplement: Pulse milk soluble protein feeding during energy restriction; Dietary Supplement: Spread milk soluble protein feeding during energy restriction
599	Unknown †	Simplified Nutritional Screening for Patient Use Condition: Malnutrition Intervention:
600	Unknown †	Population Based Intervention to Prevent Obesity in Kindergartens (TigerKids) Condition: Obesity Interventions: Behavioral: attitude change; Behavioral: adiposity prevention program

Include only [open studies](#) Exclude studies with [unknown status](#)

Rank	Status	Study
601	Enrolling by invitation	Pilot Study of Intensive Care Unit Continuous Glucose Monitoring Conditions: Hyperglycemia; Hypoglycemia Interventions: Other: SPRINT Protocol; Other: SPRINT Protocol with "brakes"
602	Completed	Oral Nutritional Supplementation in Hospital Patients Condition: Malnutrition Interventions: Other: Nutritional beverage 10003RF; Other: Dietary Counseling
603	Recruiting	mDiet: A Text Message Intervention for Weight Loss Conditions: Overweight; Weight Loss; Weight Maintenance Intervention: Behavioral: mDiet
604	Completed	Lactulose Supplementation in Premature Infants Conditions: Necrotizing Enterocolitis; Sepsis Interventions: Drug: Lactulose; Dietary Supplement: Dextrose
605	Active, not recruiting	NAPLS Omega-3 Fatty Acid Versus Placebo Study Condition: Psychosis Interventions: Dietary Supplement: Omega-3 Long Chain Fatty Acid; Dietary Supplement: Placebo
606	Completed	PROMISE EBF: Safety and Efficacy of Exclusive Breastfeeding Promotion in the Era of HIV in Sub-Saharan Africa Condition: Diarrhea Intervention: Behavioral: Peer-support for exclusive breastfeeding
607	Enrolling by invitation	Cardiovascular Risk in Spain. Condition: Cardiovascular Disease Intervention:
608	Recruiting	Project Grow Smart: Intervention Trial of Multiple Micronutrients and Early Learning Among Infants in India Conditions: Nutritional Deficiencies ; Developmental Delay Interventions: Dietary Supplement: Micronutrient Intervention; Behavioral: Early Learning
609	Unknown †	Effect of Protein Composition on Gastric Emptying

Conditions: Cerebral Palsy; Gastric Dysmotility; Enteral Feeding
Intervention: Procedure: Nutrition composition

610	Completed	Behavioral Treatment of Weight Gain in CF Condition: Cystic Fibrosis Intervention: Behavioral: Behavioral Treatment
611	Completed	Evaluation of an Infant Feeding Intervention for HIV-exposed Haitian Infants Condition: Lack of; Care, Infant (Child), Malnutrition Intervention: Other: Counseling and nutrition supplement
612	Unknown †	Etiology, Epidemiology and Prognostics of Acute Kidney Injury (AKI) Conditions: Renal Failure; Nutrition Intervention:
613	Completed	Community Trial of Zinc Supplementation on Preschool Child Mortality and Morbidity in Southern Nepal Condition: Nutrition Interventions: Drug: zinc sulphate dietary supplement; Drug: iron sulphate-folic acid dietary supplement
614	Completed	Community-based Follow-up of Severely Malnourished Children Condition: Malnourished Children Interventions: Behavioral: C-C; Other: C-SF; Other: As C-C with additional psychosocial stimulation (PS) (C-PS); Other: As C-C but with both SF & PS (C-SF+PS); Other: H-C
615	Recruiting	Web Based Follow up Intervention in Obesity Treatment for Women Condition: Obesity Intervention: Behavioral: Follow Up Support
616	Completed	The Healthy Weight for Life Program Conditions: Overweight; Obesity; Compliance Behavior Intervention: Other: Weight loss intervention
617	Recruiting	Multimodal Prehabilitation for Colorectal Surgery Conditions: Colorectal Cancer; Colorectal Cancer Stage III Intervention: Behavioral: multimodal prehabilitation
618	Recruiting	Longitudinal Pediatric Palliative Care: Quality of Life & Spiritual Struggle Condition: HIV Interventions: Behavioral: Family CEntered (FACE) ACP; Behavioral: Healthy Living Control
619	Completed	Efficacy and Safety of a PN Regimen Containing n-3 Fatty Acid in Patients Considered After GI Surgery Condition: GI Cancer Interventions: Drug: MLF 541; Drug: Lipofundin MCT
620	Completed	A Study to Evaluate Whether Correction of Anemia Using Recombinant Human Erythropoietin Reduces the Progression of Atherosclerosis and Cardiac Hypertrophy in Pre-dialysis Chronic Kidney Disease Patients Conditions: Chronic Disease; Kidney Diseases; Cardiovascular Diseases Intervention: Drug: erythropoietin

Rank	Status	Study
621	Terminated	<div><div><div><div>Dilantin Levels With Continuous Delivery of Enteral Feedings - A Pilot Study</div><div>Condition: Seizures</div><div>Intervention: Drug: Phenytoin (Dilantin) levels during change in enteral feeding</div></div></div></div>
622	Withdrawn	<div><div><div><div>Effect of an Oral Supplement on the Total Energy and Protein Intake of Head and Neck Cancer Patients in the Last 2 Weeks of Radiation Therapy</div><div>Condition: Head and Neck Cancer</div><div>Intervention: Dietary Supplement: Nutritional Supplement</div></div></div></div>
623	Unknown †	<div><div><div><div>Building Better Bones in Children</div><div>Condition: Osteoporosis</div><div>Intervention: Behavioral: Behavioral modification - nutrition education</div></div></div></div>
624	Completed	<div><div><div><div>Nutritional Study in Preterm Infants</div><div>Condition: Preterm Infants</div><div>Interventions: Other: Preterm infant formulas and discharge formulas; Other: Preterm infant formula with added soluble lipids</div></div></div></div>
625	Active, not recruiting	<div><div><div><div>Effectiveness of Nutritional Supplementation in Preventing Malnutrition in Children With Infection</div><div>Conditions: Malnutrition; Malaria; Lower Respiratory Tract Infection; Diarrhoea</div><div>Intervention: Dietary Supplement: Nutrition supplement with RUTF or MNP</div></div></div></div>
626	Enrolling by invitation	<div><div><div><div>Eating Habits and Obesity in First and Second Grade School Children</div><div>Condition: Childhood Obesity</div><div>Intervention: Behavioral: parent-child interaction/activities based on Adler's methods</div></div></div></div>
627	Active, not recruiting	<div><div><div><div>TRIGR - Primary Prevention Study for Type 1 Diabetes in Children at Risk</div><div>Condition: Diabetes Mellitus, Type 1</div><div>Intervention: Dietary Supplement: hydrolysed vs nonhydrolysed infant formula vs breast feeding</div></div></div></div>
628	Active, not recruiting	<div><div><div><div>A Maintenance Program for the Be Fit Employee Wellness Program</div><div>Conditions: Obesity; Overweight</div><div>Intervention: Behavioral: Internet-based maintenance program</div></div></div></div>
629	Completed	<div><div><div><div>Creatine Metabolism in Rett Syndrome</div></div></div></div>

Condition: Rett Syndrome
Intervention:

630	Unknown †	Randomized Controlled Field Trial of a Probiotics to Assess Its Role in Preventig Diarrhoea	Condition: Diarrhea Intervention: Dietary Supplement: Probiotic (Yakult)
631	Active, not recruiting	Health Promotion in Adolescents in Ecuador	Condition: Overweight Interventions: Other: Experimental; Other: No intervention
632	Completed	Nutritional Education and the Prevention of Iron Depletion in Children 9 Months to 2 Years	Condition: Iron Deficiency Interventions: Other: Healthy milk intake; Other: Standard nutrition counselling
633	Completed	Energy Expenditure and Substrate Utilization During Acute Under- and Over-feeding	Condition: Obesity Intervention: Other: 24-hour energy expenditure
634	Active, not recruiting	rHGH and Intestinal Permeability in Intestinal Failure	Condition: Short Bowel Syndrome Interventions: Drug: Somatropin; Procedure: Seven Day Food Diary; Procedure: Blood Tests (standard of care); Other: Fasting; Other: Sugar Permeability Test; Other: Urine Collection
635	Completed	PRelationship Between Physical Activity and Cancer Ris	Condition: Cancer Intervention:
636	Completed	The Effect of Nordic Recommended Diet on the Features of Metabolic Syndrome - Multicentre Study	Conditions: Abdominal Obesity; Insulin Resistance; Impaired Glucose Tolerance; Type 2 Diabetes; Cardiovascular Diseases Interventions: Other: Experimental diet; Other: Control diet
637	Completed	The Influence of Different Food Componente on Zinc Absorption in Young Adults Consuming Zinc Fortified Porridges Prepared From Maize, Beans and Sorghum: a Series of Six Similar Randomized, Single-blind Studies	Condition: Study Not Related to a Disease. Nutrition Study Without Drug Administration. Intervention:
638	Completed	Parents As The Agent Of Change For Childhood Obesity (PAAC)	Condition: Obesity Intervention: Behavioral: Behavioral treatment for childhood obesity
639	Completed	Increasing Vitamin Intake and Physical Activity	Conditions: Heart Diseases; Diabetes Mellitus, Type 2; Behavior; Motivation Intervention: Behavioral: Intervention Group (IG)
640	Not yet recruiting	Multidisciplinary Team IntervenTion in CARDio-ONcology (TITAN Study)	Conditions: Breast Cancer; Lymphoma Intervention: Behavioral: Multidisciplinary team intervention

Rank	Status	Study
641	Recruiting	<div>Animal Source Food Supplement and Pregnancy in Vietnam</div> <div>Conditions: Low Birth Weight; Preterm Birth</div> <div>Intervention: Other: Food</div>
642	Active, not recruiting	<div>Study of Impact of Not Measuring Residual Gastric Volume on Nosocomial Pneumonia Rates</div> <div>Condition: Ventilation-Associated Pneumonia</div> <div>Interventions: Procedure: monitoring of residual gastric volume; Procedure: not monitoring of residual gastric volume</div>
643	Completed	<div>Appetite Hormones in Binge Eating Disorder</div> <div>Condition: Binge Eating Disorder</div> <div>Intervention: Procedure: Liquid meal, cold pressor test, and ad libitum meal</div>
644	Unknown †	<div>Proline Metabolism in Severely Burned Patients: Effect of Modulated Parenteral Feeding</div> <div>Condition: Burns</div> <div>Intervention:</div>
645	Completed	<div>Impact of Exclusive Breast-Feeding in Guinea Bissau</div> <div>Condition: Nutritional Status</div> <div>Intervention: Behavioral: Health education according to WHO recommendations</div>
646	Completed	<div>Benefits and Risks of Newborn Screening for Cystic Fibrosis</div> <div>Conditions: Cystic Fibrosis; Lung Disease; Pseudomonas Infections</div> <div>Intervention: Procedure: CF newborn screening</div>
647	Recruiting	<div>HIV Prevention Intervention for Young Transgender Women</div> <div>Condition: Sexual Transmission of Infection</div> <div>Interventions: Behavioral: HIV prevention intervention; Behavioral: Diet and Nutrition; Other: Standard of care</div>
648	Completed	<div>Impacts of Metabolic Variation on Neuroendocrine Control of Reproduction</div> <div>Condition: Neuroendocrine Reproductive Status</div> <div>Intervention: Dietary Supplement: effect of metabolic variations on LH pulsatility</div>
649	Recruiting	<div>Effects of Recto-colic Enemas of Butyrate on the Digestive Disorders of Very Low Birth Weight</div>

		Preterms <1000 Grams Condition: Very Low Birth Weight Preterms Interventions: Drug: Butyrate enemas; Other: Therapeutic abstention
650	Not yet recruiting	Effect of Vitamin D in Diets of Preterm Infants Condition: Premature Infants Intervention: Dietary Supplement: Vitamin D
651	Recruiting	Effectiveness of Nutritional Supplementation in Preventing Malnutrition in Children 6-59 Months With Infection in Karamoja, Uganda Conditions: Acute Malnutrition; Morbidity Intervention: Dietary Supplement: Dietary Supplement: Nutrition supplement with RUTF or MNP
652	Not yet recruiting	Prehabilitation for Esophageal Resection Surgery Conditions: Esophageal Cancer; Surgery Intervention: Behavioral: Exercise
653	Not yet recruiting	Optimizing Vitamin D Status During Initial Military Training Conditions: Bone Health; Nutrition Status Interventions: Dietary Supplement: Ca/Vit D; Other: Placebo
654	Completed	Effects of Omega 3 in Hemodialysis Patients Conditions: Hemodialysis; End Stage Renal Disease Intervention: Behavioral: fish oil supplementation
655	Completed	USDA Healthy Caregivers/Healthy Children: A Childhood Obesity Prevention Program Condition: Childhood Obesity Intervention: Other: Childhood Obesity
656	Recruiting	Rehabilitation of Malnourished Infants With F-100 or Diluted F-100 Condition: Severely Malnourished Infants Who Are Less Than 6 Months Old Interventions: Dietary Supplement: Infant Formula; Dietary Supplement: F-100; Dietary Supplement: Diluted F-100
657	Active, not recruiting	Development and Health of Rural Chinese Children Fed Meat as a Daily Complementary Food From 6-18 Mos of Age Condition: Nutritional Deficiencies Interventions: Other: Meat; Other: Cereal; Other: fortified rice cereal
658	Completed	Obesity Childhood in Cuenca-Ecuador: Prevalence and Risk Factors Condition: Obesity Intervention:
659	Unknown †	Endocrine and Nutritional Assessment in B Thalassemia Major Condition: Thalassemia Intervention: Other: Nutritional recommendations
660	Completed	Vitamin A Equivalence of Plant Carotenoids in Children Condition: Vitamin A Deficiency Interventions: Dietary Supplement: dietary carotenoids; Dietary Supplement: spinach, rice, and synthetic beta-carotene

Rank	Status	Study
661	Recruiting	<div><div>Study of Technology to Accelerate Research</div><div>Condition: Obesity</div><div>Intervention: Behavioral: STAR - Study of Technology to Accelerate Research</div></div>
662	Recruiting	<div><div>Predictors of Success in an Intervention Program for the Treatment of Childhood Obesity</div><div>Condition: Childhood Obesity</div><div>Intervention: Other: Intervention program for obese children</div></div>
663	Active, not recruiting	<div><div>Effectiveness of LNS and MNP Supplements to Prevent Malnutrition in Women and Their Children in Bangladesh</div><div>Condition: Malnutrition</div><div>Interventions: Dietary Supplement: LNS-PLW; Dietary Supplement: LNS-Child; Dietary Supplement: MNP; Dietary Supplement: IFA</div></div>
664	Unknown †	<div><div>The Meal Tray as a Tool and Platform to Change Eating Habits Among Hospitalized Diabetic Patients - An Intervention Study</div><div>Condition: Type 2 Diabetes</div><div>Intervention: Behavioral: Nutritional guidance</div></div>
665	Completed	<div><div>Type 2 Diabetes Controlled Eating Experiment</div><div>Condition: Type 2 Diabetes Mellitus</div><div>Interventions: Behavioral: covert v overt nutrition labeling; Behavioral: varying meal nutrition manipulation</div></div>
666	Recruiting	<div><div>Bowel Preparation Before Rectal Cancer Surgery</div><div>Condition: Rectal Cancer</div><div>Interventions: Dietary Supplement: Fresubin Energy Drink; Drug: Laxabon®</div></div>
667	Recruiting	<div><div>Choline Nutritional Status Of Children With Cystic Fibrosis X-Sectional Study</div><div>Condition: Cystic Fibrosis</div><div>Intervention:</div></div>
668	Recruiting	<div><div>REACH-OUT: Chicago Children's Diabetes Prevention Program</div><div>Conditions: Obesity; Type 2 Diabetes</div><div>Interventions: Behavioral: Reach-Out Program, nutritional and exercise program; Behavioral: Reach-</div></div>

In Program, standard of care

669	Completed	End Stage Liver Disease and Body Composition Assessment: Utilizing Bioelectric Impedance Analysis (BIA)	Condition: End Stage Liver Disease Interventions: Device: Bodystat Quadscan 4000; Device: bodystat quadscan 400
670	Completed	Effects of Immunonutrition in Patients Undergoing Pancreaticoduodenectomy	Condition: Pancreaticoduodenectomy Interventions: Dietary Supplement: Oral IMPACT; Dietary Supplement: Parenteral nutrition
671	Recruiting	Evaluation of Diagnostic Methods and Dietary Treatment of Diabetic Gastroparesis	Condition: Diabetic Gastroparesis Interventions: Dietary Supplement: dietary treatment: food of small particle size; Radiation: Validate X-ray diagnostic method.; Other: Can the motility be improved; Biological: postprandial plasma glucose
672	Completed	Improving Functioning in Peripheral Arterial Disease	Conditions: Cardiovascular Diseases; Peripheral Vascular Diseases Interventions: Behavioral: Exercise; Behavioral: Diet
673	Recruiting	Causal Relationships Between LC-omega-3-enriched Diet and Cognition	Condition: Healthy Interventions: Dietary Supplement: omega-3 fatty acid supplementation; Dietary Supplement: corn/soybean oil placebo
674	Completed	Study of the Environmental Factors Modulating Children Immune Response in Northern Senegal	Conditions: Whooping Cough; Malaria; Malnutrition Intervention:
675	Unknown †	Early Enteral Feeding After Pylorus Preserving Pancreatoduodenectomy	Conditions: Pancreas Cancer; Bile Duct Cancer; Ampulla of Vater Cancer Intervention: Procedure: Enteral Feeding and Total Parental Support
676	Active, not recruiting	Low Protein Diet Supplemented With Ketoanalogues on Reducing Proteinuria and Maintaining Nutritional Status in Type 2 Diabetic Nephropathy	Condition: Type 2 Diabetic Nephropathy Intervention: Dietary Supplement: Compound α -Ketoacid Tablet
677	Unknown †	Evaluating the Relative Effectiveness of Two Feeding Interventions for the Treatment of Moderate Acute Malnutrition	Condition: Child Nutrition Disorders Interventions: Dietary Supplement: Fortified blended foods, Corn Soya Bean Flour (CSB) with oil.; Dietary Supplement: RUSF (ready-to-use supplementary foods) Supplementary Plumpy®
678	Completed	Nutrition Study for School Age Children	Condition: Obesity Interventions: Behavioral: 1; Behavioral: 2
679	Recruiting	Bioavailability of Vitamin D in Children and Adolescents With Crohn's Disease	Condition: Crohn's Disease Interventions: Drug: Vitamin D3 3000 UI daily; Drug: Vitamin D3 4000 UI daily
680	Completed	Ghrelin - A Possible Opportunity to Improve Appetite	Condition: Cancer Intervention: Drug: Ghrelin

Rank	Status	Study
681	Completed	<div><div>Nutrition and Soccer for Pediatric Overweight and Obesity</div><div>Conditions: Obesity; Overweight</div><div>Intervention: Procedure: Youth Soccer</div></div>
682	Recruiting	<div><div>Study of Postoperative Nutritional Support in Cardiac Surgery</div><div>Condition: Heart Diseases</div><div>Interventions: Dietary Supplement: Ensure, Abbott Nutrition; Other: standard hospital diet</div></div>
683	Recruiting	<div><div>Glue Sealing for Patients With Low-Output ECFs</div><div>Condition: Low-output External Gastrointestinal Fistula</div><div>Interventions: Procedure: Endoscopy exploration and glue application; Drug: Anti-Bacterial Agents; Dietary Supplement: Nutrition support; Procedure: PRFG preparation</div></div>
684	Active, not recruiting	<div><div>Early Provision of Enteral Microlipid and Fish Oil to Infants With Enterostomy</div><div>Conditions: Short Bowel Syndrome; Necrotizing Enterocolitis; Small Intestine Perforation</div><div>Intervention: Dietary Supplement: MicroLipid and fish oil</div></div>
685	Active, not recruiting	<div><div>Effect of 6-week Strawberry Supplementation on Insulin Action (STR2)</div><div>Conditions: Insulin Resistance; Nutritional Disease; Metabolic Disease</div><div>Interventions: Dietary Supplement: Strawberry; Dietary Supplement: Placebo1; Dietary Supplement: Placebo2</div></div>
686	Completed	<div><div>The Effect of a Low Glycemic Index Diet on Blood Sugar Control in Pregnant Women at Risk for Gestational Diabetes</div><div>Condition: Diabetes, Gestational</div><div>Intervention: Other: Nutrition education</div></div>
687	Active, not recruiting	<div><div>Prevalence of Malnutrition at a Swedish Hospital</div><div>Condition: Malnutrition</div><div>Intervention:</div></div>
688	Completed	<div><div>Multi-media Obesity Prevention Program for Adolescents</div><div>Conditions: Physical Activity; Nutrition; Obesity Prevention</div><div>Intervention: Behavioral: Health in Motion</div></div>

689	Recruiting	Teen CHAT: Improving Physician Communication With Adolescents About Healthy Weight	Conditions: Communication; Obesity; Nutrition ; Physical Activity; Sleep Intervention: Behavioral: Web-based intervention targeting MD communication
690	Suspended	Thalidomide for the Treatment of Malnutrition Inflammation Syndrome in Peritoneal Dialysis Patients	Conditions: Peritoneal Dialysis; Malnutrition Intervention: Drug: thalidomide
691	Completed Has Results	Monitoring and Evaluation of Micronutrients (Sprinkles) Project	Condition: Anemia Interventions: Dietary Supplement: SPRINKLES; Behavioral: Advice only
692	Completed	Effect of Nutritional Supplementation on Pediatric Burn Patients	Condition: Burns Interventions: Other: Nutritional Supplement; Other: Hospital food
693	Recruiting	Community-Integrated Management of Childhood Illness (IMCI) Programme Evaluation	Condition: Childhood Illness Intervention: Other: Community-based interventions to promote maternal and child health
694	Enrolling by invitation	Social Network Interventions in Rural Honduras	Conditions: Malnutrition ; Dysentery; Social Transmission of Health Behaviors Interventions: Behavioral: exposure to vitamin use; Behavioral: exposure to water chlorination; Behavioral: high in-degree; Behavioral: nominated by random
695	Completed	Prenatal Nutrition and Adult Disease	Conditions: Cardiovascular Diseases; Heart Diseases; Diabetes Mellitus; Diabetes Mellitus, Non-Insulin Dependent; Insulin Resistance; Obesity; Hypertension Intervention:
696	Recruiting	Intervention Study With Omega-3 Fatty Acids for Weight Loss and Insulin Resistance in Adolescents	Conditions: Obesity; Insulin Resistance Interventions: Dietary Supplement: A dietary supplement together with a hypocaloric diet; Dietary Supplement: A placebo together with a hypocaloric diet
697	Active, not recruiting	Medifast 5 & 1 Plan	Conditions: Obesity; Body Weight; Weight Loss; Overweight; Nutrition Disorders Interventions: Behavioral: Food-based, Reduced Energy Diet Plan; Other: Medifast 5 & 1 Plan
698	Enrolling by invitation	Intervening in Diabetes With Healthy Eating, Activity, and Linkages To Healthcare - The I-D-HEALTH Study	Conditions: Diabetes Mellitus; Hyperglycemia; Obesity; Glucose Metabolism Disorders; Metabolic Diseases; Endocrine System Diseases; Overnutrition ; Nutrition Disorders ; Overweight; Body Weight; Signs and Symptoms Interventions: Behavioral: Standard Lifestyle Advice; Behavioral: Advice PLUS Lifestyle Intervention
699	Unknown †	Observational Study of Fat Loss in HIV Infected Adults Taking Nucleoside Reverse Transcriptase Inhibitors (NRTIs)	Conditions: HIV Infections; Lipodystrophy; Metabolic Diseases; Nutrition Disorders Intervention:
700	Unknown †	Randomized Prospective Trial: Single Port Laparoscopic Vertical Sleeve Gastrectomy Versus Conventional Five Port Laparoscopic Vertical Sleeve Gastrectomy Surgery	Conditions: Obesity; Nutrition Disorders ; Body Weight Intervention: Procedure: Laparoscopic vertical sleeve gastrectomy

Rank	Status	Study
701	Recruiting	<div><div><div><div><div>Adaptation of Human Gut Microbiota to Energetic Restriction</div><div>Conditions: Obesity; Metabolic Diseases; Nutrition Disorders; Body Weight</div><div>Interventions: Other: stools sampling; Other: adipose tissue biopsy</div></div></div></div></div>
702	Unknown †	<div><div><div><div><div>Drug Concentration Analysis of Micafungin in Overweight, Obese, and Extremely Obese Volunteers</div><div>Conditions: Obesity; Nutrition Disorders; Overweight</div><div>Intervention: Drug: Micafungin</div></div></div></div></div>
703	Completed	<div><div><div><div><div>A Study of the Safety and Effectiveness of JNJ-16269110 (R256918) in Overweight and Obese Patients</div><div>Conditions: Obesity; Nutritional and Metabolic Diseases; Metabolic Diseases; Nutrition Disorders; Overweight</div><div>Interventions: Drug: placebo; Drug: R256918</div></div></div></div></div>
704	Completed	<div><div><div><div><div>A Study of the Safety of R256918 in Obese Patients</div><div>Conditions: Obesity; Nutritional and Metabolic Diseases; Metabolic Diseases; Nutrition Disorders; Overweight</div><div>Interventions: Drug: R256918; Drug: placebo</div></div></div></div></div>
705	Completed	<div><div><div><div><div>Effectiveness of Nucleoside Supplementation and Substituting Tenofovir Disoproxil Fumarate for Other Drugs in Anti-HIV Regimens in Reversing Fat Loss in HIV Infected Adults</div><div>Conditions: HIV Infections; Lipodystrophy; Metabolic Diseases; Nutrition Disorders</div><div>Interventions: Drug: NucleomaxX; Drug: Tenofovir disoproxil fumarate</div></div></div></div></div>
706	Recruiting	<div><div><div><div><div>Cotrimoxazole Prophylaxis in Severely Malnourished Children</div><div>Conditions: Nutrition Disorders; Life-threatening Infection</div><div>Interventions: Drug: Cotrimoxazole dispersible tablet; Drug: Placebo dispersible tablet</div></div></div></div></div>
707	Recruiting	<div><div><div><div><div>Tu Salud Si Cuenta Media Campaign</div><div>Conditions: Obesity; Diabetes</div><div>Interventions: Behavioral: TSSC; Behavioral: TSSC Randomized Behavioral Intervention for weight loss</div></div></div></div></div>
708	Completed	<div><div><div><div><div>Hemodynamics and Extravascular Lung Water in Acute Lung Injury</div><div>Condition: Acute Lung Injury</div><div>Interventions: Drug: Diuresis (furosemide) part I; Other: Fluid Bolus (crystalloid or albumin); Drug:</div></div></div></div></div>

Vasopressors (Norepinephrine, Vasopressin, Phenylephrine, Epinephrine);
Drug: Dobutamine; Other: Concentrate all drips and nutrition;
Drug: Diuresis (furosemide) part II; Procedure: Dialysis

709	Completed	Leisure Time Activity and Nutrition Program Conditions: Obesity; Physical Activity Interventions: Behavioral: Dietary; Behavioral: Physical Activity; Behavioral: TV Watching
710	Completed	The Effect of a Traditional Dietary Intervention on Diabetes Mellitus and Cardiovascular Disease Risk Factors in a First Nation Community: A Pilot Study Conditions: Type 2 Diabetes Mellitus; Cardiovascular Disease; Obesity Intervention: Behavioral: Dietary Intervention (Macronutrient composition)
711	Active, not recruiting	Impact of Vitamin D Supplementation on Host Immunity to Mycobacterium Tuberculosis and Response to Treatment Condition: Tuberculosis Interventions: Dietary Supplement: Vitamin D pill; Dietary Supplement: Placebo
712	Completed	A Trial of Perioperative Immune Enhancing Feed in Patients Undergoing Surgery for Head and Neck Cancer Conditions: Squamous Cell Carcinoma of Mouth; Squamous Cell Carcinoma of Oropharynx; Laryngeal Squamous Cell Carcinoma; Squamous Cell Carcinoma of the Hypopharynx Interventions: Dietary Supplement: IMPACT; Dietary Supplement: An iso-caloric, iso-nitrogenous control feed
713	Recruiting	Fit For Delivery: A Study of the Effect of Exercise Sessions and Nutritional Counselling on Pregnancy Outcome Conditions: Pregnancy; Obesity; Diabetes Intervention: Behavioral: Nutritional counseling and twice weekly exercise groups
714	Not yet recruiting	Comparative Efficacy Trial of PaT/StartSmart Condition: Obesity Interventions: Behavioral: Parents as Teachers/StartSmart; Behavioral: Parents as Teachers
715	Completed	The Leisure-time Activity and Nutrition Program Condition: Obesity Interventions: Behavioral: Dietary; Behavioral: Physical Activity; Behavioral: TV Watching + Physical Activity
716	Completed	The Healthy Families Project Condition: Childhood Obesity Interventions: Behavioral: Clinician enhanced screening and counseling prompts; Behavioral: Tailored education and motivational materials; Behavioral: basic educational brochure
717	Completed	OPUS School Meal Study Condition: Metabolic Syndrome X Intervention: Other: School meals based on the principles of the New Nordic Diet
718	Completed	The Effects of Fish Oils on Blood Pressure, Heart Rate Variability and Liver Fat in the Polycystic Ovary Syndrome Condition: Polycystic Ovary Syndrome Interventions: Dietary Supplement: Ocean Nutrition 2050; Dietary Supplement: Olive oil capsules
719	Completed	Study of Children's Activity and Nutrition (SCAN) Conditions: Cardiovascular Diseases; Heart Diseases; Coronary Disease; Hypertension; Obesity; Hypercholesterolemia; Coronary Heart Disease Risk Reduction Intervention:

720 **Completed** [Influence of Diet and Endurance Running on Intramuscular Lipids Measured at 4.1 TESLA](#)

Condition: Obesity

Interventions: Procedure: magnetic resonance spectroscopy; Drug: dietary fat

Rank	Status	Study
721	Recruiting	<div><div><div>Youth Lifestyle Intervention With Food and Exercise</div><div>Conditions: Healthy; Obesity</div><div>Interventions: Behavioral: 2 servings of dairy and exercise counselling; Behavioral: 4 servings of dairy and exercise counselling</div></div></div>
722	Recruiting	<div><div><div>The Effects of Preoperative and Postoperative Oral Nutritional Supplements in Malnourished Post-gastrectomy Patients</div><div>Conditions: Malnourished; Stomach Neoplasms; Gastrointestinal Stromal Tumors</div><div>Interventions: Dietary Supplement: Ensure powder; Other: Standard care</div></div></div>
723	Completed	<div><div><div>NEW DAY: Nutrition, Exercise, Weight Loss, Diabetes And You</div><div>Conditions: Diabetes Mellitus, Type 2; Obesity</div><div>Interventions: Behavioral: Behavioral Group Weight Loss Intervention; Behavioral: Motivational Interviewing</div></div></div>
724	Completed	<div><div><div>Cross-Over Multicentre Study in Adolescents</div><div>Conditions: Overweight; Hyperlipidemia</div><div>Intervention: Other: dietary treatment</div></div></div>
725	Completed	<div><div><div>Metabolic Effects of Rowing Multi-races Events</div><div>Conditions: Diet; Nutritional Status; Fatigue; Maximal Exercise</div><div>Intervention:</div></div></div>
726	Active, not recruiting	<div><div><div>European Childhood Obesity Project</div><div>Condition: Infant, Newborn</div><div>Intervention: Dietary Supplement: protein content of infant formula</div></div></div>
727	Completed	<div><div><div>Evaluation of Polyflex Stenting in Esophageal Cancer Patients</div><div>Condition: Esophageal Cancer</div><div>Intervention:</div></div></div>
728	Recruiting	<div><div><div>Infant Diet Effects on Brain Function and Language Processing (fMRI)</div><div>Condition: Healthy</div><div>Intervention:</div></div></div>

729	Withdrawn	Study of Body Composition Methodology in Young Children (InfantPod) Condition: Healthy Intervention:
730	Completed	Bioavailability and Dosing of a Monosaccharide Supplement in Adults Condition: Healthy Males Intervention:
731	Completed	The Effects of Breakfast on Brain Function Condition: Healthy Intervention: Dietary Supplement: USDA School Breakfast
732	Completed	Taking Action Together- A Diabetes Prevention Program Condition: Type 2 Diabetes Interventions: Behavioral: High Intensity; Behavioral: Low Intensity
733	Recruiting	Metabolic Impact of Fat Digestion Condition: Obesity Intervention: Other: All subjects receive three sequences of a standard breakfast
734	Unknown †	Preschool Based Obesity Prevention Effectiveness Trial Conditions: Cardiovascular Diseases; Heart Diseases; Obesity Interventions: Behavioral: Teacher-Delivered Weight Control Intervention; Behavioral: Teacher-Delivered General Health Intervention
735	Enrolling by invitation	Food Energy Density in Eating Disorders Condition: Nutritional Insufficiency Interventions: Dietary Supplement: Low fat intake; Dietary Supplement: Increased fat intake
736	Active, not recruiting	Effect of Liraglutide on Body Weight in Non-diabetic Obese Subjects or Overweight Subjects With Co-morbidities: SCALE™ - Obesity and Pre-diabetes Conditions: Metabolism and Nutrition Disorder; Obesity Interventions: Drug: liraglutide; Drug: placebo
737	Active, not recruiting	Effect of Liraglutide on Body Weight in Overweight or Obese Subjects With Type 2 Diabetes: SCALE™ - Diabetes Conditions: Metabolism and Nutrition Disorder; Obesity Intervention: Drug: liraglutide
738	Completed Has Results	Comparison of Liraglutide Versus Placebo in Weight Loss Maintenance in Obese Subjects: SCALE - Maintenance Conditions: Metabolism and Nutrition Disorder; Obesity Interventions: Drug: liraglutide; Drug: placebo
739	Withdrawn	Examination of the Safety and Tolerability of NNC 0070-0002-0349 in Overweight/Obese Volunteers Conditions: Metabolism and Nutrition Disorder; Obesity Interventions: Drug: NNC 0070-0002-0349; Drug: placebo
740	Completed Has Results	The Effect of Liraglutide on Body Weight in Obese Subjects Without Diabetes Conditions: Metabolism and Nutrition Disorder; Obesity Interventions: Drug: liraglutide; Drug: orlistat; Drug: placebo

Rank	Status	Study
741	Terminated	<div><div>Safety, Efficacy, Tolerability and Pharmacokinetics of NNC 0070-0002-0182 in Overweight or Obese Male and Female Volunteers</div><div>Conditions: Metabolism and Nutrition Disorder; Obesity</div><div>Interventions: Drug: NNC 0070-0002-0182; Drug: placebo</div></div>
742	Active, not recruiting	<div><div>Effect of Liraglutide in Obese Subjects With Moderate or Severe Obstructive Sleep Apnoea: SCALE™ - Sleep Apnoea</div><div>Conditions: Metabolism and Nutrition Disorder; Obesity; Obstructive Sleep Apnoea</div><div>Interventions: Drug: liraglutide; Drug: placebo</div></div>
743	Completed	<div><div>A Trial to Assess the Effect of Liraglutide on Gastric Emptying in Healthy Obese Volunteers</div><div>Conditions: Metabolism and Nutrition Disorder; Obesity; Healthy</div><div>Intervention: Drug: liraglutide</div></div>
744	Completed	<div><div>Fatty Acids During Pregnancy and Lactation and Body Fat Mass in Newborns</div><div>Conditions: Overweight; Obesity</div><div>Intervention: Dietary Supplement: Marinol D-40</div></div>
745	Completed	<div><div>Educational, Social Support, and Nutritional Interventions and Their Cumulative Effect on Pregnancy Outcomes and Quality of Life in Teen and Adult Women With Phenylketonuria</div><div>Conditions: Pregnancy; Phenylketonuria</div><div>Intervention: Behavioral: Metabolic camp</div></div>
746	Completed	<div><div>Identification of Muscle-specific Biomarkers of Fatty Acid Beta-oxidation</div><div>Condition: Obesity</div><div>Intervention: Behavioral: Diet and Exercise</div></div>
747	Completed	<div><div>Dairy Foods and Weight Loss</div><div>Condition: Overweight and Obesity</div><div>Interventions: Other: high dairy diet; Other: Low Dairy</div></div>
748	Active, not recruiting	<div><div>Healthy Creations: Community Based Lifestyle Intervention Validation</div><div>Conditions: Overweight; Obesity</div><div>Intervention: Behavioral: Lifestyle Counseling</div></div>

749	Active, not recruiting	Efficacy of a Web-based Lifestyle Modification Program in Obese Patients With Cardiovascular Risk Factors Condition: Obesity Interventions: Behavioral: Web-based lifestyle modification; Behavioral: Web-based lifestyle modification +
750	Completed	Anti-Inflammatory Activities of Grapes in Humans at Risk for Cardiovascular Disease Conditions: Obesity; Inflammation Interventions: Dietary Supplement: Grape powder, followed by placebo powder; Dietary Supplement: Placebo powder followed by grape powder
751	Completed	Effect of Consumption of Post-harvest UV-B Treated Mushrooms on Vitamin D Status of Healthy Adults Condition: Vitamin D Deficiency Interventions: Dietary Supplement: 1,000 IU vitamin D2; Dietary Supplement: placebo capsule; Other: mushrooms; Other: UVB-treated mushrooms, 400 IU vitamin D2; Other: UVB-treated mushrooms, 1,000 IU vitamin D2
752	Unknown †	Endocrine Regulation of Energy and Fluid Supplies in Alcoholic Patients Condition: Alcoholism Intervention:
753	Completed	Feasibility Study of Digital Photography and Group Discussion for People With Diabetes Condition: Type 2 Diabetes Intervention: Behavioral: Digital Photography of meals/snacks and group discussion
754	Completed	Metabolic Fate Modifications of Saturated Fats After an Overfeeding Conditions: Obesity; Lipid Metabolism; Inflammation Intervention: Dietary Supplement: Hyperlipidic overfeeding
755	Unknown †	Healthy Bodies, Healthy Hearts: A Physical Activity Intervention Trial Conditions: Obesity; Cardiovascular Disease; High Blood Pressure Interventions: Behavioral: In Person; Behavioral: At Home
756	Completed	A School-Based Osteoporosis Prevention Program for Adolescent Girls Condition: Osteoporosis Intervention: Behavioral: Incorporating More Physical Activity and Calcium in Teens (IMPACT) Program
757	Active, not recruiting	Study of Early Infant Diet on Growth and Development Condition: Healthy Intervention:
758	Active, not recruiting	FRESH Study (Fitness, Relaxation and Eating to Stay Healthy) Conditions: Prediabetes; Overweight Interventions: Behavioral: Stress Management; Behavioral: Diet; Behavioral: Exercise; Behavioral: Culinary education
759	Not yet recruiting	The Feeding Dynamic Intervention: Self Regulation of Intake in Preschoolers Conditions: Children; Exogenous Obesity; Eating Behavior Interventions: Behavioral: lifestyle counseling, parental feeding; Behavioral: No Intervention: control group
760	Completed	Potential Association of a Common L-FABP Polymorphism With Lipid-induced Hepatic Insulin Resistance Conditions: Wildtype; Polymorphism Liver FABP Intervention: Procedure: measurement of lipid-induced hepatic insulin resistance

† Indicates status has not been verified in more than two years

Rank	Status	Study
761	Unknown †	<div>The Impact of Perioperational Malnutrition on the Cost on Gastroenterological Cancer Patients</div> <div>Conditions: Malnutrition; Gastroenterological Cancer; Surgical Procedures, Operative</div> <div>Intervention:</div>
762	Completed	<div>Retinol Equivalence of Plant Carotenoids in Children</div> <div>Condition: Vitamin A Deficiency</div> <div>Intervention:</div>
763	Completed	<div>Modulation of Systemic Inflammatory Response in Critically Ill Children After Glutamine Supplementation</div> <div>Conditions: Inflammatory Response; Multi-organ Failure</div> <div>Interventions: Dietary Supplement: solution of amino acids supplemented with glutamine; Dietary Supplement: amino acids not supplemented with glutamine</div>
764	Unknown †	<div>Effect of Invasive and Non Invasive Mechanical Ventilation on Feeding Delivery in COPD Elderly Patients</div> <div>Conditions: COPD; Mechanical Ventilation</div> <div>Intervention:</div>
765	Completed	<div>Effects of (1,3), (1,6)-Beta-D-Glucan on Insulin Sensitivity and Inflammatory Markers of the Metabolic Syndrome</div> <div>Condition: Overweight</div> <div>Interventions: Dietary Supplement: Beta-D-Glucan; Dietary Supplement: placebo</div>
766	Recruiting	<div>Parental Management of Young Children's Diabetes</div> <div>Condition: Diabetes Mellitus, Type 1</div> <div>Interventions: Behavioral: Parental Support; Behavioral: Diabetes Education</div>
767	Active, not recruiting	<div>Young Women's CoOp Study</div> <div>Conditions: HIV; Sexual Risk; Sexually Transmitted Diseases; Substance Abuse; Violence; Victimization</div> <div>Interventions: Behavioral: Young Women's CoOp; Behavioral: Staying Healthy and Eating Well</div>
768	Unknown †	<div>Glutamine Enriched Total Parenteral Feeding and Proline Metabolism in Severely Burned Patients</div>

		Condition: Burns
		Intervention: Dietary Supplement: TPN or TPN enriched with glutamine
769	Recruiting	Modifying Dietary Behavior in Adolescents With Elevated Blood Pressure Conditions: Hypertension; Prehypertension Interventions: Behavioral: DASH-4-Teens; Other: Routine Care
770	Completed	A Brief Community Linkage Intervention for Dually Diagnosed Individuals Conditions: Schizophrenia; Psychotic Disorders; Substance-Related Disorders; Bipolar Disorder Interventions: Behavioral: Time limited case management; Behavioral: Health Education
771	Active, not recruiting	Vitamin D Supplementation in Younger Women Condition: Hypovitaminosis D Intervention: Drug: vitamin D3
772	Completed	Evaluation of the Efficacy and Safety of Recombinant Human Growth Hormone (rhGH) in the Treatment of Children With Short Bowel Syndrome Condition: Short Bowel Syndrome Intervention: Drug: rhGH
773	Completed	Leptin, IGF1 and the Refeeding Index Condition: Refeeding Syndrome Intervention:
774	Completed	Brain Manganese Deposition in High Risk Neonates Conditions: Necrotizing Enterocolitis; Digestive System Abnormalities; Cholestasis Intervention: Dietary Supplement: remove Mn from PN if evidence of increased brain Mn on MRI
775	Recruiting	Colorectal Cancer Registry Condition: Colorectal Cancer Intervention: Other: non-interventional
776	Recruiting	Breast Cancer Registry Condition: Breast Cancer Intervention:
777	Completed	Relative Efficacy of Two Regimens of Ante-helminthic Treatment Condition: Helminthiasis Intervention: Drug: Albendazole
778	Not yet recruiting	COPD, Inflammation and Rehabilitation Condition: COPD Intervention: Behavioral: Best care
779	Active, not recruiting	Randomized Controlled Clinical Trial of Weight Loss Programs in Obese Persons Condition: Obesity Intervention: Behavioral: SHINE
780	Active, not recruiting	HIV Prevention for African American Teens Condition: Sexually Transmitted Diseases Interventions: Behavioral: Afiya HIV Prevention Intervention; Behavioral: Afiya HIV prevention intervention

Rank	Status	Study
781	Completed	<div>Randomized Controlled Trial Targeting Obesity-related Behaviors</div> <div>Condition: Obesity</div> <div>Interventions: Behavioral: group fitness + education; Behavioral: group fitness classes only</div>
782	Recruiting	<div>Dietary Intervention and Intestinal Microbiota in Non-alcoholic Fatty Liver</div> <div>Conditions: Obesity; Non-alcoholic Fatty Liver Disease (NAFLD)</div> <div>Intervention: Other: nutrition counselling</div>
783	Unknown †	<div>Calcium Supplementation for a Healthy Weight-Lite (CaSheW Lite)</div> <div>Conditions: Obesity; Overweight</div> <div>Interventions: Drug: Calcium and Vitamin D; Behavioral: Nutrition Counseling</div>
784	Completed	<div>Trial to Assess Vitamin D Requirements in Lactating Women</div> <div>Conditions: Vitamin D Deficiency; Vitamin D Insufficiency</div> <div>Interventions: Drug: Cholecalciferol (Vitamin D3); Drug: Calcium Carbonate; Drug: Placebo - gelatin capsule</div>
785	Unknown †	<div>The Impact of Portion Plates for Weight Loss on Cardiac Rehabilitation Patients</div> <div>Condition: Cardiovascular Disease</div> <div>Intervention: Other: Portion plate given to cardiac rehabilitation patients</div>
786	Completed	<div>Feasibility of Integrating Indirect Calorimetry (IC) Technology in Primary Care</div> <div>Conditions: Obesity; Hypertension</div> <div>Interventions: Behavioral: Individualized IC treatment; Behavioral: Usual Care</div>
787	Active, not recruiting	<div>Launch II: A Pilot Randomized Control Trial of a Clinic and Clinic Plus Home Intervention for Preschool Obesity</div> <div>Condition: Obesity</div> <div>Interventions: Behavioral: Clinic + Home Behavioral Intervention; Other: Pediatrician Counseling; Behavioral: Clinic Only Behavioral Intervention</div>
788	Active, not recruiting	<div>Protein and Energy Metabolism in Pediatric Crohn's Disease</div> <div>Conditions: Crohn's Disease; Protein Metabolism; Energy Metabolism</div> <div>Intervention: Other: Stable isotope infusions</div>

789	Completed	Sub-clinical Inflammation and Iron Supplementation	Condition: Anemia	Interventions: Dietary Supplement: Iron group; Dietary Supplement: Vitamin A group; Dietary Supplement: Iron and vitamin A group; Dietary Supplement: Placebo group
	Has Results			
790	Unknown †	The GoodNEWS Lifestyle Enhancement Program	Conditions: Cardiovascular Disease; Hypertension; Diabetes; Obesity	Intervention: Behavioral: Lay Health Promoter (LHP) with maintenance
791	Active, not recruiting	Family Influences to Prevent Childhood Obesity	Condition: Childhood Obesity	Intervention: Behavioral: 4-Health Educational curriculum
792	Not yet recruiting	Validation of a STAMP in Hospitalized Children and the Effect of Its Use on the Awareness of the Medical Staff	Condition: Malnutrition	Interventions: Other: questionnaire STAMP and dietary; Other: No intervention
793	Unknown †	Changing Healthy Outcomes In Clinic Environments	Conditions: Obesity; Physical Inactivity; Diabetes	Interventions: Behavioral: One on one counseling; Behavioral: Group/team - based health education; Behavioral: PACE physician counseling
794	Recruiting	Complementary Food Supplements for Reducing Childhood Undernutrition	Conditions: Stunting; Wasting	Interventions: Dietary Supplement: Wheat Soy Blend (WSB++); Dietary Supplement: Chickpea based complementary food supplement; Dietary Supplement: Rice based complementary food supplement; Dietary Supplement: Plumpy Doz
795	Recruiting	The Effect of Severe Weight Loss and Protein Intake on Bone	Conditions: Weight Loss; Dietary Protein	Interventions: Behavioral: Caloric restriction, high protein; Behavioral: Caloric restriction; normal protein; Behavioral: Nutrition Education
796	Active, not recruiting	Antenatal Micronutrient Supplementation and Birth Weight	Conditions: Low Birth Weight; Infant Mortality; Pregnancy; Nutritional Status	Intervention: Drug: Nutritional supplements
797	Completed	N-Acetylcysteine in Severe Acute Alcoholic Hepatitis	Condition: Alcoholic Hepatitis	Interventions: Drug: N-Acetylcysteine; Drug: placebo
798	Recruiting	Does Food Labeling Influence Long-term Food Intake and Eating-related Variables in Women?	Condition: Obesity	Interventions: Behavioral: Nutrient-label; Behavioral: Calorie-label; Behavioral: No label
799	Unknown †	Can a Physical Activity Skill Development and Parent-Centered Dietary Intervention Help Combat Child Obesity?	Condition: Obesity	Intervention: Behavioral: Physical activity and diet
800	Completed	A Primary Care Behavioral Approach for Addressing Childhood Overweight	Condition: Obesity	Intervention: Behavioral: Group-based behavioral intervention
	Has Results			

† Indicates status has not been verified in more than two years

Include only open studies Exclude studies with unknown status

Rank	Status	Study
801	Completed	Anticipatory Guidance to Prevent Childhood Obesity Condition: Childhood Obesity Interventions: Behavioral: Maternal focused intervention; Behavioral: Ounce of Prevention
802	Completed	Healthy Futures Project: A Community Based Obesity Prevention Program Conditions: Overweight; Obesity Interventions: Behavioral: Switch active lifestyles brought to you by MediaWise; Behavioral: Switch active lifestyles from MediaWise
803	Recruiting	Evaluation of an Oral Nutritional Supplement in Older Hospitalized Patients Condition: Pneumonia Interventions: Other: Experimental Oral Nutritional Supplement; Dietary Supplement: No Product
804	Terminated	Substudy of Change in Cardiometabolic Disease (CMD) Risk Factors During an Interactive Fitness Program Condition: Insulin Resistance Intervention:
805	Completed	Assessment of Feeding Tolerance in Infants Fed Cow Milk Formula Condition: Healthy Term Infants Solely Formula Fed Interventions: Other: Enfamil LIPIL with iron; Other: Good Start Supreme with DHA and ARA
806	Terminated	Study to Assess the Effectiveness of a Omega-3 Enriched Supplement on Chemotherapy Tolerance in Colon Cancer Patients Condition: Colorectal Neoplasms Intervention: Dietary Supplement: Eicosapentaenoic acid enriched nutritional supplement
807	Unknown †	Study of Arginine Metabolism and Nitric Oxide Formation in Relation to Glutamine Supply in Severely Burned Patients Condition: Burns Intervention: Dietary Supplement: Alteration in nutritional support
808	Completed	Nutritional Intervention for Geriatric Hip Fracture Patients Condition: Hip Fractures Intervention: Dietary Supplement: Protein supplementation

809	Not yet recruiting	Assessment of Nutritional Consequences of Sleeve Gastrectomy Condition: Obesity Intervention: Procedure: Longitudinal sleeve gastrectomy
810	Completed	Prospective Study in Pelvic Radiotherapy Patients Condition: Gynaecological, Urological or Rectal Cancer Intervention:
811	Completed	The Impact of Educational Materials on Family Behavior Conditions: Overweight; Obesity Interventions: Behavioral: Booklet on nutrition and physical activity.; Behavioral: Safety Booklet
812	Unknown †	Ethnic Dance and Screen Time Reduction to Prevent Weight Gain in Latina Girls Conditions: Obesity; Overweight; Excessive Weight Gain Interventions: Behavioral: after school ethnic dance program - ballet folklórica; Behavioral: culturally-tailored, home-based screen time reduction; Behavioral: culturally-tailored health and nutrition education
813	Terminated	Safety & Efficacy of Omega-3 Fish Oil in Overweight Children & Adolescents Conditions: Overweight; Obesity Interventions: Drug: Supplement: Omega-3 Fish Oil; Behavioral: Multi-Disciplinary Nutrition & Exercise program
814	Completed	Trial to Alleviate Malnutrition With Fortified Spread Given as a Food Supplement to Underweight Infants Condition: Malnutrition Interventions: Procedure: Food supplement: fortified spread; Procedure: Food supplement: maize and soy flour
815	Completed	The Vegetable Dose Response Study: Effects of Consumption on Inflammation and Oxidative Stress Condition: Chronic Disease Intervention: Other: 2, 5 & 10 Vegetable doses
816	Completed Has Results	Physical Exercise Influence Among Overweight and Obese Pregnant Women Conditions: Obesity; Overweight Intervention: Other: physical exercise
817	Unknown †	Efficacy of Docosahexaenoic Acid on Tardive Dyskinesia Condition: Tardive Dyskinesia Interventions: Dietary Supplement: Omega-3 fish oil capsules (including DHA); Dietary Supplement: Placebo
818	Recruiting	Cluster Randomised Trial of Improved Sanitation in Rural Orissa, India Conditions: Diarrhoea; Soil-transmitted Helminth Infection; Nutritional Status Interventions: Other: Provision of household latrines; Other: No intervention
819	Completed	GI Interlab 2 Study: Measuring the Glycaemic Index (GI) of Foods Condition: Healthy Interventions: Drug: Test Meal: Reference food (glucose or white bread); Drug: Test Meal: Pirate's Booty; Drug: Test Meal: Ceaprove wafer; Drug: Test Meal: Stretch Island Strawberry Fruit Leather
820	Completed	Trial to Test the Growth-Promoting Effect of Fortified Spreads When Used as Complementary Food for Infants Condition: Malnutrition Interventions: Dietary Supplement: fortified spread (RUTF); Dietary Supplement: maize and soy flour

Rank	Status	Study
821	Completed	<div><div>Zonisamide SR Plus Bupropion SR Combination Therapy in Subjects With Obesity</div><div>Condition: Obesity</div><div>Interventions: Drug: Zonisamide SR placebo/ bupropion SR placebo; Drug: Zonisamide SR placebo/ bupropion SR 360 mg/day; Drug: Zonisamide SR 120 mg/day/ bupropion SR placebo; Drug: Zonisamide SR 360 mg/day/ bupropion SR placebo; Drug: Zonisamide SR 120 mg/day/ bupropion SR 360 mg/day; Drug: Zonisamide SR 360 mg/day/ bupropion SR 360 mg/day</div></div>
822	Completed	<div><div>Effect of Yogurts Supplemented With Mobilee on Joint Function in Healthy Individuals With Joint Discomfort</div><div>Condition: Low Intensity Knee Gonalgia</div><div>Interventions: Dietary Supplement: Yogurt supplemented with Mobilee; Dietary Supplement: Yogurt</div></div>
823	Completed	<div><div>Do Apolipoprotein E Polymorphisms Influence Risk of Cognitive Decline by Modulating Omega-3 Fatty Acid Metabolism?</div><div>Condition: Healthy</div><div>Intervention: Dietary Supplement: omega-3 fatty acid</div></div>
824	Unknown †	<div><div>Magnetic Resonance (MR) Enterography Assessment of Post Operative Small Bowel Length in Short Bowel Syndrome Patients</div><div>Condition: Short Bowel Syndrome</div><div>Intervention: Radiation: Barium follow-through and MR-enterography</div></div>
825	Active, not recruiting	<div><div>Weight Management for Improved Pregnancy Outcomes</div><div>Conditions: Obesity; Pregnancy</div><div>Interventions: Behavioral: Weight Management; Other: Usual Care</div></div>
826	Completed	<div><div>Bread in Overweight/Obesity Treatment</div><div>Conditions: Overweight; Obesity</div><div>Intervention: Other: hypocaloric diet balanced + nutrition education + ruled physical activity</div></div>
827	Recruiting	<div><div>Malnutrition in People With Complex Multiple Disabilities</div><div>Conditions: Complex Multiple Disabilities; Malnutrition</div><div>Intervention:</div></div>

828	Recruiting	Lifestyle Intervention Forever: Healthy Weight for Pregnancy and Birth (Pilot Study) Conditions: Pregnancy; Obesity; Weight Gain; Obstetric Complications Intervention: Behavioral: Lifestyle intervention
829	Completed	Feasibility of Blood Glucose Control With the Space TGC System in Medical ICU Patients Condition: Critical Illness Intervention: Device: Space TGC
830	Completed	Usability of Blood Glucose Control With the Space TGC System in Medical ICU Patients Condition: Critical Illness Intervention: Device: Space TGC
831	Unknown [†]	Breastfeeding and Exercise for Healthy Infants and Postpartum Moms Too! Conditions: Osteoporosis; Obesity; Weight Loss; Body Composition Intervention: Other: Exercise and weight loss intervention
832	Terminated	Early Intervention for Morbidly Obese Patients After Roux-en-Y Gastric Bypass (RYGB) Surgery Conditions: Weight Loss; Obesity Intervention: Behavioral: Lifestyle counseling
833	Completed	Feasibility of Tight Blood Glucose Control With the Space TGC System in Surgical ICU Patients Condition: Critical Illness Intervention: Device: Space TGC
834	Completed	Feasibility of Blood Glucose Control With the Space TGC System in Postoperative Cardiac Surgery Patients in the ICU Condition: Critical Illness Intervention: Device: Space TGC
835	Unknown [†]	Preterm Neonatal Feeding Protocol Comparing Feed Administration Time Condition: Feeding Intolerance Intervention: Other: Length of time for feed administration
836	Unknown [†]	Pilot and Feasibility Study for the Treatment of Pre-diabetes in Patients With Cystic Fibrosis Conditions: Cystic Fibrosis Related Diabetes; Pancreatic Insufficiency Interventions: Drug: placebo; Drug: repaglinide
837	Completed	Preventing Loss of Weight, Fat Free Mass and Activities of Daily Living Conditions: Hip Fracture; Arthrosis Intervention: Behavioral: Involving the patients in their own nutritional care
838	Active, not recruiting	Treatment Options for Type 2 Diabetes in Adolescents and Youth (TODAY) Condition: Diabetes Mellitus, Type II Interventions: Drug: Metformin; Drug: Rosiglitazone; Behavioral: TODAY Lifestyle Program
839	Completed	Vitamin D Dose-Response Study to Establish Dietary Requirements in Infants Condition: Vitamin D Deficiency Intervention: Drug: Vitamin D
840	Completed	Effect of the Molecular Weight of Oat β-glucan on Its Ability to Lower Serum Cholesterol Condition: Hypercholesterolemia Interventions: Dietary Supplement: Wheat bran; Dietary Supplement: 3g high MW; Dietary Supplement: 4g medium MW; Dietary Supplement: 3g medium MW; Dietary Supplement: 4g low MW

† Indicates status has not been verified in more than two years

Include only open studies Exclude studies with unknown status

Rank	Status	Study
841	Recruiting	Influence of Probiotics on Infections in Cirrhosis Condition: Liver Cirrhosis Interventions: Dietary Supplement: Winclove-849; Dietary Supplement: Placebo
842	Completed	Trans Fatty Acids and Cardiovascular Risk Factors Condition: Cardiovascular Disease Interventions: Dietary Supplement: vaccenic acid enriched milk fat (VAMF) [Transfact1]; Dietary Supplement: hydrogenated oil
843	Unknown †	Validation of the Quark RMR Calorimeter (Cosmed) Versus Deltatrac II (GE Health Care Clinical Systems) Conditions: Healthy; Obesity Interventions: Device: Quark RMR; Device: Deltatrac II
844	Active, not recruiting	Evaluation of the Safe Use and Tolerance of a Peptide-based Formula in a Pediatric Population Conditions: Gastrointestinal Diseases; Feeding Intolerance Intervention: Other: Peptide based enteral formula
845	Recruiting	Evaluating Liking, Acceptability and Health Benefits of Grain Products Condition: Food Preferences Interventions: Other: Whole grain foods; Other: Refined grains
846	Completed	Nutrition and Cognition in Indian Children Condition: Healthy Intervention: Behavioral: micronutrients
847	Active, not recruiting	Preventing Linear Growth Faltering Among Low Birth Weight Infants in Bangladesh Condition: Infant, Low Birth Weight Interventions: Other: Hand Sanitizer; Dietary Supplement: Improved Micronutrient Powder (I-MNP) and Nutritional Education; Other: Hand hygiene without hand sanitizer; Dietary Supplement: Placebo Micronutrient Powder and Nutritional Education
848	Recruiting	Virtual Environments For Supporting Obesity Treatment Conditions: Obesity; Morbid Obesity Interventions: Behavioral: Experiential-Cognitive Therapy for Obesity;

Behavioral: Behavioral cognitive Treatment; Dietary Supplement: **Nutritional** groups (NT)

849	Active, not recruiting	Carotenoid Response to the Intake of Vegetables and Fruits Condition: Resonance Raman Spectroscopy for Dietary Carotenoid Intake Interventions: Other: Carotenoid Depletion; Other: Carotenoid Repletion; Other: Natural Repletion
850	Active, not recruiting	Healthy Living Partnership to Prevent Diabetes Conditions: Prediabetes; Obesity Interventions: Behavioral: Group-Based Lifestyle Intervention (Phases 1 and 2); Other: Individual Education Program (All Phases); Behavioral: Self-Directed Maintenance (Phase 3); Behavioral: Extended Group Maintenance (Phase 3)
851	Completed	Workplace-Sponsored Program to Reduce Obesity Conditions: Obesity; Cardiovascular Diseases Interventions: Behavioral: Diet; Behavioral: Exercise; Behavioral: Environment
852	Completed	Colorectal Neoplasia Screening With Colonoscopy in Asymptomatic Women at Regional Navy/Army Medical Centers: The CONCERN Trial Condition: Colorectal Neoplasia Intervention:
853	Recruiting	Exercise and Healthy Diet or Standard Care in Patients in Remission From Stage I or Stage II Endometrial Cancer Condition: Endometrial Cancer Interventions: Behavioral: behavioral dietary intervention; Behavioral: exercise intervention; Other: counseling intervention; Other: educational intervention; Other: survey administration
854	Unknown †	Nutrition Intervention in Treating Women With Breast Cancer Condition: Breast Cancer Interventions: Other: educational intervention; Procedure: therapeutic dietary intervention
855	Completed	Nutrition , Diabetes and Pulmonary TB/HIV Conditions: Tuberculosis; HIV; Diabetes Interventions: Dietary Supplement: Multimicronutrients; Dietary Supplement: Energy and proteins
856	Not yet recruiting	Food, Fun, & Fitness Internet Program for Girls: Outcome Evaluation Condition: Obesity Intervention: Behavioral: Food, Fun, & Fitness Internet Program for Girls
857	Completed	Evaluation of the "Americans in Motion - Healthy Interventions" Project Conditions: Physical Activity; Diet; Mental Health Interventions: Behavioral: Enhanced Office; Behavioral: Conventional Office; Behavioral: AIM-HI program with enhanced feedback; Behavioral: AIM-HI program and regular feedback
858	Completed	Short Term Feeding for Asian Patients With Liver Cirrhosis Condition: CIRRHOSIS Interventions: Dietary Supplement: Osmolite and B.C.A.A.; Dietary Supplement: Normal oral intake & supplementation if necessary
859	Completed	Studies of Immune Responses to Orally Administered Vaccines in Developing Country Conditions: Cholera; Typhoid Interventions: Drug: Placebo; Other: Control; Drug: Zinc Sulphate; Drug: Albendazole and Secnidazole; Other: Arsenic
860	Enrolling by invitation	Gut Flora Dependent Metabolism of Dietary Phosphatidylcholine and Cardiovascular Disease Condition: Nutrition Intervention: Other: Antibiotic (metronidazole and ciprofloxacin)/probiotic

Rank	Status	Study
861	Completed	<div><div>Physical Activity, Calcium, and Bone in Children</div><div>Conditions: Physical Activity; Nutrition</div><div>Interventions: Procedure: Physical activity; Drug: Calcium supplement</div></div>
862	Active, not recruiting	<div><div>A Prospective Study of Diet and Cancer in Members of the American Association of Retired Persons</div><div>Conditions: Nutrition; Cancer</div><div>Intervention:</div></div>
863	Completed	<div><div>Endocannabinoids in End Stage Renal Disease</div><div>Conditions: End Stage Renal Disease; Nutrition</div><div>Intervention:</div></div>
864	Recruiting	<div><div>Gastric Residuals in Preterm Infants</div><div>Conditions: Early Enteral Feeding Advancement; Nutrition; Preterm Infants</div><div>Interventions: Procedure: No check of gastric residuals for early enteral feeding advancement; Procedure: Routine check of gastric residuals for early enteral feeding advancement</div></div>
865	Enrolling by invitation	<div><div>CARNIVAL Study: Gut Flora Dependent Metabolism of Dietary CARNitine and cardioVAscuLar Disease</div><div>Condition: Nutrition</div><div>Intervention: Other: Antibiotic/Probiotic</div></div>
866	Active, not recruiting	<div><div>Safety & Health Improvement: Enhancing Law Enforcement Departments</div><div>Conditions: Physical Activity; Nutrition; Health Promotion; Stress, Psychological; Cardiovascular Diseases; Cancer</div><div>Intervention: Behavioral: Behavioral: Team-based intervention</div></div>
867	Recruiting	<div><div>Evaluation of Four Reconstructions After Total Gastrectomy</div><div>Conditions: Gastric Cancer; Nutrition</div><div>Interventions: Procedure: R-Y reconstruction after total gastrectomy; Procedure: P-Y reconstruction after total gastrectomy; Procedure: Pouch reconstruction after total gastrectomy; Procedure: P-I reconstruction after total gastrectomy</div></div>
868	Completed	<div><div>Trial of Fish Intake Advice in Pregnancy</div></div>

Condition: **Nutrition**
Interventions: Behavioral: Dietary advice; Behavioral: Control

869 Unknown † [Assessment of Food Environment and Physical Activity Opportunities in Three Neighbourhoods of Buenos Aires City](#)
Conditions: **Nutrition**; Physical Activity
Intervention:

870 Completed **Nutritional** [Quality of Egg Proteins and Effect on Satiety](#)
Conditions: Physiology; **Nutrition**
Interventions: Dietary Supplement: Egg snack; Dietary Supplement: Cottage cheese

871 Completed **Nutrition** [in Pregnancy, Birth Weight, and Childhood Asthma](#)
Conditions: Lung Diseases; Asthma
Intervention:

872 Unknown † **Nutritional** [Effect of an Amino Acid Mixture on Lean Body Mass \(LBM\) in Post-bariatric Surgery Patients](#)
Conditions: Obesity; Post-gastric Bypass
Intervention: Dietary Supplement: receive amino acid supplement

873 Completed [Postprandial Inflammation and Fatty Acids](#)
Conditions: Cardiovascular Disease; Diabetes Type 2; Obesity
Interventions: Other: High saturated fat shake; Other: High monounsaturated fat shake; Other: High polyunsaturated fat shake

874 Completed [Framingham](#) **Nutrition** [Studies](#)
Conditions: Cardiovascular Diseases; Heart Diseases; Coronary Disease; Hypertension
Intervention:

875 Recruiting [TIPS With Coated Stents for Refractory Ascites in Patients With Cirrhosis](#)
Condition: Cirrhosis
Interventions: Procedure: TIPS; Procedure: Paracenthese

876 Recruiting **Nutrition** [Study of Effect of High Iron Beans on Iron Status](#)
Condition: Iron Deficiency
Interventions: Other: Biofortified beans; Other: BEAN

877 Completed [The Effect of Betahistine on Body Weight in Obese Subjects](#)
Condition: Obesity
Interventions: Drug: Betahistine; Behavioral: Dietary counseling

878 Terminated [Metabolism of Lipids in Advanced Cancer](#)
Conditions: Lung Neoplasms; Cachexia
Interventions: Other: Blood draws; Biological: Oral administration of stable isotope (deuterium); Procedure: Metabolic rate testing

879 Completed [Energy Dense Oleic Acid Formula to Geriatric Patients](#)
Condition: **Nutritional** Intervention
Intervention: Other: Calogen® - an energy dense oleic acid based formula

880 Completed [Comparative Gastrointestinal Tolerance of Various Infant Formulas in Healthy Term Infants](#)
Condition: Infant, Newborn
Interventions: Other: soy protein formula; Other: Commercially available soy formula; Other: Soy formula experimental #2

† Indicates status has not been verified in more than two years

Include only open studies Exclude studies with unknown status

Rank	Status	Study
881	Completed	<div><div><div><div><div>Tolerance of Healthy Term Infants Fed Infant Formulas</div><div>Condition: Infant, Newborn</div><div>Intervention: Other: milk protein formulas, varying carbohydrate/protein sources</div></div></div></div></div>
882	Unknown [†]	<div><div><div><div><div>Effects of Intralipid Versus Olive Oil Infusions on Endothelial Function, Immune Function, Inflammatory Markers</div><div>Conditions: Diabetes; Hypertension; Obesity</div><div>Intervention: Drug: Twenty-four Hour TPN and Saline Infusion</div></div></div></div></div>
883	Terminated	<div><div><div><div><div>Evaluate the Efficacy and Safety Growth Hormone, Glutamine and Diet in Patients With Short Bowel Syndrome (SBS)</div><div>Condition: Short Bowel Syndrome</div><div>Intervention: Drug: Growth Hormone</div></div></div></div></div>
884	Active, not recruiting	<div><div><div><div><div>Growth and Tolerance of Hypoallergenic Formulas</div><div>Condition: Growth of Term Infants</div><div>Intervention: Other: Infant formula</div></div></div></div></div>
885	Completed	<div><div><div><div><div>The Effect of Infant Feeding on Stool Characteristics</div><div>Condition: Healthy</div><div>Intervention: Procedure: fecal bacteria analysis</div></div></div></div></div>
886	Recruiting	<div><div><div><div><div>Oral Nutrition Impact on Tear Film</div><div>Condition: Dry Eye Syndrome</div><div>Intervention: Dietary Supplement: Omega 3, Vitamins A, D3 and E</div></div></div></div></div>
887	Active, not recruiting	<div><div><div><div><div>Gut Health Response to Dietary Fiber</div><div>Condition: Dietary Fiber</div><div>Intervention: Dietary Supplement: dietary fiber</div></div></div></div></div>
888	Recruiting	<div><div><div><div><div>Effects of Probiotics in Immune System of Healthy Adults</div><div>Condition: Conditions Influencing Health Status</div><div>Interventions: Other: Probiotic CNCM I-4034; Other: Probiotic CNCM I-4035; Other: Probiotic CNCM I-4036; Other: Probiotics CNCM I-4035 and CNCM I-4036; Other: Placebo capsule</div></div></div></div></div>

889	Enrolling by invitation	Improving Vitamin D Status in Home-bound Elders Conditions: Vitamin D Deficiency; Accidental Falls Interventions: Dietary Supplement: Vitamin D3; Dietary Supplement: Vitamin E
890	Completed	Children's Activity and Nutrition III Conditions: Cardiovascular Diseases; Hypertension; Coronary Disease Intervention:
891	Completed	Adjuvant Nutrition for Critically Ill Trauma Patients Condition: Trauma Intervention: Procedure: Juven (nutritional), HMB (nutritional)
892	Recruiting	DarDar Nutrition Study in HIV Breastfeeding Women Condition: Low Birth Weight Interventions: Dietary Supplement: Porridge protein calorie supplement; Dietary Supplement: multivitamin
893	Recruiting	Iron Treatment for Young Children With Non-anemic Iron Deficiency Condition: Non-anemic Iron Deficiency Interventions: Dietary Supplement: Ferrous Sulfate; Dietary Supplement: Placebo; Other: No intervention; Behavioral: Dietary counseling
894	Recruiting	Breast Milk and Infant Growth Among Lean, Overweight and Diabetic Mothers Conditions: Obesity; Type 2 Diabetes; Gestational Diabetes Intervention:
895	Recruiting	The Undernourished Patient: Prevention and Treatment Condition: Weight Loss Intervention: Dietary Supplement: Nutritional support
896	Completed	CVD Nutrition Education for Low Literacy ESL Students Conditions: Cardiovascular Diseases; Heart Diseases Intervention:
897	Unknown [†]	Clinical Observation of Implementing the MedGem Into a Medical Specialty Practice Condition: Obesity Interventions: Behavioral: Brief Counseling; Device: REE Assessment
898	Completed	Tolerance and Development of Healthy, Term Infants Condition: Healthy Interventions: Other: Alternate protein infant formula; Other: Standard infant formula
899	Completed	resVida and Fat Oxidation Condition: Obesity Interventions: Dietary Supplement: resVida; Dietary Supplement: placebo
900	Recruiting	NUtriGenomic Analysis in Twins Condition: Metabolic Response to Dietary Modification Interventions: Other: Isocaloric high carbohydrate diet intervention; Other: Isocaloric high fat diet intervention

		Interventions:	Other: Control, small; Other: Experimental B, small; Other: Experimental pasta C, small; Other: control, medium; Other: experimental pasta B, medium; Other: experimental pasta C, medium; Other: NL
909	Completed	Types of Resistant Starch and Their Effect on Appetite	Condition: Psychological Phenomena and Processes Interventions: Dietary Supplement: Placebo; Dietary Supplement: Starch composite B; Dietary Supplement: Starch composite C; Dietary Supplement: Starch composite D
910	Completed	A Study of Chewing Gum, Snacking and Appetite	Condition: Hunger Interventions: Dietary Supplement: Chewing Gum; Dietary Supplement: No Gum
911	Recruiting	Metabolism, Exercise and Nutrition at UCSD (MENU Study)	Conditions: Obese; Nondiabetic Intervention: Behavioral: Weight loss
912	Active, not recruiting	Guidance in Diet and Physical Activity for Prevention of Weight Gain After Gastric Bypass Surgery	Condition: Obesity Intervention: Other: Lifestyle intervention to prevent weight regain
913	Unknown †	Oral Versus Intravenous Rehydration for Prevention of Dehydration in Premature Babies, During the First Days of Life	Conditions: Low Birth Weight Infant; Enteral Nutrition Interventions: Procedure: Oral rehydration therapy; Procedure: classical hydration via intravenous infusion
914	Completed	Effects of a Synbiotics-containing Starter Formula on Infant Growth	Condition: Infant Nutrition Interventions: Other: Standard infant formula with prebiotics; Other: Infant formula with synbiotics
915	Active, not recruiting	Assessment of Growth of Infants Fed a New Formula	Condition: Infant Nutrition Interventions: Other: standard infant formula; Other: Test formula
916	Recruiting	Safety, Acceptance and Metabolic Effects in Infants Receiving a Novel Low Glycaemic Index follow-on Formula	Condition: Infant Nutrition Interventions: Other: Modified infant follow-on formula; Other: Standard infant follow-on formula
917	Completed	A New Adaptive Feeding Plan for Newborns	Condition: Infant Nutrition Interventions: Other: BSF; Other: BSF + Lactoferrin + Probiotics; Other: BSF + Lactoferrin + Probiotics + OS
918	Active, not recruiting	Effect of Formula on Growth of Infants From Overweight or Obese Mothers	Condition: Infant Nutrition Interventions: Other: standard infant formula; Other: Test formula
919	Completed	Digestive Tolerance of Slightly Hydrolyzed Starter Infant Formula With Probiotics	Condition: Infant Nutrition Interventions: Dietary Supplement: test formula 1; Dietary Supplement: test formula 2; Dietary Supplement: test formula 3; Dietary Supplement: reference formula
920	Unknown †	Regional Anesthesia Block of the Transversus Abdominis Plane in Children Undergoing Gastric Tube Insertion	Conditions: Anesthesia; Enteral Nutrition Interventions: Procedure: bupivacaine with epinephrine (mid and upper abdomen); Procedure:

bupivacaine with epinephrine (transversus abdominis plane)

Rank	Status	Study
921	Completed	<div><div><div>Gastric Emptying Study After Administration of a High Caloric Sip Feed</div><div>Condition: Enteral Nutrition</div><div>Intervention: Dietary Supplement: ProvideXtra DRINK (oral nutritional supplement, food for special medical purposes)</div></div></div>
922	Active, not recruiting	<div><div><div>Formula With Modified Content of Protein and Improved Fatty Acids and Their Impact on Infant Growth and Health</div><div>Condition: Infant Nutrition</div><div>Interventions: Other: standard infant formula; Other: modified infant formula; Other: breast milk</div></div></div>
923	Completed	<div><div><div>Tolerance and Efficacy of Wondersun Infant Formula in Formula-fed Chinese Term Infants</div><div>Condition: Infant Nutrition</div><div>Interventions: Other: Infant formula; Other: Breast feeding</div></div></div>
924	Completed	<div><div><div>The Effects of Trout Fed With a Vegetable Based Feed on Cardiovascular Risk Markers and Plasma Proteome</div><div>Condition: Cardiovascular Disease</div><div>Intervention: Behavioral: Effects of trout on CVD risk markers and plasma proteome</div></div></div>
925	Completed	<div><div><div>Inflammation and Nutritional Parameters in Hemodialysis Patients Using Reprocessed Dialyzers</div><div>Conditions: End Stage Renal Disease; Inflammation</div><div>Intervention:</div></div></div>
926	Unknown †	<div><div><div>Lifestyle Interventions for Long Term Diabetes Control</div><div>Condition: Type 2 Diabetes</div><div>Intervention: Behavioral: diet and physical activity</div></div></div>
927	Recruiting	<div><div><div>Physical Activity Advices to Prevent Loss of Autonomy in Cancer Treated Elderly Patients. An Intervention Randomized Study</div><div>Conditions: Cancer; Elderly Population</div><div>Interventions: Other: Adapted physical activity; Other: Classic physical activities</div></div></div>
928	Recruiting	<div><div><div>Impact of Preterm Body Composition at Discharge on 2 Years Neurological Development (ASQ Evaluation)</div><div>Condition: Other Preterm Infants</div></div></div>

		Intervention:	Other: Peapod assessment
929	Terminated	Satiety, Meal Frequency and Nutritional Aspects	Condition: Volunteers Intervention: Other: Increasing eating frequency
930	Recruiting	Efficacy of Nutritional Supplementation on Physical-activity Mediated Changes in Physical Functioning Older Adults at Risk for Mobility Disability (The VIVE2 Study)	Condition: Sarcopenia Interventions: Other: Exercise Intervention; Dietary Supplement: Supplement Intervention
931	Unknown †	The Effect of Exposure to Maternal Human Milk Odor on Physiological State of Preterms.	Conditions: Health Preterm Infants With no Active Disease; Human Milk Nutrition; Incubator Stay Intervention: Other: adding pad with maternal milk in hte incubator
932	Completed	Effect of Oral Glutamine on Muscle Mass and Function in Duchenne Muscular Dystrophy	Condition: Muscular Dystrophy, Duchenne Interventions: Drug: L-Glutamine; Drug: placebo
933	Completed	Sports to Prevent Obesity: Feasibility and Pilot RCT	Condition: Obesity Interventions: Behavioral: After school sports program; Behavioral: After school health education
934	Active, not recruiting	Guidance in Diet and Physical Activity for Prevention of Weight Gain After Gastric Bypass Surgery	Condition: Obesity Intervention: Other: Lifestyle intervention
935	Recruiting	Non Invasive Study of the Hepatic Fibrosis in Paediatrics by the Method of Study of Pediatric Hepatic Fibrosis	Conditions: Cirrhosis; Liver Fibrosis; Portal Hypertension; Cystic Fibrosis; Cholestasis of Parenteral Nutrition Intervention: Other: Elastometry
936	Active, not recruiting	Arginine Feeding: a Novel Strategy to Improve Protein Metabolism in Cancer and the Response to Surgery	Condition: Protein Metabolism Intervention: Dietary Supplement: Arginine
937	Unknown †	Feeding Young Children Study: Bottle Weaning Intervention	Condition: Childhood Obesity Intervention: Behavioral: Bottle Weaning Intervention
938	Not yet recruiting	National Cancer Institute Food Study	Conditions: Diet; Nutrition Assessment Intervention:
939	Completed	Effects of Nutraperf Consumption in Runners	Condition: Nutrition Processes Intervention: Dietary Supplement: Carbohydrate drink
940	Recruiting	Randomized Trial of Healthy Eating Interventions	Condition: Nutrition Therapy Interventions: Behavioral: Information provision intervention; Behavioral: information provision + flat incentive; Behavioral: Information provision + tiered incentive; Behavioral: Usual Care

Rank	Status	Study
941	Enrolling by invitation	<div>" Arthrospira Platensis" as NutritionSupplementation for Female Adult Patients Infected by HIV in Yaoundé Cameroon</div> <div>Condition: HIV</div> <div>Intervention: Dietary Supplement: Arthrospira platensis</div>
942	Completed	<div>Blackberry Intake and Biomarkers of Cancer Risk</div> <div>Condition: Healthy Volunteers</div> <div>Interventions: Other: Blackberries; Other: Gelatin</div>
943	Completed	<div>The Influence of Daily Intake of Whole Grain Barley or Oats on Biomarkers of Cardiovascular Disease</div> <div>Condition: Healthy</div> <div>Intervention: Other: Daily ingestion of whole grain barley and oats</div>
944	Completed	<div>Effect of Moderate Alcohol Consumption on Postprandial Mood</div> <div>Condition: Mood Swings</div> <div>Interventions: Other: Nutrition; Behavioral: mood manipulation</div>
945	Completed	<div>Cranberry Juice and Cardiovascular Disease</div> <div>Condition: Cardiovascular Disease</div> <div>Interventions: Other: Cranberry juice; Other: Placebo</div>
946	Completed	<div>Effect of Whey Protein on Blood Pressure</div> <div>Condition: High Blood Pressure</div> <div>Interventions: Dietary Supplement: Whey Protein; Dietary Supplement: Soy Protein; Dietary Supplement: Control (carbohydrate)</div>
947	Completed	<div>Energy Value of Macronutrients From Almonds and Mechanisms of Nutrient Action</div> <div>Condition: Healthy</div> <div>Interventions: Other: 1.5PD almonds; Other: 3.0PD almonds; Other: Base (without almonds)</div>
948	Completed Has Results	<div>Measurements of Body Iron Excretion of Healthy Adults</div> <div>Condition: Healthy</div> <div>Intervention:</div>

949	Completed Has Results	Iron Bioavailability From MyPyramid Menus Condition: Nonheme Iron Absorption Intervention: Behavioral: My Pyramid menu days 1, 2, 3, 4, 5, 6 or 7
950	Completed	Predicting Dietary Selenium Needs to Achieve Target Blood Selenium Levels Condition: Nutritional Requirements Interventions: Dietary Supplement: placebo; Dietary Supplement: selenium as L-selenomethionine
951	Unknown †	SDSU MOVE/Me Muevo Project Condition: Childhood Obesity Intervention: Behavioral: Family & Community Recreation Center Intervention
952	Recruiting	Testosterone for Treating Cachexia in Patients With Advanced or Recurrent Cervical Cancer Conditions: Cachexia; Cervical Cancer Interventions: Drug: Standard of Care Chemotherapy and/or Radiation plus Placebo (Saline) Testosterone; Drug: Arm II: Standard of Care Chemotherapy and/or Radiation plus Testosterone Enanthate
953	Completed Has Results	Effects of Calcium and Phytate on Zinc Absorption Condition: Dietary Zinc Absorption Interventions: Dietary Supplement: Moderate Calcium, Low phytate Diet; Dietary Supplement: Moderate Calcium, High Phytate Diet; Dietary Supplement: High Calcium, Low Phytate Diet; Dietary Supplement: High Calcium, High Phytate Diet
954	Recruiting	The Effects of Antioxidants in Blueberry Powder on Inflammation Induced by a Single High Fat Meal. Condition: Inflammation Interventions: Other: Breakfast meal with placebo powder; Other: Breakfast meal with 2 serving equivalents of blueberries; Other: Breakfast meal with 4 serving equivalents of blueberries
955	Completed	Role of Cherry Consumption in Reducing Risk Factors for Chronic Inflammatory Diseases Conditions: Inflammation; Cardiovascular Diseases Intervention: Other: Cherry consumption
956	Active, not recruiting	Menstrual Cycle Hormones and Eating Behavior Conditions: Dietary Habits; Food Preference Intervention:
957	Active, not recruiting	Lifestyle Intervention to Limit Excessive Weight Gain During Pregnancy in Minority Women Conditions: Pregnancy; Weight Gain Interventions: Behavioral: Lifestyle Intervention group; Behavioral: Standard of Care
958	Completed Has Results	Meat Protein and Calcium: Do They Interact Synergistically or Antagonistically? Condition: Dietary Proteins Interventions: Behavioral: High Protein Diet; Behavioral: Low Protein Diet
959	Completed Has Results	Calcium Retention as Influenced by Dietary Components That Induce an Acid Load Condition: Healthy Interventions: Other: High Meat - High Potential Renal Acid Load (PRAL) diet; Other: Low Protein - Low Potential Renal Acid Load (PRAL) diet
960	Terminated	The Effects of Vitamin E and Vitamin C and Exercise Condition: Exercise and Non-exercise Effect Upon Vitamins E and C Intervention: Dietary Supplement: Vitamin E and Vitamin C

Rank	Status	Study
961	Recruiting	<u>Glycemic Effects of Honey</u> Condition: Pre-diabetes Interventions: Dietary Supplement: Honey; Dietary Supplement: High Fructose Corn Syrup 55 (HFCS 55); Dietary Supplement: CHO (sugar)
962	Unknown [†]	<u>Prevention of Type 2 Diabetes in Children With a Family-based Healthy Lifestyle Program</u> Condition: Impaired Glucose Tolerance Interventions: Behavioral: Bright Bodies Healthy Lifestyle Program; Behavioral: Control
963	Completed	<u>Effects of Black Tea on Type 2 Diabetes</u> Condition: Type 2 Diabetes Mellitus Intervention: Dietary Supplement: Black Tea Extract
964	Active, not recruiting	<u>Weight-reduction Intervention in Asthmatic Children With Overweight/Obesity</u> Conditions: Asthma; Overweight; Obesity Intervention: Behavioral: Multifactorial Intervention for Children with asthma and overweight
965	Completed	<u>Folic Acid and Omega -3 Fatty Acid Supplementation in Depressed Older Adults</u> Condition: Depression Interventions: Dietary Supplement: folic acid; Dietary Supplement: omega-3; Dietary Supplement: vit B12; Other: folic acid placebo; Other: omega-3 placebo
966	Active, not recruiting	<u>Validation of a Digital Diet Method for Use With Preschoolers</u> Condition: Feeding Behaviors Intervention:
967	Completed	<u>Effect of Ready to Use Therapeutic Food (RUTF) Supplement After an Episode of Malaria Falciparum on Weight</u> Conditions: Weight Loss; Weight Gain; Convalescence; Malaria Intervention: Dietary Supplement: RUTF (Plumpynut®)
968	Terminated	<u>Chromium Piccolinate in the Prevention of Weight Gain Induced by Serotonergic Medications Initiated on Psychiatric Inpatient Units</u> Conditions: Weight Gain; Obesity Interventions: Drug: chromium piccolinate; Drug: placebo for chromium piccolinate

969	Active, not recruiting	CALERIE: Comprehensive Assessment of Long-Term Effects of Reducing Intake of Energy Condition: Aging Interventions: Behavioral: Caloric Restriction (CR); Behavioral: Control
970	Completed	Early Enteral Feeding After Intestinal Anastomosis Condition: Intestinal Anastomosis Interventions: Other: Early feeding; Other: late feeding after bowel sounds return
971	Completed	Effects of Daily Home Hemodialysis on Circulation, Mental Functions, and Quality of Life Condition: End-Stage Renal Disease Intervention: Procedure: Daily home hemodialysis
972	Completed	Nutritional Supplement Compliance Study Condition: Undernutrition Interventions: Dietary Supplement: Standard Oral Nutritional Supplement (ONS); Dietary Supplement: High energy Oral Nutritional Supplement (ONS)
973	Completed	A Pilot Study of Diabetes Risk Reduction Program With WIC Mothers(The Special Supplemental Nutrition Program for Women, Infants, and Children) Overweight WIC Mothers Condition: Prevention of Weight Gain Intervention: Other: lifestyle intervention
974	Recruiting	Efficacy of Prednisone in Patients With Severe Systemic Atheroembolism (Cholesterol Cristal Embolism) Condition: Cholesterol Embolism Systemic Interventions: Drug: prednisone; Other: placebo
975	Terminated	Safety and Efficacy Study of the Effect of Etanercept in Hemodialysis Patients Condition: End Stage Renal Disease Interventions: Drug: Etanercept; Drug: Saline
976	Completed	Comparison of Nutritional Products for People With Type 2 Diabetes Condition: Type 2 Diabetes Mellitus Interventions: Other: enteral nutritional formula; Other: Diabetes specific enteral product
977	Unknown [†]	Glutamine Popsicles in Bone Marrow Transplant (BMT)/Hematopoietic Stem Cell Transplant (HSCT) Patients Conditions: Bone Marrow Transplantation; Hematopoietic Stem Cell Transplantation Interventions: Drug: nutritional supplement; Drug: glutamine popsicle
978	Unknown [†]	Enteral Glutamine in Neurologically-Injured Patients Conditions: Neurologic Injury; Traumatic Brain Injury Interventions: Dietary Supplement: Enteral glutamine powder; Other: placebo
979	Completed	An Interactive Program to Improve Care for Children With CF Condition: Cystic Fibrosis Intervention: Behavioral: CF. DOC
980	Enrolling by invitation	The Efficacy of Health Navigation® for Cancer-Related Fatigue in Cancer Survivors Condition: Cancer-related Fatigue Intervention: Behavioral: Tailored web-based care program (Health Navigation®)

Include only [open studies](#) Exclude studies with [unknown status](#)

Rank	Status	Study
981	Completed	Calcium, Dairy, and Body Fat in Adolescents Conditions: Obesity; Energy Metabolism Interventions: Dietary Supplement: C (smoothies based on soy protein containing no additional calcium); Dietary Supplement: B (smoothies based on soy protein containing calcium); Dietary Supplement: A (smoothies based on dairy protein containing calcium)
982	Recruiting	Walnuts and Healthy Aging Conditions: Age Related Cognitive Decline; Age Related Macular Degeneration Interventions: Dietary Supplement: Walnuts; Other: habitual diet
983	Completed	Thermic & Lipemic Properties of Dietary Carbohydrates Conditions: Exogenous Obesity; Dietary Modification Interventions: Other: High Glycemic Index meals; Other: Low Glycemic Index meals
984	Recruiting	Biologic Assessment of Satiety Condition: Obesity Intervention:
985	Completed	GOAL Life-Style Change Intervention to Prevent Type 2 Diabetes Conditions: Obesity; Type 2 Diabetes Intervention: Behavioral: Cognitive-behavioral life-style counseling
986	Recruiting	Seasonal Patterns of Stress, Diet and Physical Activity - Life in All Seasons (LENAS) Conditions: Obesity; Stress; Feeding Behavior; Physical Activity Intervention:
987	Unknown †	Feeding Tolerance in Preterm Infants Conditions: Prematurity; Feeding Intolerance Intervention:
988	Completed	Metabolic Effects of an 8 Week Niaspan Treatment in Patients With Abdominal Obesity and Mixed Dyslipidemia Conditions: Insulin Sensitivity; Lipoproteins Metabolism; Non Esterified Fatty Acid Kinetics; Lipid Profile Intervention: Drug: Extended-release nicotinic acid versus placebo

989	Completed	Analysis of Heart Muscle Function Following Exercise in Patients With Heart Disease Condition: Healthy Intervention:
990	Recruiting	Effects of Monosodium Glutamate on Energy Balance and Eating Behavior Conditions: Obesity; Weight Gain; Food Preferences Intervention: Other: Broth
991	Recruiting	Assessment of Vitamin D Supplementation and Immune Function Condition: Vitamin D Deficiency Interventions: Dietary Supplement: Vitamin D - Treatment 1; Dietary Supplement: Vitamin D - Treatment 2; Dietary Supplement: Vitamin D - Treatment 3
992	Recruiting	Cobalamin Absorption From Fortified Food Conditions: Vitamin B-12 Deficiency; Achlorhydria Intervention: Other: 14C-B12 fortified bread
993	Completed	Vitamin A Absorption From Cassava in Women Condition: Vitamin A Deficiency Interventions: Other: Beta-Carotene bio-fortified cassava porridge without oil; Other: Beta-Carotene bio-fortified cassava porridge with oil; Other: White cassava porridge with retinyl palmitate reference dose
994	Completed	Brain Electrophysiological Patterns in Obesity Condition: Obesity Intervention:
995	Recruiting	Iron Absorption in Vegetarian Children Condition: Iron Absorption Intervention:
996	Completed	Calcium, Probiotics and Acute Diarrheal Disease Among Indonesian Children Conditions: Healthy; Diarrhea Interventions: Dietary Supplement: low calcium milk of 180 ml; Dietary Supplement: regular milk of 180 ml; Dietary Supplement: regular milk of 180 ml + probiotics
997	Completed	Long-term Caloric Restriction and Cellular Aging Markers Condition: Aging Intervention:
998	Completed	Post-exercise Dietary Protein Strategies Condition: Optimal Anabolic Nutrition Interventions Interventions: Other: whey protein bolus; Other: whey protein pulses
999	Recruiting	Dietary Intervention in Diabetes Mellitus (DIDM)- Intermediate and Acute Effects Condition: Type 2 Diabetes Mellitus Interventions: Other: Low Glycemic Index (LGI) intervention arm; Other: Standard Diet Intervention
1000	Completed	Effect of Increased Convective Clearance by On-Line Hemodiafiltration on All Cause Mortality in Chronic Hemodialysis Patients Conditions: End-stage Renal Disease; Cardiovascular Disease Interventions: Procedure: on-line hemodiafiltration; Procedure: low flux hemodialysis

Rank	Status	Study
1001	Recruiting	<div><div>Evaluation of an Oral Nutritional Supplement Containing AN777</div><div>Conditions: Malnutrition; Sarcopenia</div><div>Interventions: Other: medical food with AN777; Other: oral nutritional formula</div></div>
1002	Unknown †	<div><div>Study on the Efficacy of Slow Release Insulin in Cystic Fibrosis Patients With Glucide Intolerance and Clinical Decay</div><div>Conditions: Cystic Fibrosis; Glucose Intolerance</div><div>Intervention: Drug: Insulin</div></div>
1003	Recruiting	<div><div>A Study Comparing Billroth II With Roux-en-Y Reconstruction for Gastric Cancer</div><div>Conditions: Gastric Cancer; Stomach Cancer; Gastrectomy</div><div>Intervention: Procedure: Roux-en-Y or Billroth II</div></div>
1004	Completed	<div><div>Heart & Health Study</div><div>Condition: Heart Disease</div><div>Interventions: Dietary Supplement: Fish Oil; Dietary Supplement: Placebo</div></div>
1005	Recruiting	<div><div>The Hormonal and Behavioral Impact of Eating Breakfast</div><div>Condition: Eating Behavior</div><div>Intervention:</div></div>
1006	Enrolling by invitation	<div><div>Ambulatory Geriatric Evaluation - Frailty Intervention Trial</div><div>Conditions: Frail Elderly; Deaths</div><div>Interventions: Procedure: The intervention group; Procedure: control group</div></div>
1007	Completed	<div><div>Clinical Effects of a Nucleotides-Supplemented Infant Formula</div><div>Condition: Nutritional Requirements</div><div>Intervention: Drug: Nutritional supplementation (nucleotides)</div></div>
1008	Completed	<div><div>S.T.A.R.S.: Sistas Talking About Real Solutions</div><div>Condition: HIV Prevention</div><div>Interventions: Behavioral: STARS: Sistas Talking About Real Solutions; Behavioral: General Health & Nutrition</div></div>
1009	Recruiting	<div><div>Gastrostomy Tube Placed After Gastropexy Versus Gastrostomy Tube Placed Using the</div></div>

		Traditional Push/Pull Techniques
		Condition: Gastrostomy, Methods
		Interventions: Device: A 20 Fr gastrostomy tube, placed using push/pull techniques.; Device: A 20 Fr balloon type tube, placed after gastropexy.
1010	Recruiting	Optimal Dietary Treatment of Obese Adults
		Conditions: Obesity; Overweight
		Interventions: Behavioral: Standard dietary treatment (STD); Behavioral: "Ned i vaegt" (NIV); Behavioral: "Verdens bedste kur" (VBK)
1011	Completed	Study on Safety, Tolerance and Metabolic Effects of a Nutritional Supplement, Given as a Drink Before Gallbladder Surgery
		Condition: Enteral Nutrition Regimen Prior to Surgery
		Intervention: Dietary Supplement: PreOP Booster (oral nutritional supplement, food for special medical purposes)
1012	Completed	The Impact of Texas Senate Bill 42 on Middle School Children's Level of Physical Activity
		Conditions: Obesity; Body Weight
		Intervention:
1013	Completed	Is Monitoring Activity Important for Short- and Long-term Weight Loss?
		Condition: Overweight and Obesity
		Intervention: Behavioral: Self monitoring of estimated energy balance
1014	Unknown †	Lycopene or Omega-3 Fatty Acid Nutritional Supplements in Treating Patients With Stage I or Stage II Prostate Cancer
		Condition: Prostate Cancer
		Interventions: Dietary Supplement: lycopene; Dietary Supplement: omega-3 fatty acid; Genetic: gene expression analysis; Genetic: microarray analysis; Genetic: polymerase chain reaction; Procedure: biopsy; Procedure: complementary or alternative medicine procedure; Procedure: quality-of-life assessment
1015	Completed	Effects of Impaired Sleep on Energy Balance
		Conditions: Obesity; Sleep
		Intervention: Behavioral: Sleep duration
1016	Recruiting	Interventions to Reduce Excess Weight Gain in Pregnancy
		Conditions: Overweight and Obesity; Pregnancy
		Intervention: Behavioral: Intervention to reduce excess weight gain during pregnancy
1017	Recruiting	Low-energy Laser Therapy for Prevention of Oral Mucositis in Children
		Condition: Oral Mucositis
		Intervention: Device: LLLT :low level laser therapy
1018	Completed	Formalizing a Conceptual Framework of Work Domain Knowledge
		Conditions: Knowledge Representation; Knowledge Modeling
		Intervention:
1019	Completed	Melatonin and Quality of Life in Dialysis Patients
		Conditions: Sleep Problems; Haemodialysis
		Interventions: Drug: Melatonin tablet 3 mg once daily; Drug: Placebo comparator
1020	Not yet recruiting	DHA-1for Lactating Mothers
		Condition: Level/Amount of DHA in Mothers Breast Milk and Blood.
		Interventions: Drug: Expecta 200 mg; Drug: Expecta 1 gram

Include only [open studies](#) Exclude studies with [unknown status](#)

Rank	Status	Study
1021	Completed	A Pilot Study to Promote Maternal and Infant Oral Health Condition: Dental Caries Interventions: Behavioral: Nutrition plus education; Behavioral: Education only
1022	Withdrawn	High-Dose Vitamin D Deficiency in Burn Injury Condition: Burn Intervention: Drug: Vitamin D
1023	Recruiting	Southampton Mealtime Assistance Study Condition: Malnutrition Intervention: Other: trained volunteer mealtime assistance
1024	Active, not recruiting	HealtheTech Lifestyle Program Condition: Obesity Interventions: Behavioral: HealtheLifestyle Program; Behavioral: step counters with monthly feedback on logs
1025	Not yet recruiting	Peer-mentored Cooking Classes for Parents of Toddlers: Do Families Cook More and Eat Healthier After the Intervention? Condition: Obesity Intervention: Behavioral: Peer mentoring intervention ('Cooking with Friends')
1026	Unknown †	Barriers to Treatment in Obese Adolescents Condition: Obesity Interventions: Behavioral: Motivational Interviewing; Behavioral: Strength and Cardiovascular Conditioning; Behavioral: Food selection and portion control
1027	Completed	Vitamin D and Genetics in Nutritional Rickets Condition: Nutritional Rickets Interventions: Dietary Supplement: Vitamin D + Calcium; Dietary Supplement: Calcium; Dietary Supplement: Vitamin D2; Dietary Supplement: Vitamin D3
1028	Completed	Cobalamin Status in Young Children With Developmental Delay Condition: Vitamin B 12 Deficiency Intervention: Dietary Supplement: Hydroxycobalamin (Vitamin B12 Depot, Nycomed Pharma)

1029	Unknown †	Fruit and Vegetable Juice Concentrate Effects on RBP4 and Antioxidant Capacity in Lean and Overweight 6-10 Year Old Boys Condition: Obesity Intervention: Dietary Supplement: Fruit and Vegetable Juice Concentrate (FVJC)
1030	Unknown †	Research Study of Nutritional Methods to Reduce Body Fat Percentages in Overweight and Obese Populations Condition: Obesity Interventions: Procedure: Non-Personalized Meal Planning; Procedure: Personalized Meal Planning and Dietetic Consultation
1031	Completed	Popular Diets Study Conditions: Obesity; Insulin Resistance Interventions: Other: Low glycemic index diet; Other: Low fat diet; Other: Very low carbohydrate diet
1032	Completed	Dietary Supplements and Personal Energy Tracking Device to Promote and Maintain Healthy Weight Conditions: Overweight; Obesity Interventions: Behavioral: Dietary supplement containing vitamins, minerals, and herbs; Behavioral: Shakes with nutrients and herbs; Behavioral: Control dietary supplement; Behavioral: Isocaloric, isonitrogenous control shakes without herbs; Behavioral: Personal energy tracking tool
1033	Completed	Cobalamin Status in Young Children With Gastrointestinal Symptoms or Feeding Problems Condition: Vitamin B 12 Deficiency Intervention: Dietary Supplement: Hydroxycobalamin (Vitamin B12 Depot, Nycomed Pharma)
1034	Completed	Effect of a Physical-activity-promoting Environment on Motor Skills, Physical Activity and Quality of Life of Children in Childcare Settings Conditions: Obesity; Inactivity Intervention: Behavioral: Lifestyle intervention
1035	Unknown †	Trim Tots Pre-School Obesity Prevention Programme Conditions: Overweight; Obesity Interventions: Behavioral: Lifestyle intervention; Behavioral: waiting list control
1036	Not yet recruiting	Multi-Channel Automated Diet and Physical Activity Intervention for Pre-Diabetics Conditions: Diabetes; Obesity Interventions: Behavioral: Alive-PD; Behavioral: Usual Care
1037	Recruiting	Diet and Activity Promotion Among Older Working Adults Conditions: Cardiovascular Disease; Diabetes; Obesity; Aging Intervention: Behavioral: Physical Activity and Diet Intervention via Alive2
1038	Completed	Randomized Placebo-Controlled Study of Aerobic Exercise and Resistance Training Plus Megestrol Acetate for HIV-Wasting Conditions: Acquired Immunodeficiency Syndrome; HIV Wasting Syndrome; HIV Infections Interventions: Drug: megestrol; Behavioral: Exercise
1039	Active, not recruiting	Team PLAY (Positive Lifestyles for Active Youngsters) Condition: Obesity Intervention: Behavioral: Team PLAY
1040	Unknown †	Octabaix Intervention Study Conditions: Falls; Malnutrition Intervention: Behavioral: nutritional and a rehabilitation plan.

Rank	Status	Study
1041	Completed	<div>Examining the Feasibility of Collaborative Care Treatment for Overweight Adolescents</div> <div>Conditions: Obesity; Overweight</div> <div>Interventions: Behavioral: Usual care control group; Behavioral: Enriched lifestyle intervention</div>
1042	Completed	<div>Study of Health Assessment and Risk Evaluation in Aboriginal Peoples Action Toward Obesity Prevention (SHARE-AP Action)</div> <div>Condition: Obesity</div> <div>Interventions: Behavioral: Health messaging at weekly home visits by health counsellor; Behavioral: Weekly home delivery of bottled spring water; Behavioral: Weekly afterschool physical activity program for 5-18y.o.; Behavioral: Cooking classes and grocery store tours with dietician; Behavioral: Pedometers to track/increase weekly physical activity</div>
1043	Terminated	<div>Does Dietary and Lifestyle Counseling Prevent Excessive Weight Gain During Pregnancy? A Randomized Controlled Trial</div> <div>Conditions: Obesity; Pregnancy</div> <div>Intervention: Behavioral: Dietary and lifestyle counseling</div>
1044	Enrolling by invitation	<div>An Intervention Designed to Increase Physical Activity, Reduce Sedentary Practices and Promote Healthy Diets Among Preteens Who Obtain Orthodontia Care HEALTHY SMILES</div> <div>Condition: Obesity</div> <div>Intervention: Behavioral: Clinician promotion of obesity and tobacco prevention</div>
1045	Completed	<div>Does the Access to Small Delicious Dishes, Have a Positive Effect on Nutritional Intake in Patients at Nutritional Risk?</div> <div>Condition: Malnutrition</div> <div>Intervention: Dietary Supplement: Nutritional intervention</div>
1046	Recruiting	<div>Monitoring Patients Who Are Obese Surgery for Gastric By-pass Protein Supplementation and Physical Training (PROMISE)</div> <div>Condition: Obesity</div> <div>Interventions: Behavioral: Protein supplementation and strength training; Dietary Supplement: Protein supplementation</div>
1047	Completed	<div>PACE-CALL: A Weight Control Intervention for Survivors of Childhood Leukemia</div> <div>Conditions: Obesity; Overweight; Weight Loss; Weight Maintenance</div> <div>Intervention: Behavioral: Fit4Life</div>

1048	Completed	NHANES Urinary Sodium Calibration Study Condition: 24-hour Urine Sodium (and Related Nutrient) Excretion Intervention:
1049	Completed	A Randomized Controlled Trial of Best Approach to Care Compared to Diversified Chiropractic Adjustive Technique Conditions: Low Back Pain; Headache; Shoulder Pain Intervention: Procedure: spinal manipulation & patient education/nutrition
1050	Completed	Preoperative Oral Nutritional Supplement (preOP Booster) in Visceral Surgery Condition: Enteral Nutrition (Food for Special Medical Purposes) Intervention: Dietary Supplement: preOP booster (oral nutritional supplement, food for special medical purposes)
1051	Recruiting	Maternal Determinants of HIV-exposed and HIV-unexposed Fetal Growth, Birth Outcomes and Early Infant Growth Conditions: HIV; Pregnancy; Malnutrition; Cachexia Intervention:
1052	Enrolling by invitation	Orthostatic Hypotension Treatment on Rehab Unit Conditions: Orthostatic Hypotension; Falls Interventions: Other: Medication review; Dietary Supplement: Nutrition/Salt intake; Other: Education; Other: Elevation of head of bed; Other: Exercise; Drug: Drug
1053	Completed	Effect of Diet on Intestinal Microbiota and Obesity Markers in Adults Conditions: Intestinal Microbiota; Blood Markers Interventions: Dietary Supplement: low meat high fibre; Dietary Supplement: high meat low fibre
1054	Active, not recruiting	Efficacy of a Web-based Weight Loss Program Conditions: Overweight; Obese Interventions: Other: KiloCoach; Other: Control
1055	Unknown †	Effectiveness of Dipeptide N (2)-L-Alanyl-L-Glutamine in Trauma ICU Patients: Pilot, Prospective, Randomized and Double Blind Study Condition: Trauma ICU Patients Interventions: Drug: Glutamine; Drug: Physiological serum
1056	Recruiting	Prophylactic Probiotics to Extremely Low Birth Weight Prematures Conditions: Feeding; Difficult, Newborn; Growth Failure; Necrotizing Enterocolitis; Sepsis Interventions: Dietary Supplement: Lactobacillus reuteri; Dietary Supplement: Placebo
1057	Not yet recruiting	Growth Hormone and Exclusion Diet Therapy in Juvenile Crohn's Disease Condition: Crohn's Disease Interventions: Drug: Growth Hormone; Dietary Supplement: Nutraceutical Combination; Other: Exclusion Diet; Other: Placebo Growth Hormone
1058	Completed	The Psychiatric Rehabilitation Approach to Weight Loss Condition: Schizophrenic Disorders Intervention: Behavioral: Psychiatric Rehabilitation Approach to Weight Loss
1059	Recruiting	Prenatal Education Video Study Condition: Breastfeeding Intervention: Behavioral: Prenatal video
1060	Completed	Evaluating "Health at Every Size"(HAES) as an Alternative Obesity Treatment Model Conditions: Hypercholesterolemia; Hypertension; Depression; Diabetes Mellitus, Type 2

Interventions: Behavioral: Health at Every Size (HAES); Behavioral: Diet (Traditional, moderate energy restriction)

Rank	Status	Study
1061	Completed	Maternal and Infant Cord Blood Monosaccharide Content Condition: Pregnancy Intervention:
1062	Completed	Protein, Fiber, and Metabolic Syndrome - The PROFIMET Study Conditions: Overweight; Obesity; Metabolic Syndrome Interventions: Other: control diet, supported by dietary supplement twice daily; Other: high cereal fiber diet, supported by dietary supplement twice daily; Other: high protein diet, supported by dietary supplement twice daily; Other: diet moderately high both in cereal fiber and protein, supported by dietary supplement twice daily
1063	Recruiting	The Alberta Diet: Effectiveness Study Condition: Type 2 Diabetes Intervention: Behavioral: PANDA intervention
1064	Completed	Improving Health in Low Income Women Following the Birth of a Child Condition: Health Promotion Intervention: Behavioral: Nutrition and physical activity program
1065	Active, not recruiting	Protein Blends (Soy, Whey and Casein) for Muscle Synthesis Condition: Muscle Synthesis Intervention: Other: Protein Blend
1066	Unknown †	Evaluation of a Health at Every Size vs a Behavioral Weight Loss Approach for Obese Women Condition: Obesity Interventions: Behavioral: Wellness-Centered (HUGS); Behavioral: Weight-Centered (LEARN)
1067	Completed	Overcoming Nutritional Barriers in Hemodialysis Patients Condition: End Stage Renal Disease Intervention: Behavioral: Help dietitians and patients address specific nutritional barriers
1068	Recruiting	Efficacy of Enteral Glutamine Supplementation in Patients With Predicted Severe Acute Pancreatitis- A Double-Blinded Randomized Controlled Trial Condition: Acute Pancreatitis Interventions: Dietary Supplement: Enteral glutamine; Dietary Supplement: Placebo

1069	Terminated	Effect of Oral Nutritional Supplements With Specialized Nutrients on Functional Recovery and Morbidity After Gastrointestinal Surgery Condition: Patients Following Gastrointestinal Surgery Interventions: Dietary Supplement: Resource Support®; Dietary Supplement: Resource Protein®; Dietary Supplement: Placebo
1070	Recruiting	Assessment of Zinc Absorption From a Phytic Acid Rich Complementary Food Condition: Study Not Related to a Disease. Nutrition Study Without Drug Administration. Intervention:
1071	Recruiting	Web-based Delivery of Effective Treatment for Growth in Cystic Fibrosis Condition: Cystic Fibrosis Intervention: Behavioral: Web Intervention
1072	Unknown †	Risk of Celiac Disease and Age at Gluten Introduction Condition: Celiac Disease Intervention: Dietary Supplement: gluten-free, normocaloric diet from 6 to 12 months
1073	Unknown †	A Dietary Intervention- Randomized Controlled Trial (DIRECT) Study; BGU-Harvard-Robarts Collaboration Conditions: Obesity; CHD Intervention: Behavioral: dietary intervention
1074	Active, not recruiting	Novel Strategies for Reducing Heart Disease Risk Disparities Condition: Cardiovascular Diseases Interventions: Behavioral: Nutrition, Exercise, Stress Management Counseling; Other: usual care
1075	Enrolling by invitation	Brain Activation in Response to Appetitive Cues Pre- and Post- Bariatric Surgery Condition: Obesity Interventions: Procedure: Fed Condition; Procedure: Fasted Condition
1076	Enrolling by invitation	Encouraging Healthy Food Shopping and Eating Behaviors by Price Reduction: A Community Supermarket Study Condition: Obesity Intervention: Behavioral: Discount intervention
1077	Recruiting	Efficacy of Newborn Vitamin A Supplementation in Improving Immune Function Condition: Vitamin A Deficiency Interventions: Dietary Supplement: retinyl palmitate; Dietary Supplement: Placebo
1078	Completed	Efficacy of Brooke Bond Black Tea Extract on Flow Mediated Dilation in Indian Males Condition: Healthy Intervention: Other: Nutrition intervention study with a black tea extract
1079	Completed	Evaluating the Health Benefits of Physical Activity Recommendations in the Dietary Guidelines Conditions: Obesity; Sedentary Lifestyle; Body Weight Interventions: Behavioral: Physical Activity; Behavioral: Control
1080	Unknown †	Acceptability of LNS for Infants and Young Children in Guatemala Condition: Malnutrition Intervention: Dietary Supplement: Lipid-based supplement (LNS)

Rank	Status	Study
1081	Completed	<div><div><div><div><div>Acceptability of a Cereal for Complementary Feeding of Infants and Young Children Made From Caterpillars</div><div>Conditions: Malnutrition; Stunting of Growth</div><div>Intervention: Dietary Supplement: caterpillar cereal</div></div></div></div></div>
1082	Recruiting	<div><div><div><div><div>Enteroprotein Modified Fast (EMF)</div><div>Condition: Obesity</div><div>Intervention: Procedure: enteral protein tube feeding in obese patients</div></div></div></div></div>
1083	Completed	<div><div><div><div><div>Fibre and Appetite Regulation Trial (FART)</div><div>Conditions: Obesity; Diabetes</div><div>Interventions: Drug: Low fibre breakfast cereal (puffed rice/cornflakes); Drug: High fibre cereal (All Bran/Bran Flakes)</div></div></div></div></div>
1084	Not yet recruiting	<div><div><div><div><div>Trial of Continuous Versus Interrupted Feeding for Intubated Intensive Care Unit Patients</div><div>Condition: Malnutrition</div><div>Intervention: Dietary Supplement: Continuous Tube Feedings</div></div></div></div></div>
1085	Active, not recruiting	<div><div><div><div><div>Efficacy of Caterpillar Cereal for Complementary Feeding in the Democratic Republic of Congo</div><div>Conditions: Malnutrition; Stunting of Growth; Iron Deficiency Anemia; Neurodevelopmental Impairment; Infectious Diseases Morbidity</div><div>Intervention: Dietary Supplement: Caterpillar Cereal</div></div></div></div></div>
1086	Unknown †	<div><div><div><div><div>The Additive Effect of Cognitive Behavioral Treatment (CBT) to Conventional Weight Loss Intervention Program for Young Adults With Intellectual Disabilities</div><div>Conditions: Overweight; Obesity; Learning Disability</div><div>Interventions: Other: Nutritional intervention and physical activity; Other: Nutritional intervention, physical activity and behavioral treatment</div></div></div></div></div>
1087	Completed	<div><div><div><div><div>The Effect of Fish Oils on Human Hepatic Colorectal Metastases</div><div>Condition: Colorectal Liver Metastases</div><div>Interventions: Dietary Supplement: Lipidem- fish oil emulsion BBraun UK; Procedure: Digital Contrast MRI scan</div></div></div></div></div>
1088	Completed	<div><div><div><div><div>The Effects of Eicosapentaenoic Acid (EPA), Gamma-Linolenic Acid (GLA) and Antioxidants in the</div></div></div></div></div>

		Treatment of Sepsis
		Conditions: Sepsis; Severe Sepsis; Septic Shock
		Interventions: Dietary Supplement: Eicosapentaenoic acid, Gamma-Linolenic Acid and Antioxidant Vitamins; Dietary Supplement: Standard ICU enteral diet, isocaloric to the study diet
1089	Active, not recruiting	Effect of Qigong Therapy in Patients With Advanced Lung and Gastrointestinal Cancer Undergoing Chemotherapy
		Conditions: Carcinoma, Non-Small-Cell Lung; Cancer of the Gastrointestinal Tract
		Interventions: Behavioral: Standard Exercise; Behavioral: Qigong Exercise
1090	Active, not recruiting	High Fat/High Calorie Trial in Amyotrophic Lateral Sclerosis
		Condition: Amyotrophic Lateral Sclerosis
		Interventions: Dietary Supplement: Oxepa; Dietary Supplement: Jevity 1.5; Dietary Supplement: Jevity 1.0
1091	Recruiting	Exploration of the Lipid Metabolism During the Diabetic Pregnancies
		Conditions: Pregnancy; Pregnancy in Diabetes; Type 1 Diabetes Mellitus; Type 2 Diabetes Mellitus; Macrosomia
		Interventions: Other: blood tests; Other: diet questionnaire; Other: umbilical cord blood collect; Other: placenta collect
1092	Completed	Laparoscopic Revision of Vertical Banded Gastroplasty to Gastric Bypass
		Conditions: Clinically Severe Obesity; Inadequate Weight Loss; Obesity Recidivism
		Intervention:
1093	Recruiting	Healthy Brains & Behavior: Understanding and Treating Youth Aggression
		Condition: Aggression
		Interventions: Behavioral: CBI; Dietary Supplement: NUT
1094	Unknown †	Micronutrient Supplemented Probiotic Yogurt for HIV/AIDS and Other Immunodeficiencies
		Conditions: HIV Infections; Cancer, Second Primary
		Interventions: Dietary Supplement: Probiotic Yogurt B: with various micronutrients; Dietary Supplement: Probiotic Yogurt A: Kaiser micronutrients; Dietary Supplement: Probiotic yogurt C: with basic micronutrients; Dietary Supplement: Probiotic Yogurt D: Placebo -- no added micronutrients
1095	Recruiting	Effect of High Fiber and Sugar Free Biscuits in Prediabetics Population
		Condition: Impaired Glucose Tolerance
		Intervention: Dietary Supplement: High fiber sugar free biscuit
1096	Completed	Zinc and Copper Absorption in Neonates With Biliary Losses
		Condition: Ileostomy
		Intervention:
1097	Not yet recruiting	The GROWNDUP Study of Late Preterm Births
		Condition: Preterm Birth
		Intervention: Other: Specialized LPTB clinic
1098	Recruiting	The Energy Dose Study
		Condition: Critical Illness
		Interventions: Other: 0.6x measured REE; Other: 1.0 x measured REE; Other: 1.3 X measured REE
1099	Enrolling by invitation	fMRI and Appetite-Related Hormones Pre and Post Obesity Surgery
		Condition: Obesity
		Interventions: Procedure: Liquid meal responses; Behavioral: fMRI responses to food-cues
1100	Completed	Immunonutrition in Cardiac Surgery

Conditions: Thoracic Surgery; Cardiac Surgery; Cardiopulmonary Bypass
Intervention: Drug: Oral Impact (preoperative enteral nutritional supplement)

Rank	Status	Study
1101	Recruiting	<div>Efficacy of a Post-Rehabilitation Exercise Intervention</div> <div>Conditions: Hip Fracture; Disability</div> <div>Interventions: Behavioral: Enhanced Strong for Life; Behavioral: cardiovascular nutrition education</div>
1102	Recruiting	<div>Study of Effectiveness of Adding the Health Promotion and Rehabilitation for Treatment for Alcohol and Drug Abusers</div> <div>Conditions: Alcoholism; Substance-Related Disorders; Smoking; Chronic Disease; Malnutrition</div> <div>Intervention: Behavioral: Health promotion activities</div>
1103	Completed	<div>Craving and Lifestyle Management Through Mindfulness Study</div> <div>Condition: Obesity</div> <div>Intervention: Behavioral: Craving and Lifestyle Management through Mindfulness</div>
1104	Enrolling by invitation	<div>Effects of Nutritional Supplementation and Dietary Advice in Elderly Patients After Hospital Discharge</div> <div>Condition: Malnutrition</div> <div>Interventions: Dietary Supplement: Nutritional supplementation with a liquid formula; Other: Dietary advice; Other: Combination of supplement and dietary advice</div>
1105	Completed	<div>Home-Based Exercise and Weight Control Program for Pain Control in Overweight Elderly With Osteoarthritis of the Knee</div> <div>Conditions: Chronic Diseases; Obesity; Osteoarthritis; Pain</div> <div>Intervention: Other: Weight Control Nutritional Program</div>
1106	Completed	<div>Balance System Study in Type 2 Diabetic Patients</div> <div>Conditions: Type 2 Diabetes; Obesity</div> <div>Intervention: Device: BALANCE System intestinal electrical stimulator</div>
1107	Completed	<div>Meditation-Based Treatment for Binge Eating Disorder</div> <div>Conditions: Binge Eating Disorder; Obesity</div> <div>Intervention: Behavioral: Meditation</div>
1108	Recruiting	<div>An Investigation of the Efficacy of Oral Nutritional Supplements in Participants at Risk of Malnutrition</div> <div>Condition: Malnutrition</div>

		Interventions: Dietary Supplement: Standard ONS; Dietary Supplement: High Energy, low volume ONS
1109	Withdrawn	A Short-Term Study to Examine the Effects of ATHX-105 Phosphate on Weight Loss and Safety Condition: Obesity Interventions: Drug: ATHX-105 phosphate; Drug: Placebo
1110	Active, not recruiting	Effects of Physical Activity and Dietary Change in Minority Breast Cancer Survivors Condition: Breast Cancer Intervention: Behavioral: Physical activity and dietary change
1111	Completed	Enhanced Protein-Energy Provision Via the Enteral Route in Critically Ill Patients Condition: Critically Ill Intervention: Other: PEP-uP Protocol
1112	Active, not recruiting	Ideas Moving Parents and Adolescents to Change Together (IMPACT) Conditions: Overweight; Obese Interventions: Behavioral: HealthyCHANGE; Behavioral: SystemCHANGE; Other: Tools4CHANGE
1113	Recruiting	Effects of Extended Haemodialysis Treatment Duration in Patients With End-stage Renal Disease Condition: End Stage Renal Disease Interventions: Other: extended treatment time; Other: Standard treatment time
1114	Recruiting	A Five-Year Quality of Life Study for Cancer Patients Condition: Cancer Intervention:
1115	Completed	Prevention of Intrauterine Growth Retardation in Hounde District, Burkina Faso Condition: Multiple Micronutrient Deficiencies During Pregnancy Interventions: Dietary Supplement: Multiple micronutrient supplements (MMN); Dietary Supplement: IFA
1116	Completed	Motivational Enhancement System for Adherence Condition: HIV Interventions: Behavioral: Motivational Enhancement System for Adherence (MESA); Behavioral: Motivational Enhancement System for Health (MESH)
1117	Recruiting	Prospective Follow-up of a Cohort of Pre-diabetics in the North of France (DiabeNord) Condition: Prediabetes Intervention: Other: Prediabetes screening and prospective follow-up over 5 years
1118	Completed	Adding Malabsorption for Failed Gastric Bypass Conditions: Clinically Severe Obesity; Obesity Recidivism; Inadequate Initial Weight Loss; Poor Weight Loss; Persistent Obesity; Refractory Obesity; Intractable Obesity Intervention:
1119	Unknown [†]	The BONES Project: Building Healthy Bones in Children Condition: Osteoporosis Intervention: Behavioral: Beat Osteoporosis: Nourish and Exercise Skeletons (BONES) Project
1120	Completed	Osteoporosis Prevention: Changes to Exercise and Diet in Children Condition: Osteoporosis Intervention: Behavioral: Physical activity and nutrition intervention

Rank	Status	Study
1121	Completed	<div>Effect of Flaxseed on Lipid Uptake and Appetite</div> <div>Condition: Obesity</div> <div>Intervention: Dietary Supplement: Whole flaxseeds, flaxseed mucilage, glucomannan</div>
1122	Completed	<div>Study on the Effect of Fish Oil and Appetite</div> <div>Conditions: Obesity; Cachexia</div> <div>Intervention: Dietary Supplement: Fish oil</div>
1123	Active, not recruiting	<div>Normalcy of Food Intake in Head and Neck Cancer Patients</div> <div>Condition: Neoplasms, Head and Neck</div> <div>Interventions: Other: Swallow therapy in combination with individual dietary counselling; Other: Individual dietary counselling</div>
1124	Completed	<div>PORTAS 2, Comparing Venae Sectio Versus Punction of Vena Subclavia for Insertion of a Totally Implantable Access Port</div> <div>Condition: Cancer</div> <div>Interventions: Procedure: Venae sectio; Procedure: Punction of V. subclavia</div>
1125	Unknown †	<div>Crohn's Disease, Obesity and Disease Severity</div> <div>Condition: Crohn's Disease, Obesity</div> <div>Intervention:</div>
1126	Completed	<div>Complementary and Integrative Therapy for Diabetic Neuropathy</div> <div>Conditions: Diabetes Mellitus, Type 2; Diabetic Neuropathy</div> <div>Intervention: Other: inpatient integrative treatment</div>
1127	Completed	<div>Randomized Crossover Study of Magnesium Supplementation</div> <div>Conditions: Diabetes Mellitus, Type 2; Inflammation</div> <div>Interventions: Dietary Supplement: Magnesium Citrate: a total of 500 mg elemental magnesium; Other: Placebo</div>
1128	Unknown †	<div>Study for the Effectiveness of Intensive Therapy Aiming at a Remission of Diabetic Nephropathy</div> <div>Conditions: Type 2 Diabetes Mellitus; Diabetic Nephropathy</div> <div>Interventions: Drug: ACE inhibitors,ARB, HMG-CoA reductase inhibitors, vitamins; Behavioral:</div>

Compliance, antismoking, and **nutrition** instruction

1129	Recruiting	Effect of Physical Activity and Diet on the Treatment of Metabolic Syndrome Condition: Metabolic Syndrome Interventions: Behavioral: Type of physical activity (resistance, endurance); Behavioral: Restrictive diet
1130	Completed	Effect of Vitamin C on Iron Absorption Condition: Iron Deficiency Intervention: Dietary Supplement: Vitamin C
1131	Active, not recruiting	Effectiveness of Selling Micronutrient Sprinkles in Rural Kenya Condition: Anemia, Iron-deficiency Intervention: Dietary Supplement: Micronutrient powders (Sprinkles)
1132	Active, not recruiting	Dietary Intervention With Shop Model - SHOPUS Condition: Obesity Intervention: Behavioral: Dietary intervention
1133	Completed	Dietary Fatty Acids as Complementary Therapy in Type 2 Diabetes Mellitus Condition: Type 2 Diabetes Mellitus Interventions: Drug: Rosiglitazone (Avandia) OR other diabetes medication currently prescribed to participant; Dietary Supplement: conjugated linoleic acid (CLA)
1134	Completed	Regimen for the Treatment of Cachexia in Subjects With NSCLC Condition: Cachexia Interventions: Drug: VT-122 low dose; Drug: VT-122 high dose
1135	Completed	Protein Dose-reponse Effect on GLP-1, PYY and Appetite in Male Subjects Condition: Obesity Intervention: Other: Dose-reponse effect of protein on appetite and appetite-regulating hormones
1136	Recruiting	Study of a National Cohort of Adult Patients With Phenylketonuria Conditions: PKU; Hyperphenylalaninemia; BMD; Quality of Life Intervention:
1137	Completed	The Effect of Calcium on Postprandial Lipid Profile and Appetite Condition: Obesity Intervention: Behavioral: high calcium intake
1138	Completed	Evaluation of Mineral Absorption in Infants Fed Infant Formula Condition: Healthy Intervention: Procedure: Calcium absorption
1139	Not yet recruiting	Evaluating a Structural and Behavioral HIV Risk Reduction Program for Black Men Condition: HIV Interventions: Behavioral: MEN Count; Behavioral: Comparison
1140	Completed	Essential Fatty Acids During Complementary Feeding Conditions: Obesity; Growth; Metabolic Syndrome; Cardiovascular Disease Interventions: Dietary Supplement: Fish Oil; Dietary Supplement: Sunflower Oil

Rank	Status	Study
1141	Completed	<div>ProSat - Long Term Effect of Probiotics on Satiety</div> <div>Conditions: Obesity; Appetite Regulation</div> <div>Intervention: Dietary Supplement: Probiotic</div>
1142	Completed	<div>The Role of Tea Catechins and Caffeine in Relation to Energy Metabolism</div> <div>Condition: Obesity</div> <div>Interventions: Dietary Supplement: green tea; Dietary Supplement: Mix of catechins and caffeine; Dietary Supplement: EGCG; Dietary Supplement: EGC; Dietary Supplement: Caffeine; Dietary Supplement: Placebo</div>
1143	Unknown †	<div>Walking, Spontaneous Physical Activity and Lipid Oxidation After Dietary Treatment of Obesity</div> <div>Condition: Obesity</div> <div>Intervention: Behavioral: walking activity</div>
1144	Recruiting	<div>Impact of the Time of Oral Nutritional Supplements (ONS) Consumption on Daily Alimentary Intakes of Malnourished Elderly</div> <div>Condition: Malnutrition in the Elderly</div> <div>Intervention: Other: oral nutritional energy and protein enriched supplement (NOS)</div>
1145	Recruiting	<div>Satiety Innovation- Study 793. University of Aberdeen</div> <div>Condition: Overweight and Obesity</div> <div>Intervention: Other: Resistant Starch type 3</div>
1146	Recruiting	<div>Does Incorporation of EPA and DHA in Lipoproteins Differ According to Apolipoprotein E Genotype?</div> <div>Condition: Healthy</div> <div>Intervention: Dietary Supplement: omega-3 fatty acids</div>
1147	Completed	<div>Impact of Black Pepper on Energy Expenditure and Substrate Utilization</div> <div>Condition: Obesity</div> <div>Intervention: Other: 24-hour energy expenditure and substrate utilization</div>
1148	Completed	<div>Vitamin Deficiency in Immigrants, a Treatment Study</div> <div>Condition: Vitamin D Deficiency</div> <div>Intervention: Drug: Cholecalciferol</div>

1149	Completed	Children Education and Cardiovascular Risk Reduction in Their Parents Condition: Risk Reduction Interventions: Behavioral: Educational program in cardiovascular prevention; Behavioral: Lifestyle counseling
1150	Completed	Starting Pediatric Obesity Prevention in Pregnancy Conditions: Obesity; Pregnancy Interventions: Behavioral: Social network building intervention; Behavioral: Home visit
1151	Completed	Building Social Networks to Enhance Postpartum Weight Loss and Appropriate Infant Feeding Practices Condition: Obesity Interventions: Behavioral: Social network building intervention; Behavioral: Home visit
1152	Recruiting	Effects of Food Cooking on Diabetes-2 Risk Factors Conditions: Obesity; Type 2 Diabetes; Insulin Resistance; Cardiovascular Disease Intervention: Other: Dietary intervention
1153	Completed	Effects of Advanced Glycation Endproducts on Satiety and Inflammation Conditions: Obesity; Type 2 Diabetes; Insulin Resistance; Cardiovascular Disease Intervention: Other: Dietary meal intervention
1154	Recruiting	The Effect of Protein and Calcium on Weight Change and Blood Lipid Profile Condition: Prevention of Obesity Interventions: Dietary Supplement: Whey protein; Dietary Supplement: Whey protein enriched with calcium; Dietary Supplement: Soy protein; Dietary Supplement: Maltodextrin
1155	Recruiting	Evaluation of a Combined Parent-student Programme for Smoking Prevention in Berlin Schools Condition: Tobacco Use Disorder Interventions: Behavioral: Student-Intervention only group; Behavioral: Multi-component Intervention; Behavioral: Control Group
1156	Recruiting	Evaluation of Effectiveness of Nutritional Counseling in Patients After Stroke Conditions: Stroke; Cardiovascular Diseases Intervention: Other: Nutritional Counseling
1157	Unknown †	The Effectiveness of Photographic Educational Material on Carbohydrate Counting for Adolescents With Diabetes Condition: Diabetes Mellitus Intervention: Device: Photographic Educational Material
1158	Active, not recruiting	Identifying and Overcoming Barriers to Diabetes Management in the Elderly: A Cost-effective Intervention Study Condition: Diabetes Intervention: Behavioral: Behavioral
1159	Completed	Dianeal, Extraneal, Nutraline (D-E-N) Versus Dianeal Only in Diabetic Continuous Ambulatory Peritoneal Dialysis (CAPD) Patients Conditions: End Stage Renal Disease (ESRD); Diabetes; CAPD Interventions: Drug: Dianeal; Drug: Dianeal, Extraneal, Nutraline
1160	Completed	Impact of a Fermented Infant Formula in Weaning Babies Condition: Weaning Interventions: Other: Breastmilk; Other: Standard milk; Other: Fermented milk

† Indicates status has not been verified in more than two years

Rank	Status	Study
1161	Completed	<div>Dairy Proteins and Postprandial Appetite Regulation and Energy Expenditure</div> <div>Condition: Obesity</div> <div>Intervention: Dietary Supplement: dairy proteins</div>
1162	Unknown [†]	<div>The Effect of Whey and Casein on IGFs in Prepubertal Boys</div> <div>Conditions: Metabolic Syndrome; Obesity</div> <div>Interventions: Behavioral: Whey without milk minerals; Behavioral: Whey with milk minerals; Behavioral: Casein without milk minerals; Behavioral: Casein with milk minerals</div>
1163	Active, not recruiting	<div>Targeting the Gut Microbiome to Investigate the Pathways of Progression From Obesity to Metabolic Diseases in an At-risk Population.</div> <div>Conditions: Obesity; Insulin Resistance</div> <div>Interventions: Dietary Supplement: Lactobacillus paracasei ssp paracasei F19; Dietary Supplement: Flax seed fibres; Dietary Supplement: Maltodextrin (Placebo)</div>
1164	Withdrawn	<div>Heparin Versus no Heparin on Duration of Peripherally Inserted Central Catheter (PICC) Patency in Neonates</div> <div>Conditions: Infant, Premature; Anticoagulants; Thrombosis</div> <div>Interventions: Drug: heparin; Drug: No heparin</div>
1165	Recruiting	<div>Full4Health: Understanding Food-gut-brain Axis Across the Lifecourse</div> <div>Condition: Obesity</div> <div>Interventions: Other: Breakfast Study; Other: fMRI Study</div>
1166	Completed	<div>Functional Lipids and Appetite Regulation</div> <div>Condition: Obesity</div> <div>Intervention: Behavioral: SALATRIM</div>
1167	Recruiting	<div>Glycemic Index - Variability Among Individuals</div> <div>Conditions: Diabetes; Obesity; Metabolic Syndrome; Cardiovascular Disease</div> <div>Interventions: Other: Carbohydrate; Other: Carbohydrate Load; Other: Carbohydrate plus Protein; Other: Carbohydrate plus Fat; Other: Fiber</div>
1168	Completed	<div>B181 Metobes-III: Weight Loss Maintenance of a New Bioactive Compound (Metobes-Long)</div> <div>Condition: Obesity</div>

		Intervention: Drug: Metobes-compound
1169	Completed	Weight Loss Maintenance of a New Bioactive Compound (Metobes-Long) Condition: Obesity Intervention: Drug: Metobes-compound
1170	Completed	B181: Stimulation of Thermogenesis by Bio-Active Food Ingredients Condition: Obesity Intervention: Drug: tyrosine, green tea, caffeine
1171	Recruiting	Tu Salud Si Cuenta: UT Community Outreach Program for Community-based Diabetes Prevention and Control. Condition: Diabetes, Obesity Intervention: Behavioral: Tu Salud Si Cuenta Behavioral Intervention
1172	Not yet recruiting	Acute Effect of Animal and Vegetable Protein Rich Meals With Comparable Dietary Fibers Content on Appetite Sensation and Energy Intake Condition: Obesity Intervention: Other: Acute effect of animal and vegetable protein rich meals with comparable dietary fibers content on appetite sensation and energy intake
1173	Completed	The Acute Effect of Malt Extract Versus Sucrose on the Response of Glucose and Insulin, Subjective Appetite Sensations and ad Libitum Energy Intake Conditions: Obesity; Diabetes Intervention: Other: The acute effect of malt extract versus sucrose on the response of glucose and insulin, subjective appetite sensations and ad libitum energy intake
1174	Not yet recruiting	Effect of Dietary Components on Gastrointestinal Side Effects Induced by Orlistat, a Lipase Inhibitor Condition: Obesity Interventions: Dietary Supplement: Control; Dietary Supplement: Capolac; Dietary Supplement: Flax fiber; Dietary Supplement: Capolac+Flax fiber
1175	Completed	Thermogenic Properties of Zantrex-3 Condition: Obesity Intervention: Dietary Supplement: Thermogenic properties of Zantrex-3®
1176	Unknown [†]	The Effect of Calcium on Fecal Fat and Energy Excretion Condition: Obesity Intervention: Other: Dairy calcium
1177	Recruiting	Evaluation of the Association Between the Menstrual Cycle and Weight Loss in Healthy, Overweight Premenopausal Women Condition: Obesity Intervention: Other: Evaluation of the Association between the Menstrual Cycle and Weight Loss in Healthy, Overweight Premenopausal Women
1178	Not yet recruiting	Efficacy Study of Diabetes Group Visits Condition: Diabetes Mellitus, Type 2 Intervention: Behavioral: Group Visits
1179	Completed	Evaluation of Mineral Absorption in Infants Fed Infant Formula Condition: Mineral Absorption in the Urine Intervention: Other: Infant Formula
1180	Recruiting	Promoting Healthy Lifestyles Using Mobile Phones Condition: Health Behavior Intervention: Behavioral: Mobile Intervention for Lifestyle Eating/Exercise @ Stanford

Rank	Status	Study
1181	Active, not recruiting	<div>Acute Effects of Wine Consumption on Healthy Volunteers</div> <div>Condition: Healthy, Postprandial</div> <div>Intervention: Other: Robola, Cabernet Sauvignon wines</div>
1182	Enrolling by invitation	<div>Impact of Self-care Education Program in Patients With Type 2 Diabetes in Primary Care in the Basque Country</div> <div>Condition: Diabetes Mellitus</div> <div>Intervention: Behavioral: Diabetes Self-Management Program</div>
1183	Withdrawn	<div>Growth Hormone Secretagogue MK-0677's Effect on Lean Body Mass in Chronic Kidney Disease Stage 4/5 Subjects</div> <div>Conditions: Chronic Kidney Disease; Kidney Disease</div> <div>Interventions: Drug: MK-0677; Drug: Placebo</div>
1184	Recruiting	<div>Swallowing Disorders After Prolonged Mechanical Ventilation</div> <div>Condition: Larynx Disease</div> <div>Intervention:</div>
1185	Not yet recruiting	<div>Mechanisms of Atherogenesis During Post-prandial Time in Childhood Obesity</div> <div>Conditions: Childhood Obesity; Endothelial Dysfunction; Inflammation; Insulin Resistance</div> <div>Intervention: Dietary Supplement: standardized mixed meal</div>
1186	Completed	<div>Adherence to Weight Loss for Hypertension in African American Women</div> <div>Conditions: Cardiovascular Diseases; Heart Diseases; Hypertension; Obesity</div> <div>Interventions: Behavioral: diet; Behavioral: physical activity</div>
1187	Active, not recruiting	<div>Steps to Health: Targeting Obesity in the Health Care Workplace</div> <div>Conditions: Overweight; Obese</div> <div>Interventions: Behavioral: Steps to Health; Behavioral: Steps to Health Plus!</div>
1188	Completed	<div>Intervention With n-3 Polyunsaturated Fatty Acids (PUFA)-Supplemented Products in Moderate Hypertriglyceridemic Patients</div> <div>Condition: Hypertriglyceridemia</div> <div>Intervention: Dietary Supplement: n-3 PUFA</div>

1189	Completed	Fortified Hospital Food as Nutritional Support Condition: Malnutrition Intervention: Dietary Supplement: Nutritional intervention using
1190	Active, not recruiting	Family Program for Weight Gain Prevention Conditions: Overweight; Obesity Intervention: Behavioral: Family Program for the Prevention of Weight Gain
1191	Recruiting	Analysis of Body Composition in Patients With Hepatocellular Carcinoma in Radioablation Condition: Liver Carcinoma Intervention: Behavioral: HCC under treatment with radioablation
1192	Recruiting	Survival on Peritoneal Dialysis (PD) Versus Hemodialysis (HD) in China Condition: End Stage Renal Disease Interventions: Other: Peritoneal Dialysis treatment; Other: Hemodialysis treatment
1193	Completed	Post Partum Maternal and Neonatal Intervention Package Conditions: Early Postpartum and Newborn Care; Maternal Mortality; Neonatal Mortality Intervention: Other: Intervention
1194	Recruiting	Oral Sphere: Salivary Markers and Food. A Prospective Study in Children Expressing Oral Disorders Condition: Oral Disorder Intervention: Other: Taking of saliva before and after gustatory stimulation
1195	Completed	Behavior-Based Dietary Intervention in Treating Patients With Hormone-Refractory Prostate Cancer Condition: Prostate Cancer Interventions: Behavioral: behavioral dietary intervention; Dietary Supplement: dietary intervention; Procedure: therapeutic dietary intervention
1196	Withdrawn	Study of Intravenous Amino Acid Infusion to Prevent Contrast Dye Mediated Renal Damage Conditions: Contrast Nephropathy; Renal Failure Interventions: Drug: Amino Acid; Drug: Placebo
1197	Completed	Reducing Obesity and Type 2 Diabetes in High Risk Youth Conditions: Obesity; Type 2 Diabetes Interventions: Behavioral: HEALTH[e]TEEN; Behavioral: HEALTH[e]TEEN + CST
1198	Unknown [†]	Iron Supplementation Among Adolescent Girls in India Condition: Iron Deficiency Anemia Intervention: Drug: Iron-folic acid supplement
1199	Recruiting	Effect of Protein Blend Supplementation During Exercise Training on Muscle Growth and Strength Condition: Muscle Interventions: Dietary Supplement: Blend; Dietary Supplement: Whey; Dietary Supplement: Placebo
1200	Recruiting	Childhood Obesity Prevention Program for Hispanics Condition: Childhood Obesity Intervention: Behavioral: Healthy Families-Childhood Obesity Prevention and Oral Health
